Today

I Am the State
When Russia Is Rich
About Business
Number Twenty Dies

By Arthur Brisbane

AMAZING in its tone of command is Mussolini's statement concerning his power. Louis the 14th with his *l'etat c'est moi,* "the state is myself," was not more absolute. To the statement by the Vatican that education of children should be controlled by the church, Mussolini replies:

"I wish that there be religion throughout the country. Children may be taught their catechism.

"I will send them to communion in a body on Sunday, in their Balila (Fascist) uniforms, or otherwise. For that I let the priests work. That's religion.

"The rest is politics, and politics—that is I. I will not admit that anybody, absolutely anybody, touch that which belongs to the state. Everything within the state, nothing outside the state, nothing against the state."

Mussolini goes on to say that the child, "assuming that he is old enough to learn, belongs to the state alone. No sharing is possible," and "religion needs the support of that authority which comes from us alone."

All must bow to Fascism. Mussolini says: "We do not admit attacks upon the regime, or even a discussion of it."

Mussolini says that the Fascists, in their private meetings, "discuss ardently, but at a certain moment I say: 'The case has been heard,' and the discussion ceases. I then decide, and everybody obeys."

That is what you might call "absolute rule."

You must go far back in history to match it.

Capitalists shivering at the mention of Russia, like a little boy who dreads a bear on the dark staircase, will be glad to hear that Stalin has given up his "world revolt idea." He wants to put Russia's industries, her five-year and her ten-year plans, in good order first.

At her present rate, Russia will develop gigantic industrial success, and great wealth will come with it. And Russians, from the top down, will be surprised to find what effect great wealth can have on extreme radicalism.

To make a man conservative, MAKE HIM RICH.

By the way, the Russians in their enterprises have distinguished partners. The General Motors, Ford, and other American companies have been sending engineers, machinery, and extending credit.

Now Richard B. Mellon, brother of the Secretary of the Treasury, is interested in the building of Magnetogors, the third largest steel mill in the world.

Nothing succeeds like success, and it attracts successful men to it, in Moscow, Timbuctoo, or at the corner of Broad and Wall Streets, New York.

Some business news: Everybody seems to share in this depression. For the first time in four and a half years, Wall Street sold fewer than 1,000,000 shares last Wednesday, and a seat on the Exchange sold for $200,000. Think of that, a seat that would have been worth three times as much a little while ago, when the price was on its way to $1,000,000.

The price will come. The crop of lambs is maturing.

The price of export copper was cut to eight cents yesterday. Wall Street dawdled along, dismally.

Vacation days are coming and the brokers who speculate from day to day are inclined to pull in their speculative horns.

The big telephone company is buying $1,500,000 of Chicago's tax warrants, to help out the big city in its financial troubles. City management might learn from telephone management and from other big corporations.

The American International Telephone and Telegraph Co. is making an alliance with that powerful Swede Ericsson, who owns great enterprises all over the world, and knows how to make them pay.

Mrs. Irene Frances La Porte is dead, doctors say: "Occupational radium poisoning, developing into sarcoma of the pelvis, killed her."

In the war patriotic women were needed to paint clock and watch dials with radium. They volunteered, though the work was dangerous.

Mrs. La Porte is the 20th to die of radium poisoning. Unlike others, she did not sue for damages when she found she was dying.

She leaves two small children, and the country that needed her in war might, in spite of the depression, find a way to do something for the children now.

Dr. Marie Stopes, who preaches birth control in Great Britain and insists on her right to instruct sickly mothers of too many children, is invited, by Mussolini, to go to Italy and lecture on the subject in Rome.

This does seem hard to believe,

FATHER OF NURSE TESTIFIES

STATE RESTS IN 'PLAYBOY' DEATH CASE

Father of Slain Girl Testifies; Magrath Asserts Nurse Was Throttled

BULLETIN

Newport, R. I., June 19—The state rested in the Hathaway trial at 3:15 p. m. today with Carl B. Russell, father of the slain Verna Russell, on the stand. He told a dramatic story, sketching his daughter's life, and at times was almost overcome by his emotions. He was not cross-examined following his brief testimony.

By WIN BROOKS
Boston Evening American Staff Correspondent

Newport, R. I., June 19—Elliott R. Hathaway's defense at his trial for the murder of Verna E. Russell announced today it would introduce evidence that Verna drank liquor before she died.

The announcement was made in open court a short time after Dr. George Burgess Magrath, of Boston, the state's medical ace, had testified that the pretty Fall River nurse was throttled to death.

And that she had no organic heart trouble.

The defense evidence that Verna drank liquor will be introduced through Hathaway's own story of the happenings of the night of March 23 in Winward Lane at Tiverton, it was indicated.

SISTER IN COURT

The Fall River playboy, son of Rep. Louis E. Hathaway of Massachusetts, in his favorite posture, head resting on the right hand that the state claims throttled his girl

Curley Wires Walker on His Birthday

Mayor Curley wired birthday greetings to Mayor "Jimmy" Walker of New York.

The message reads: "Congratulations upon the first half century. May every day in the second half century be better than the best day you have lived in the first half century."

S. Appleton Abbott Dies

Rome, June 19 (AP)—Samuel Appleton Abbott, a Boston attorney, died today at his residence here, aged 86. He will be buried in the English cemetery.

PUNCHARD IN FAINT AS HE IS JAILED

Salem Banker Pleads Guilty to Theft; Suicide Attempt in West Is Revealed

Lawrence, June 19—Ralph A. Punchard, former assistant cashier of the Merchants National Bank of Salem, collapsed in the dock in superior court here today when he was sentenced to state prison for from seven to ten years by Judge Louis S. Cox.

Punchard, who had previously pleaded not guilty to two indictments for larceny, changed the plea today to guilty.

On the indictment for larceny of property from Annie G. Spinney, amounting to $28,780.32, he was given a sentence of from four to six years. When this sentence was pronounced Punchard fainted. He was revived and given water.

The other indictment was for larceny from the Salem Chamber of Commerce of $8910.62. The sentence was from three to four years. Punchard was unable to walk unaided and was assisted to the detention room by sheriffs.

An indictment for embezzlement from Annie G. Spinney and another for larceny from the Merchants National Bank of Salem were filed.

Atty. Francis E. Rafter of Salem, his counsel, told the court Punchard had fled from Salem to Chicago; that while in the Western metropolis he was overcome by remorse and swallowed a large quantity of antiseptic; that he was violently ill, and that when he was able he took a bus back East and gave himself up.

YALE VICTOR IN FIRST 2 RACES

New London, Conn., June 19 (AP)—The blue-tipped oars of Yale flashed triumphantly in the sun today, as the Elis raced to double victory over Harvard in the opening events of the annual regatta between these ancient college rivals.

Yale captured the freshman race by three lengths, after which the Eli junior varsity crew scored an even more decisive victory, leading the Crimson "Jayvees" by three and a quarter lengths over the upper two miles of the Thames course.

It was the seventh time in nine years that the Blue has swept the two morning races, but seldom have the finishes been as one-sided.

HARVARD VARSITY FAVORITE

As a result, Yale's hopes of a clean sweep were buoyed, although

Yeggs Rob R.R. Safe in Northampton

Northampton, June 19 (AP)—Yeggs blew open the safe in the Boston & Maine railroad freight office here during the night and escaped with $156 cash. They left a stick of dynamite and a pair of gloves on the floor.

Several sticks of dynamite were stolen near Worcester early in the week.

Balances and Receipts

Washington, June 19—Today's Treasury balance, $438,373,374. U. S. Customs receipts, $15,677,085.

NEW STARR PHOTO

Today the Evening American presents another new and EXCLUSIVE picture of Starr Faithfull. This picture and those printed exclusively in yesterday's American, have never been published before.

(Copyright, 1931, by the Boston Evening American. All rights reserved)

BEAUTIFUL, SAD-EYED STARR FAITHFULL as she looked in another of her favorite pictures, clothed in one of her night-life costumes. It was the Starr as she posed in this picture who proved to be the lure of many men—the Starr whose frenzy for her kind of happiness led her into so many troubles and into the final tragedy of her death. In this picture, as in all of her poses, there seems to be a sadness of expression that portended a stormy future and a tragic end. (Other pictures on Page 3.)

Betrayal of Starr Is Bared by Parents

New York, June 19—Diabolical episodes in the twisted life of Starr Faithfull were revealed today by the family of the girl whose drowned body was discovered on the sands of Long Beach.

Definite proof exists that the girl spent two nights in a New York hotel in 1926 with the middle-aged man who tutored her in vice while he posed as a friend of the family, according to the Faithfulls.

BARES MAN'S PERFIDY.

On a night in June, 1926, the mysterious middle-aged figure took the girl Starr to the Hotel Astor. He registered under his name and registered her as his wife.

Six months earlier, on January

Continued on Page 5, Column 1

"Glacier Priest" and 2 Feared Lost

Anchorage, Alaska, June 19 (INS)—A fleet of airplanes was held in readiness here today to begin an intensive search for Father Bernard Hubbard, padre of the glaciers, and his pilots, Harry Blunt and Al Monsen, when no word had been received from them after a second flight over the volcanic region in the vicinity of Kujulik late yesterday.

VANDERBILT IN DIVORCE PLEA

Pictures on Page 2

Reno, Nev., June 19 (AP)—Cornelius Vanderbilt, Jr., filed suit for divorce here today, charging that his wife, the former Mary Davidson Weir Logan of Chicago, had treated him with extreme cruelty.

The suit was filed after an early morning conference between Vanderbilt and his attorney, Samuel Platt. Beyond the general allegation of cruelty it contained nothing concerning differences in the Vanderbilt family.

"There is no further comment to make except that the action speaks for itself," Vanderbilt's attorney said.

Vanderbilt was escorted from Platt's office to his car by Platt himself, to protect the young author from inquisitive reporters.

"I have instructed him to say absolutely nothing concerning this affair," Platt said.

GIRL'S VISITS AT INNS WITH A RICH MAN UNDER FIRE

American Confirms the Diary Dates at N. E. Hotels; New York Police Predict Solution

Close upon announcement today in New York that an arrest, the first in the probe of the death of Starr Faithfull, looms within 24 hours, the main investigation of the mystery enveloping the madcap beauty again turned suddenly to Boston.

Further revelations from the diary of the dead girl, relating her trips from hotel to hotel in New York City and in New England cities with a wealthy middle-aged Boston man, coupled with information taken from the hotel registers, centered the probe here.

ARREST PROMISED

An arrest within 24 hours was promised by Inspector Harold King at Mineola, N. Y., "if a startling new clue breaks right."

"What is the clue?" he was asked.

"I refuse to say."

"If it breaks right, it will solve the case?"

"If it breaks right it will solve the case, I believe. A certain person will be taken into custody and will have much to explain," replied Inspector King.

ENTRIES CONFIRMED.

Disclosure was made today, in excerpts from Starr Faithfull's colorful diary, that the wealthy, middle-aged Boston man who showered his attentions on her, took her to various hotels. Names, dates and places are bared in the diary and other details of these amorous episodes.

Previous entries, published in the Boston Evening American, in which the girl told of visits to the Hotel Bancroft at Worcester, the Biltmore at Providence and the Lafayette at New York, were verified by the Boston Evening American by inspection of the hotel registers.

The authorities in New York disclosed that three pages were strangely missing from the girl's diary and added that they were determined to know who tore them out, and why. These pages were said to deal entirely with Starr's Boston experiences.

It was also revealed that search had been made of the Faithfull home in New York for a diary supposedly kept by Elizabeth, sister of Starr. (It was disclosed for the first time that Elizabeth had been acquainted with the prominent

U. S. AGENTS PROBE BOSTON BOOTLEGS' INCOME TAX DATA

SIX SUSPECTED OF UNTRUE RETURNS

All Said to Have Satisfied Investigators, the American's Masked Reporter Finds

BY THE MASKED REPORTER

Income tax statements filed by well-known Boston sporting men and bootleggers have been thoroughly checked by undercover agents from the internal revenue department at Washington, it was learned today.

Of the long list of names provided the agents, particular attention was paid to six, all of whom were found to have complied with every requirement of the authorities.

Armed with copies of statements filed in the local internal revenue office, the agents questioned the six men carefully, but were said to have received satisfactory replies in each case.

Whether or not these six men would be adjudged "public enemies," as has happened in Chicago or New York, could not be determined.

Information obtained by the agents in connection with all the names on their lists, will be contained in a report to be submitted to Washington, it was learned.

It was discovered the agents were in Boston only a short time, but their activities were so carefully shielded the fact that an investigation was going on did not leak out until after their departure.

No Government official in this city would discuss these men or their purpose here.

DEAF AND DUMB DAY IN COURT

Deaf and dumb day was observed at municipal criminal court today when over an hour and a half was consumed with consecutive cases of deaf mutes.

The first was that of William H. Foster, Dwight st., and Charles J. Kelley, Dorchester ave., Dorchester, who were charged with the larceny of a watch from Joseph Brown, 222 Shawmut ave. An interpreter was sworn in to translate the testimony of the defendants from finger signs to the language of the court.

Brown told the court he was senior vice-commander of the Charles Russell Lowell Post, G. A. R., and if he lived to July 14 he would be 89. He said his post was reduced to 10 members, only two of whom were able to attend meetings.

Foster was found guilty of stealing a watch from the room of Brown and given a month's suspended sentence. Kelley, his companion, was found not guilty for lack of evidence.

John Bean, alias Settleman, Grove st., West End, another deaf mute, was the next defendant called. He was found guilty of registering bets and fined $50.

150 FLEE FIRE IN OLD HOTEL

Macon, Ga., June 19 (AP)—Part of the 95-year-old Hotel Lanier, headquarters of the State government while Sherman was marching through Georgia, was destroyed by fire early today.

All the 150 guests escaped, most of them in pajamas or nightgowns. T. W. Hooks, owner of the hotel, estimated the damgae at $100,000.

Miss Louise Calhoun, telephone operator, aroused the guests and sped them to the street.

The hotel was one of the most historic in the state. The Civil War Governor, Joseph E. Brown, took refuge there with his staff when Sherman neared Atlanta and most of the state business was transacted there for several months.

Mrs. Lubitsch May Wed Screen Writer

Hollywood, Cal., June 19 (AP)——Reports that Mrs. Helene Lubitsch would marry Hans Kraly, screen writer, after her divorce decree from Ernest Lubitsch, film director becomes final next Wednesday, were given a degree of confirmation by her today.

"Come to the court house next week when my divorce is final and I'll have something interesting to tell you," she said.

No More Circuses in Quincy This Year

No more circuses will be allowed to furnish thrills for children and grownups in Quincy until next summer. City Clerk Emery L. Crane, a member of the licensing board, said a permit had been refused today to a circus to show there.

"We've had one circus in town this season," he said, "and there will be no more this year. No permits for carnivals will be issued either."

Burned Liner Refloated

Hamilton, Bermuda, June 19 (AP)—The Furness liner Bermuda, which burned and was sunk at her pier Wednesday, was refloated today, and engineers went aboard to survey the damage Four men, burned fighting the fire, were reported recovering.

COSTLY WATCH LOST BY DUPEE

Cambridge and Harvard Yard police and private detectives today conducted a search of the Harvard campus for a platinum and diamond watch, the property of William A. Dupee, treasurer of the Provident Institution for Savings, Temple st.

Dupee lost the watch, valued at several thousand dollars, while attending the Harvard commencement exercises yesterday.

Miss Thayer Held in $5000 for Fraud

Judge Brackett in Municipal court today accepted a plea of guilty from Miss Marjorie J. Thayer on two complaints charging her with defrauding two Boston hotels but continued the case for further investigation.

She pleaded guilty to defrauding one hotel of $55 and another of $75. Judge Brackett set her bail at $1000 but later increased it to $5000 when Patrolman Bohmbach told the court that an investigation was being conducted by the district attorney's office with the probability of additional charges.

Rich Man Perches on 16th Floor Ledge to Escape Fire

Chicago, June 19 (AP)—For half an hour Walter H. Brandenburg, wealthy contractor, sat on a window ledge 16 stories above the street to escape flames that swept his Sheridan rd. apartment early today. He was rescued by firemen and was only slightly burned.

Charles J. Correll and Freeman F. Gosden, "Amos 'n' Andy" of radio fame, were among scores of tenants of the 20-story building routed out by the fire, which was confined to the library of Brandenburg's apartment.

Rosa Ponselle Gets Highest Royal Honor

London, June 19 (AP)—In appreciation of her contribution to the success of the present Covent Garden season, Rosa Ponselle, American prima donna, was invited today to attend the ultra-exclusive royal enclosure at Ascot for the closing days of the racing meet. The honor seldom before has been extended to a professional artist and is believed unprecedented for an American.

GREAT FORTUNES JOINED

Anthony J. Drexel Biddle, member of prominent New York and Philadelphia family, and his bride, the former Mrs. Margaret Schulze, as they left the registrar's office following their wedding in London. Mrs. Schulze shares in the great wealth of her father, the late William Boyce Thompson. (I. N. R. photo.)

WEBSTER TELLS OF DRINKING

Lowell, June 19—The admission he drank "anything alcoholic" on "relaxation trips" was made by Ray F. Webster, drug store magnate, in Middlesex Probate Court today.

Webster was the only witness in the suit brought by his wife for a conservator of his estate.

Mrs. Webster, who brought suit under the provisions of the spendthrift law, alleged that her husband had squandered his money ond bought expensive gifts for women while his business was neglected.

Webster admitted on the stand that he made "relaxation trips" from time to time, on which he frequently drank anything he could obtain in the shape of liquor, ranging from alcohol splits to so-called rye and Scotch.

He testified he gave a promissory note to Miss Bessie Rogers, his former bookkeeper, who, Mrs. Webster charged, was the recipient of gifts from her husband over a period of years. The note, according to Webster, was for cash to be used in his business. When Miss Rogers learned that in spite of a partnership planned between them in the drug business, her name was not to be used with that of Webster, she refused to sign the note, he testified.

RARE LIQUOR IN MANSION GONE

Eighty-five quarts of rare, old whiskies were reported stolen today from the mansion of the late Mary E. Taylor in Beacon st., Chestnut Hill.

The theft was reported by William J. Breeyear, caretaker of the estate since the death of Mrs. Taylor nearly a year ago.

Police found a panel had been cut out of the side entrance of the house. Nothing else was missing.

Bill to Stop Abuse of British Dole Pay

London, June 19 (AP)—A bill to stop abuses of the British dole system has been introduced by Minister of Labor Margaret Bondfield. The abuses were told in the recent report of the Royal Commission on Unemployment, which estimated they were costing $25,000,000 annually.

The bill would affect workers who earn substantial sums in their usual occupations.

Chamberlin Faces Suit on Attachment

Jersey City, N. J., June 19 (AP)—The sheriff's office today placed an attachment of $3500 against the property of Clarence D. Chamberlin, transatlantic filer. The action was started by Deane Hazen, engineer and promoter, who alleges he organized the Chamberlin Flying Service. The attachment represents arrears in salary due from Chamberlin.

'L' CARMAN, 80, AND 12 HURT IN CRASH

Aged Conductor Kept at Hospital After Cars Collide at Boylston St. Station

An 80-year-old conductor, Alvinger Talbot, and 12 passengers were injured today near the Boylston st. subway station when a City Point car crashed into the rear of a stalled Jamaica Plain car.

According to Elevated officials, the stalled car had stopped because the trolley came off.

Ambulances were called from the Lagrange st. police station and Haymarket Relief station. Six patients were taken to the latter hospital.

The injured at Haymarket Relief Station:

TALBOT, Alvinn, 35 St. James st., Roxbury, conductor. Contusions and abrasions.

DOHERTY, Charles, 22, of 58 Storey st., Boston. Contusions and abrasions.

GRIFFIN, Catherine, 59, of 7 Anderson st., West End. Contusions and abrasions.

BARRY, John F., 36, 234 Bolton st., South Boston. Leg injuries.

DeFRANCO, Mark, 431 East Third st., South Boston, Contusions of the left leg.

MORRISON, John J., Waterhouse st., West Somerville. Contusions of the left hip.

Talbot was the only one held at the hospital, the others going home after treatment.

Seven others complained of injuries and were sent home after their names were taken by Elevated officials.

Both cars were badly damaged and the noise of shattering glass was heard by waiting passengers on both sides of the Boylston st. station.

The crash caused a tieup in the outbound section of the subway for nearly half an hour.

An almost exactly similar accident happened yesterday in the South End in which 26 persons were hurt.

SHY OF SAILORS FOR 'IRONSIDES'

Strictly speaking, there are no sailors in the navy.

Dispatches from Washington today quoted the Navy Department to that effect in abandonment of plans to sail "Old Ironsides," the U. S. frigate Constitution.

Under the present plan the recommissioned sea fighter will start an exhibition cruise July 3 from the navy yard in Charlestown under tow of the mine sweeper Grebe.

Assistant Secretary of the Navy Jahncke admitted the lack of "sailor men" in discussing proposals that the venerable craft be sailed instead of towed.

"The Constitution hasn't any sails except one or two for show purposes. A full set would cost $6000 or $7000," he said.

"Furthermore, I doubt whether you would find any sailors in the navy who would know how to furl and unfurl them.

"To teach a crew to sail her you would have to train them two or three months."

Twenty of the 42 men of the crew were given a course in Newport in the handling of the two sails on her now, officials here said, but they admitted it was not a course that would qualify them to handle a full-rigged craft.

Smith Vs. Hoover in 1932, Says McBride

Detroit, June 19 (INS)—F. Scott McBride, superintendent of the Anti-Saloon League, today predicted that President Herbert Hoover would be pitted against Alfred E. Smith, Democrat, in the 1932 presidential race. Neither the Republicans nor Democrats would have a liquor plank in their platforms, said McBride.

Flying Photographer Starts Europe Hop

Liberty, N. Y., June 19 (AP)—Otto Hillig, "flying photographer," left here today in an automobile for Floyd Bennett field, Brooklyn, where he expects to take off later in the day for New Brunswick, the first stop on his transatlantic flight to Denmark. Hillig said he had received word weather conditions along the North Atlantic were good.

Graf Zeppelin Comes Down on Water for First Time

Friedrichshafen, Germany, June 19 (AP)—The Graf Zeppelin settled down on Lake Constance today, demonstrating for the first time her ability to land successfully on the water without the assistance of the landing crew, which always brings her down to earth.

The whole thing was done by releasing gas until the big ship floated down smoothly on the rubber-covered bumpers of her gondolas.

Dr. Hugo Eckener, who has taken the Graf on her most important flights, made the test to demonstrate the Graf's seaworthiness before he starts for the North Pole.

Reno Thrills

CORNELIUS VANDERBILT, JR.

MRS. VANDERBILT

PETER ARNO

From Reno comes the report that Cornelius Vanderbilt, Jr., is "looking for" Peter Arno, the brilliant cartoonist. Vanderbilt charges Arno would steal his wife, the former Mrs. Waldo Logan. Arno denies Vanderbilt dealt in a bit of gunplay when he saw his wife alighting from Arno's car. Arno is in Reno seeking divorce from Lois Long, magazine writer. (International Newsreel.)

THE REST OF THE NEWS

Warsaw, Poland, June 19 (AP)—All wire connections with western Poland broke down during the night as a result of heavy storms.

Chicago, June 19 (AP)—The business depression and reduced incomes have cut the educational appropriations of the Methodist Episcopal church to $792,125.

Washington, June 19 (AP)—Justice Siddons, 66, of the District of Columbia Supreme Court died today from heart disease. He was a native of London.

New York, June 19 (AP)—Chief Justice and Mrs. Hughes will sail tonight for Europe. Hugh Gibson, Ambassador to Belgium, also sails tonight.

Huntsville, Tex., June 19 (AP)—Ofino Herrera, a Mexican, was electrocuted today for the murder of Sheriff A. T. Murray of Mason County.

Vienna, June 19 (AP)—Mr. and Mrs. Charles Day, American fliers, arrived today from Prague, on a projected journey round the world.

Warsaw, Poland, June 19 (AP)—The Warsaw moving picture shows decided last night to reopen after months of strike. The city reduced the amusement tax 25 per cent.

Misconduct Charge Denied by Harvey

New York, June 19 (AP)—George U. Harvey, Republican president of the Borough of Queens, replied today to charges of official misconduct by asking Gov. Roosevelt to dismiss them as "being inconsistent with the facts and entirely without merit."

Harvey denied allegations of Fritz Brieger, former superintendent of the bureau of street cleaning of the borough, that his administration had been improper and dishonest.

CURLEY URGES SMITH BACK ROOSEVELT

Mayor Believes Former Candidate Should Announce Himself to Clear the Way

Support of Gov. Franklin D. Roosevelt of New York for President should be announced immediately by former Gov. Alfred E. Smith, a statement by Mayor Curley declared today.

The Mayor's statement said:

"Former Gov. Alfred E. Smith of New York should come out now for Franklin D. Roosevelt, present Governor of that state, for President of the United States, and thus pave the way for the Roosevelt campaign.

"Former Gov. Smith made a fine record in Albany and is greatly beloved by the people of New York. However, he had his chance for President and cannot be elected to that office.

"I think former Gov. Smith realizes he cannot be elected. Franklin D. Roosevelt will be nominated by the Democrats and elected President of the United States."

BARRED NURSE IN NEW PLEA

Washington, June 19 (AP)—Marie Averil Bland, Canadian nurse residing in New York city, who was refused naturalization by the Supreme Court following its decision in the MacIntosh case, today filed a petition for rehearing.

Miss Bland nursed American soldiers in France after the World War and expressed her willingness to go into front line trenches to nurse in case of another war, but she was denied citizenship because she refused to promise to bear arms.

In her petition for a rehearing she urged the grounds advanced by Prof. Douglas MacIntosh of Yale, in his request for a review as reasons for reversing the decision in her case. She added that she was required by the decision to consent to take up arms to acquire citizenship when the "men of this country will never allow women to do their fighting for them."

Referring to parts of the decision which suggested that obedience to law is not inconsistent with the will of God, the petition said:

"If Congress is the oracle through which the will of God, is announced to this nation, what has become of the right of the individual to determine for himself his relations to his creator?"

Noted Flier Freed From Alimony Jail

New York, June 19—Roger Q. Williams, transatlantic filer, has been released from the alimony jail, where he had been confined since May 8.

Williams, who was sent to jail on an order which set bail at $2000, furnished the required bail. His wife, Mrs. Carrie J. Williams, charged her husband had failed to support and maintain her.

PEOPLE

Who Interest You and What They Are Doing

George M. Cohan Will Introduce Son to Stage

George M. Cohan, Jr.

New York, June 19—Cohan and Cohan, a new song and dance team, will make their first appearance at the Friars Frolic to be presented at the New Amsterdam Theater Sunday evening.

The team will be seen in a new sketch, entitled, "Songs, Dances and funny Sayings," written especially for this occasion by the senior member of the combination.

George M. Cohan will be assisted by his 17-year-old son George M. Cohan, Jr., making his first appearance on any stage.

Mary Denies 999th Report of Divorce

Mary Pickford

Hollywood, June 19—Mary Pickford in reply to a story published in New York that she and Douglas Fairbanks plan a divorce so that each could wed another, stated:

"The whole thing is too absurd to dignify it with a denial. But since it has already been printed, I will say that there is absolutely no truth to it.

"It is positively absurd and untrue. I think this is about the 999th time it has popped up. It is getting to be a periodical affair."

Clark Gable to Rewed Ria Langham Today

Clark Gable

Hollywood, June 19 (AP)—Clark Gable, stage and screen actor, and Ria Langham, actress, who said they were secretly married in the East, March 30, 1930, planned to be remarried today.

They left last night for Santa Ana, where they had applied for a license Saturday under the names of William C. Gable, 30, and Mrs. M. Franklin Langham, 41. Mrs. Gable said the actor's divorce decree in California had not become final at the time they were married in an Eastern city, and since coming here they had decided to remarry to assure clear title to community property.

Crowds Seek Relief at Beaches as Mercury Soars

FIRST VICTIM OF HEAT IS AGED LYNN MAN

Thermometer Up to 90, and Plenty More of Same Is in Prospect

TEMPERATURES

	Friday.	Thursday.
1 a. m.	68	64
2 a. m.	67	64
3 a. m.	68	63
4 a. m.	66	62
5 a. m.	66	61
6 a. m.	68	60
7 a. m.	70	61
8 a. m.	74	65
9 a. m.	75	67
10 a. m.	81	72
11 a. m.	85	76
12 Noon	88	76
1 p. m.	88	76
2 p. m.	90	73
3 p. m.	92	73

Crowds thronged the beaches today when real summer weather hit the city, the temperature rising from 75 to 81 between 9 and 10, and rising to the 90s in the afternoon.

One heat victim was reported in Lynn, where a temperature of 93 was reported. Joseph Johnson, 80, retired shoe worker, of 22 Elm st., that city collapsed in Magrane sq. He was taken home and will recover.

With all highways and transportation facilities to the principal beaches crowded, throngs threatened to set new records for the year before nightfall. There were also indications that the record temperature for June 19 of 96 in 1923 would be exceeded during the afternoon with no let up in sight.

The new L st. bathhouse was given a real christening with the arrival of the heat wave. Thousands of bathers took advantage of facilities there.

Some 2000 cars were parked along the shore between L st. and City Point, and other thousands at other popular beaches. Boats were taking full loads to Nantasket.

PART OF 'LOST' ESTATE FOUND

Clearwater, Fla., June 19 (AP)—An alleged part of the lost estate of the late Countess Mercy de Argenteau, Countess de Montgolyn of Belgium, is in possession of Mrs. Madeline Gill, socially prominent here.

It comprises documents pertaining to the "Lost Dauphin," son of Louis XVI of France, given to her in trust, Mrs. Gill says, by the countess.

Jean Van J. Blinck, Belgian vice-consul in Tampa, petitioned Wednesday to administer the countess' estate, estimated, he said, at $300,000 in jewels, antiques, other valuables and French government bonds—all missing.

Mrs. Gills' friends said her articles were obtained legally from the countess and were not part of the missing estate.

WALKER JESTS ON BIRTHDAY

New York, June 19 (AP)—Mayor James J. Walker, whose favorite activity, he says, is answering critics, was 50 years old today, but he regarded his birthday as just another day.

The dapper, youthful-looking executive of America's metropolis, whose $40,000 salary makes him only second to the President as the highest paid public official in the United States, said he felt "very fine." "But by the time this is printed I may be worse. You can't tell. It's a fast world."

The mayor answered birthday questions typically.

"What are your reactions to such characterizations as jazz mayor, dapper, sartorial marvel, Jimmy the playboy, etc.?"

"Stop. It's all the bunk."

"What about your past 50 years?"

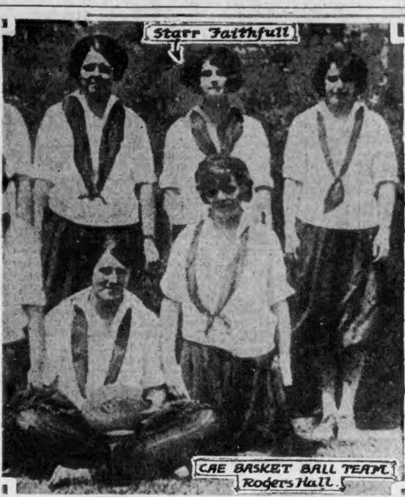
"Now, do as you like about it, but don't write an obituary notice on my career. I'm not dead yet."

Expert Terms Jails Schools of Crime

Minneapolis, Minn., June 19 (AP)—Edward R. Cass of New York, secretary of the American Prison Association, today attacked county jails as training schools for crime before the national conference of social work

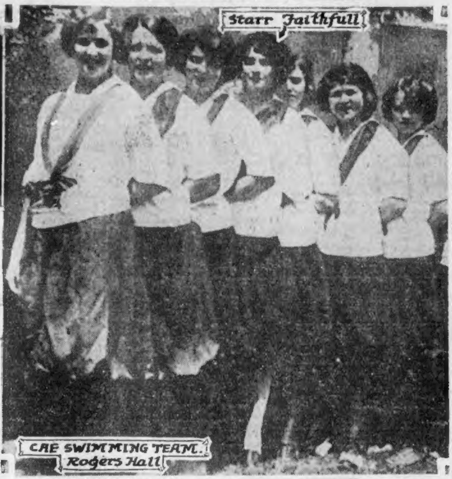
Richard K. Conant, Boston, Massachusetts commissioner of public welfare, predicted that unpaid boards, organized to be free of political citation, will control policies of future public agencies administering welfare activities.

WHEN STARR EXCELLED IN ATHLETICS



STARR FAITHFULL PLAYED BASKETBALL

HER END A MYSTERY



"PARTY GIRL" WAS EXPERT SWIMMER

Starr Faithfull was an athlete of no mean ability. During her school days at Rogers Hall, in Lowell, she won contest after contest. It is recorded in her already much talked of "Memory Book" that on May 7, 1923, Starr won the 50-yard dash as part of the founder's day field games and was second in the hop-step and jump. Her ability as a swimmer is well remembered by members of her class at Rogers Hall, Lowell's girl school. Even up to the time of her disappearance, Starr was known to be an expert swimmer. This athletic ability has been referred to by her step-father, Stanley Faithfull. She was on the basketball team at Rogers Hall in 1923. In the year book she is called the "Jauntiest of Girls." While Starr's athletic ability brought her school fame, her marks on study of the Bible went down to C. It was during her athletic career of 1923 that Starr's diary reports that she took long "love trips" with a wealthy man into New England and Canada. Starr was a member of Cae Club and is shown above with the Cae Club swimming and basketball teams.

SUIT NEAR OVER BEAUTY VICTOR

Galveston, Tex., June 19 (AP)—Legal action attacking the award of the title "Miss United States" to Anne Lee Patterson, 18-year-old Ludlow, Ky., blonde, was in prospect today.

Col. William E. Easterwood, Jr., Dallas, Tex., aviation enthusiast, announced he had employed counsel to contest the award, presented at the twelfth international pageant of beauty here Monday night.

His charge of discrimination against Texas girls was denied by Marvin Starr, managing director of the pageant.

"The caliber of our judges' tribunal speaks for itself," said Starr. "Imagine telling John Held, Jr., Haskell Coffin, McClelland Barclay, Jules Cannert, Lee Townsend, Dr. W. E. Huddleston and Ben Carlton Mead which way to vote, who to rule out and why."

"Friends of the Texas beauties," Col. Easterwood said, "have no objections to Miss Northern Kentucky receiving the award of $500, but we do insist that they receive justice in the honors."

Miss Patterson was runner-up in the contest for the crown of Miss Universe, which went to Netta Duchateau, 17-year-old Belgian girl.

TORRIO SITS ON CAPONE THRONE

Chicago, June 19 (AP)—Today's Herald and Examiner said that Johnny "the Immune" Torrio has succeeded Alphonse Capone.

The proclamation that Torrio had invested himself with the ducal robes of gangland leadership, the newspaper said, was posted last night in the haunts of the half-world.

Bullets from George "Bugs" Moran gang guns hastened Torrio's decision several years ago to quit Chicago's gang warfare. Twice before attempts on his life were unsuccessful. Thus he gained the sobriquet of "The Immune."

It was Torrio who brought Capone west from Brooklyn a decade ago to manage Jim Colosimo's Twenty-second st. vice district. And when Torrio abdicated Capone climbed onto the throne.

U. S. Dist. Atty. George E. Q. Johnson, director of the drive against Capone, has already made ready to war on Torrio.

Missing Banker Is Home; Faces Arrest

Philadelphia, June 19 (AP)—Anthony L. Aff, vice-president of the Counties Title & Trust Co. of Ardmore, missing a week, reappeared at his home last night. He had been charged with absconding with $11,700 of the bank's money.

Officials and police said a warrant would be issued for his arrest today.

1,558,949 Have Chicago Jobs

Chicago, June 19 (INS)—A total of 1,558,949 persons, or 46.2 per cent of the city's population, were gainfully employed in Chicago as of April 15, 1930.

Gasoline Theft From Parked Auto Costs Him His Life

Providence, June 19 (AP)—Philip M. Strassell, 40, was killed last night while, according to the police, he was stealing gasoline with the aid of a piece of garden hose from a car at a parking ground.

The medical examiner said today Strassell had died from sucking gasoline through the hose into his mouth to start it syphoning. He said the man either ruptured a blood vessel in his lungs or was asphyxiated by the gasoline fumes.

Strassell's parents live in Readville, a son, Raymond, in Everett, Mass., and a sister, Mrs. G. S. Lampson, in Westfield, Mass.

DO-X RESUMES FLIGHT TO RIO

Rio de Janeiro, Brazil, June 19 (AP)—The seaplane DO-X resuming her journey from Natal to this city, took off today from Bahia.

At 8 a. m. (5:30 a. m., E. S. T.) she passed over Belmonte, 300 miles south of her starting point and about 500 miles north of this city. She was following the coastline and avoiding the treacherous mountain country.

The plane landed at Carvelles, 150 miles south of Belmonte, to refuel. From there she planned to fly to Victoria, another 150 miles, and spen the night there, continuing to Rio tomorrow.

RULE LIFTED FOR BRIDE

(Story on Page 13.)

Mrs. Gregory Stone, who was a bride today in St. Paul's Church, and for whom the no left turn from Tremont into Park st. rule was lifted to allow the bridal party cars to reach the Union Club for the wedding breakfast. (Staff photo.)

BRITISH ANGRY WITH PERSHING

London, June 19—Gen. John J. Pershing's criticism of the British army in the World War, as revealed in his recent book, just published here, is the subject of resentment in the press today.

The London Post described his statement that the allied troops were at a low point of morale in 1918 as "not only ungenerous, but demonstrably unfair."

The Daily Mail said the British always had been reluctant to criticize American troops and their leaders and asked if it "isn't unreasonable that in return we should look to such a distinguished American general for something more than an indictment of our supposed mistakes and failures?"

The Express had this to say:

"Pershing, like many of his countrymen, has mistaken the psychological for the physiological. Those tired, down-at-the-heel old crocks known as the British army smashed the Cambral line and that was the end of the war.

"Their morale was probably rotten, but nobody except Pershing seems to have had time to notice it."

Lloyd George had nothing to say.

YOUNG LIPPITT LOST FORTUNE

New Haven, Ct., June 19 (AP)—New Haven Register this afternoon said that from a source close to the family it was learned there will be no effort to commit John B. Lippitt to an institution, and the court action begun by his father, former United States Senator Henry F. Lippitt of Providence, looks only to appointment of a conservator.

The Register said young Lippitt had disposed of all but about $40,000 of a half a million dollar fortune which came to him when he became of age.

Arthur W. Chambers, who represents the elder Lippitt, said today the court action was taken to protect young Lippitt against those who have mulcted him of his fortune."

About 1925 Lippitt engaged with William (Billy) Queal, former Yale track coach, in a poultry farm enterprise, which led to a suit over the latter's claim for wages. This was settled. Lippitt claimed to have lost $80,000 in the farm.

Lippitt today said he had not seen his father for about five years, but was willing to give back to the family what is left of the fortune, about $40,000, and go to work.

Mr. Chambers said the family had no desire to take back anything and Mr. Lippitt will seek only action which will protect for his son what is left.

Hotels for Hikers at "Two Bits" a Night

London, June 19, (AP)—Two-bit hotels for hikers! The Carnegie United Kingdom Trust has given $50,000 to an association sponsoring 200 hotels providing lodging for hikers at 25 cents a night.

Mr. Zero Seeks Farm Jobs for 500 White Collar Workers

New York, June 19 (AP)—Urbain Ledoux—Mr. Zero—today began a campaign to put unemployed white-collar workers on farms at $4 a day in the grain districts.

He sent a telegram to the United States employment office in Kansas City:

"Have 500 white-collar men listed for harvesting in the wheat belts. I am personally ready to guarantee transportation against delivery of wheat at local elevators or flour mills."

The telegram demanded storage receipts be sent to Mr. Zero as evidence of good faith.

BAKER TO TEST POWER LAW

Washington, June 19 (AP)—Newton D. Baker, first chairman of the Federal Power Commission, is preparing to challenge the constitutionality of the law under which the reorganized commission functions.

He is one of counsel for the Appalachian Electric Power Co. in a suit to free the company's $11,000,000 New river power development in western Virginia of the jurisdiction claimed by the federal agency.

The company claims either the law under which the commission is operating is unconstitutional or else the power group exceeded the authority conferred upon it by that law.

The suit is the result of a commission order warning the company not to build without first accepting a federal license. The license it offered contained provisions for recapture at the end of 50 years and for valuation of the plant by the commission.

U. S. Income Boosted by Card Players

Washington, June 19 (AP)—Card playing is on the increase during these days of unemployment. At least, that is one explanation why the Treasury is getting more revenue from "the pasteboards." During the 11 months of the fiscal year the stamps that go on each pack brought the government $4,553,700, or $59,693 more than the year before.

Wearplus Ties
the gift he'll REALLY enjoy

RUBIO TO ACT IN CHURCH ROW

Mexico City, June 19 (AP)—Governor Adalberto Tejeda, of the State of Vera Cruz, was in Mexico City today for a conference with President Pascual Ortiz Rubio, presumably in connection with the passage of an anti-church bill by the Vera Cruz Legislature.

President Ortiz Rubio summoned him to the capitol after Papal Nuncio Leopolo Ruis Y Flores had announced that he would defy the measure, which restricts a population of more than a million to 11 priests.

Official circles expressed the opinion that the religious situation, agitated by protests from thousands of Catholics, would be settled satisfactorily. A committee of Catholics made representations to the Department of the Interior and others have called on the president to intervene.

Cantonese Decide Not to Fight Chiang

Hongkong, June 19 (AP)—The new Canton government today decided not to fight the Nationalist armies of Generalissimo Chiang Kai-Shek unless the latter invades southern territory.

The Cantonese, who recently formed a government for Kwangtung and Kwangsi provinces in opposition to the Nationalist regime, resolved to oppose Chiang by "indirection."

SENDS BITING SARCASM TO CAPITOL

Mayor Calls Postmaster-General's Attention to Utter Uselessness of $6,164,600 Lot

Disgusted with the failure of federal officials to start work on the new postoffice building in Postoffice sq., Mayor Curley today wrote to Postmaster-General Walter F. Brown and asked his permission to pasture a municipal cow on the property during the Fourth of July celebration here.

"It is customary to observe Independence Day in Boston on the Fourth of July each year," Mayor Curley wrote, "and as a part of the program the public celebrations committee of the city is desirous of exhibiting a municipal cow feeding where it is proposed at some time in the dim and distant future a postoffice shall be erected.

"The appropriation authorizing a postoffice in Boston was made in 1929 and federal authorities, evidently actuated by a sincere desire to relieve unemployment, have in this short period of time put in the foundation.

"I am taking the liberty of forwarding you a photograph showing the commendable contribution the Federal government is making to the relief of unemployment on this particular project. This photograph was taken at 3 p. m. on June 18 and notwithstanding that it was a beautiful day and that the sun was shining you will observe that there was no one at work upon the job.

"The indications are that if the work proceeds with the same degree of speed and efficiency that has been demonstrated in the past two years the granting of permission to the city to pasture cows in this downtown lot will not greatly impede the work.

"The postoffice site is valued at $120 a foot or a total valuation of $6,164,600 and I am quite certain that you will agree with me that a cow grazing upon such valuable pasture land would prove a real attraction.

"Trusting that you can see your way clear to issue a permit for the pasturing of the municipal cow until the Postoffice Department sees fit to procede with the erection of the building as a means of relieving unemployment, I beg to remain,

"JAMES M. CURLEY."

New Locomotives for New Haven

The first of a fleet of 10 electric locomotives built for the New Haven Railroad by the General Electric Co. at a cost of nearly $2,000,000 will be put in use soon, railroad officials announced today.

Each locomotive weighs 403,000 pounds, is 77 feet long and has a speed of 70 miles an hour. They will be used between New Haven and New York.

Taxi Driver Hurt in Mail Truck Crash

John Mangino, 35, of 156 Putnam st., East Boston, was hurled to the street and injured today when the taxi he was driving was in collision with a mail truck at Prescott and Bremen sts., East Boston.

He was taken to East Boston Relief Hospital suffering from scalp wounds and possible internal injuries. The mail truck, according to police, was driven by Anthony Gillis of 1123 Saratoga st.

NEW MYSTERY CLUE IN "MADCAP'S" DEATH

Continued From First Page

Boston man who paid a small fortune to settle with Starr.

While Dist. Atty. Elvin Edwards of Nassau County, N. Y., maintained silence about the disclosures here of a recent blackmail attempt, it was learned unofficially that other investigators believe the whole mystery turns on the Boston angle.

Edwards, however, reiterated his firm belief that Starr was slain, because the marks her body bore of beating, and the finding of drugs in her organs, sufficient to cause stupor, but not death, indicated she was not a suicide.

THE DIARY DATES

The diary entries regarding visits to hotels as thus far revealed are as follows:

July 2, 1923, at the Hotel Lafayette, Portland, Me.; Aug. 21, 1923, at the Hotel Bancroft, Worcester; and Aug. 26, 1923, at the Biltmore, Providence, R. I.

The register at the Lafayette shows that "S. Wyman of Boston" registered on July 2, 1923, and was assigned to a room on the same floor as a man who registered from Boston on the line above. Wyman was Starr's last name before she was adopted by Faithfull.

The register at the Bancroft shows that "S. Wyman, Park st., Brookline," and the same Boston man, were assigned rooms under the same conditions on Aug. 21. And the Biltmore register shows that "S. Wyman, Boston," and the same man stayed there five days later with the same arrangement of rooms.

A note, found in a tightly sealed gin bottle on the beach at the mouth of Wading river, near Riverhead, Long Island, N. Y., was shown to the Boston Evening American representative in New York today by Inspector King.

The note read: **"Help, I'm going to be thrown overboard and I'm just a little tight. (Signed) Starr Faithful."**

The last name of the girl was spelled wrong, lacking the final "L."

"Her stepfather, her mother and her sister say the writing resembles hers but is not hers," said Inspector King. "However, a handwriting expert will be asked to examine it and compare it with samples of Starr's writing."

King said he was determined to find out the explanation of the missing three pages of the dead girl's amazing diary.

SILENT ON ROWLEY

Dist.-Atty. Edwards was strangely silent most of today and among other things refused to say whether or not within the past 24 hours he had asked Atty. Charles F. Rowley of Boston, the lawyer who represented the Faithfulls in the settlement five years ago with the Boston millionaire, to go to Mineola.

"What about the Boston end of this case, Mr. District Attorney?"

This question was put point blank to Edwards when he returned to the Nassau County courthouse from lunch.

"I have good reason for refraining from answering any questions about the Boston angle," he retorted.

"Are you protecting a Boston man in this way?

Angrily, the prosecutor replied:

"Say what you want to, I refuse to talk about it."

Investigators revealed that the name of the second officer of the steamship California, on which Starr took a Mediterranean cruise about four years ago, was Howard Miller.

"WHAT A MAN."

This recalled the first entry in her love diary, which read:

"Met H. M. What a man! He seemed to hit me right between the eyes. Why is it that every man I met and want seems to be married?"

It was on the California that she met Mrs. Jack Barr of Larchmont, who supplied authorities with information about the girl, Loretta, who saw Starr at the Grand Central terminal the day she disappeared, Friday, June 5. Loretta was further identified today as Loretta Fitzgerald of Larchmont.

JURY MEET DELAYED.

Edwards postponed the grand jury session scheduled for today to await the arrival of Dr. G. Jameson Carr, ship's doctor on the Cunard liner Franconia.

Detectives will come to Boston tomorrow to meet the Laconia, on which Dr. Carr is returning, and accompany him to New York, partly to shield him from annoyance, but more especially to see that no one talks with him unless they know who it is.

Several witnesses were on hand for the grand jury session when it was called off at the 11th hour by Edwards.

Rex Fairbanks, wealthy New Yorker, telephoned he was willing to tell the officials all he knew about the madcap beauty, whose strange death has had reverberations in Boston, New York and abroad.

Members of the Faithfull family—Stanley Faithfull, stepfather of Starr; Elizabeth, her sister, and Mrs. Halcyon Wyman Fathfull, her mother, who is related to Boston society families—are to be questioned again late today.

"Do you still believe Starr Faithfull was murdered?" Edwards was asked.

"I haven't altered my original opinion," he replied. "I can't understand how a girl beaten, marked and drugged before death, as she was, and without liquor in her organs, could be a suicide.

"We still are trying to ascertain all her movements on Thursday and Friday, June 4 and 5, days which are still largely blanks in our records.

"Until all developments have been thoroughly and properly checked and made into a chronological record, I will not make any further definite statement on the girl's death."

"What do you think of Mr. Faithfull's action in this case?"

"I have no comment to make on that."

Called to the telephone, the district attorney returned, saying:

"That call was from Rex Fairbanks. He says this: 'My name has been mentioned in this case. I will be very glad to talk over any details I might have connected with this girl's life at any time you see fit to call me.'"

C. W. Anderson, the Greenwich Village artist, summoned as a grand jury witness, appeared to testify and, when informed of the postponement, said to newspapermen:

"Starr Faithfull was in my studio about four times. She came and introduced herself as a sister of Sylvia, who had posed for me several times. From a model standpoint, she lacked personality.

"She appeared very discontented and disgruntled and said she wuold like employment as a model because she needed money badly, as she hoped to go to Europe. She was not a professional model, but I found that she had a very extensive wardrobe and suited my purposes as a model for clothes for illustration work."

While preparations for the grand jury session were going on, Dist. Atty. Edwards made the startling revelation that influence from high places has been brought forward to shield the name of the Boston man said to be the childhood despoiler of Starr.

Both District Attorney Edwards and his crack sleuth, Inspector Harold R. King, remained significantly silent this morning under questioning as to the success of the wide search for the partially identified Jack Greenaway and Bruce Winston.

But it is known that the prosecutor's chief assistant, Martin W. Littleton, Jr., has spent several days and nights in Manhattan, back tracking on the girl victim's primrose path through Broadway and Greenwich Village speakeasies.

STARR 'DEATH LETTER' BARED

London, June 19 (INS)—The text of the letter written by Starr Faithfull to Dr. G. Jameson Carr, surgeon on a Cunard liner, the day before she disappeared mysteriously from her New York home, was given to International News Service today by a London friend of the physician who read it shortly after it was received.

Hailed as an important link in solution of the mystery surrounding the girl's death, the letter is now in the hands of Dr. Carr, who is en route to New York aboard the liner Laconia to do all in his power to help clear up the case.

Contrary to some reports, the letter, according to this version, made no mention whatever of "suicide by drowning," but in it Miss Faithfull did predict that by the time the missive was received she probably would be dead.

International News Service's informant quoted the letter from memory as follows:

"Dear Mr. Carr—I hope you will forgive me and accept this as an apology for creating a disturbance on your ship.

"I brought my liquor aboard myself.

"You need not bother about me any more, because I will not trouble you again.

"When you receive this, I shall probably be dead."

Dr. Carr received the letter shortly after the Franconia returned to England from New York. Miss Faithfull had mailed it by a faster boat that left New York some time after the Franconia.

New Coal Tar Petrol Cheaper for Autos

Belfast, Northern Ireland, June 19 (AP)—Chemists at Belfast Municipal Gas Works announced today they had produced a petrol from coal tar oil that can do four more miles to the gallon than the ordinary gasoline used in automobiles.

They assert there is no carbon monoxide in the exhaust, engine knocks are eliminated and the fuel is cheaper than gasoline.

The domestic help problem is solved by taking a kitchenette apartment and the best are advertised daily in the For Rent [illegible]

$15,000,000 Spanish Gold for France

Paris, June 19 (AP)—The Havas News Agency said today that well-informed financiers are saying an agreement is imminent between the Bank of Spain and the Bank of France, under which the latter would advance Spain $15,000,000. The Bank of Spain would transfer to France that amount of gold now on deposit in London.

Get a good piece of real estate, buy it wisely, pay for it, keep it, and later it will keep you. See the sound values listed today in the real estate columns of the Classified Ads.

Draper for Power Head

Washington, June 19 (AP)—President Hoover today reappointed Claude L. Draper of Wyoming to the Federal Power Commission for the term expiring June 22, 1936.

BETRAYAL OF STARR BARED BY FAMILY

Continued From First Page

18, 1926, the same man took Starr to the Hotel Richmond, where he registered under his own name and registered her as an unmarried friend. The register reveals that they were assigned to separate, but adjoining rooms, 75 and 76, to which they retired at about 6:30.

The two New York episodes in the protracted excursion into the strange episodes upon which Starr entered with her powerful tutor were revealed to the family by Starr herself on that night in June when she horrified them all by frankly telling them of the crazed existence that was killing her soul.

FAMILY STUNNED

The family was stunned by the revelations which the beautiful daughter made. And they were incredulous.

Stanley E. Faithfull, the stepfather of the girl, on the very next day went to the Hotel Richmond to get confirmation of the girl's confession.

He was permitted to photograph the register, he said today, and still has in his possession the proof of perfidy on the part of the middle-aged man he called friend.

Starr's story filled in the details which the hotel register did not include.

HE GOES ABROAD

The night of January 18 was slushy and wet. Starr, in a new pair of satin slippers, went to meet the elderly man at the Biltmore, ostensibly for dinner. They walked through slush and snow to the secret rendezvous at the Richmond, where they registered.

The outward show of friendship which this man showed the family continued up to the time of his exposure by the girl he had betrayed.

In April he wrote her announcing his sailing for a brief trip abroad

"Dear Starr," he wrote, "this is a brief line to say goodby to you in case I miss you in New York. We sail on the Leviathan tomorrow, April 10, and go first to Paris, then Brussels, then to England and sail home May 22 or 29."

He suggested that if she wrote him abroad she address her letters in care of two banks, which he named.

GUARDIAN FOR CHILDREN.

When Mrs. Faithfull's first marriage crashed she was left with the two daughters, Starr and Tucker. She had no money. This man who later betrayed Starr came to her aid and stood as a guardian for the children.

He solicited wealthy relatives and friends who made up a fund which he administered for the education of Starr. From this fund he paid for two and a half years at Rogers Hall, an exclusive finishing school at Lowell, Mass.

Mrs. Faithfull came to look upon him as a sort of agent for the members of her family who were trying to help her. When the second husband, Faithfull, encountered one of the periodical ebbs in his fortunes in 1926 they decided to dispose of the $25,000 home on Cape Cod and appealed to him to carry on the negotiatons for them on the day before Starr's revelations to her family, five years ago, exposed his true nature.

Before his letter in reply to the proposition was received Starr had unfolded her terrible story to the family. All future negotiations with the man were conducted through an attorney.

The Faithfulls, infuriated, forced from him a reparatory payment of $25,000, and later, when Starr was murdered, they furnished his name to the district attorney of Nassau county as the first suspect.

Diver, Trapped for 7 Hours in Mud, Saved Alive

London, June 19 (INS)—After seven hours submersion in mud 15 feet beneath the waters of the Thames, a diver employed in building a jetty at the Ford plant at Dagenham, near London, was rescued late today.

The diver, trapped beneath heavy steel cylinders, was brought to the surface by co-workers who labored throughout the day to rescue him from his was kept alive by oxygen pumped into his helmet. under-water tomb. The diver

A little lacey straw tuck-away hat, dressy enough for any costume and casual for sports. And you can tuck it away in a bag or a pocket for week-ending—it flatters every one. White, the most popular hat to be worn for all occasions.

We sold hundreds of these hats last Saturday and are repeating the sale for those who could not get them

WEDDINGS TAKE A BIG DROP

The slump in the number of marriages in Massachusetts, which started in 1924 and with one exception has continued each year, took another downward turn in 1930, according to statistics compiled by Secretary of State Frederic W. Cook and revealed today.

In 1930 the number solemnized, according to Cook, was 27,431, a decrease of 3137 in comparison with the number from the previous year.

With the exception of 1929, when the number of marriages performed was 30,568, there has been a steady decline each year since 1923, when the figure was 35,200.

MISS EARHART REPRIMANDED

Washington, June 19 (AP)—The Commerce Department announced today that Amelia Earhart had been reprimanded for carelessness and poor judgment in handling her autogiro when it crashed at Abilene, Tex., last week.

Miss Earhart, making a transcontinental flight, is reported to have struck a flood light in taking off from the airport at Abilene, turned her airplane over and struck an automobile. She said she had misjudged her height.

Reports reaching the department recently have been that the inspector on the field had recommended she be grounded for 90 days.

G. G. Budwig, in charge of the operations section of the aviation branch, today telegraphed R. W. Delaney, inspector at Dallas, for a report. Delaney telegraphed a recommendation that Miss Earhart be reprimanded.

'DRY' STRATEGY BOARD NAMED

Washington, June 19 (AP)—Prohibition organizations stood agreed today upon the membership of a combined "board of strategy" to direct the dry forces in 1932 in their fight to elect a President favoring the Eighteenth Amendment.

Led by the Rev. Daniel A. Poling, head of the world Christian Endeavor movement, and Dr. Oliver W. Stewart, president of the flying squadron, the Allied Forces several weeks ago mapped plans for 1500 non-church meetings throughout the country, to obtain 2,000,000 pledges.

On the combined "board of strategy," it was disclosed today, are not only the names of Drs. Poling and Stewart, but also those of Bishop James Cannon, Jr., F. Scott McBride, Dr. Clarence True Wilson, Mrs. Ella A. Boole, Dr. Ernest H. Cherrington, Bishop Thomas Nicholson, Willis J. Abbot and others.

PROSECUTION NEARS END OF CASE AGAINST FALL RIVER PLAYBOY

Continued From First Page

friend of a night, heard without emotion the famous Boston pathologist and criminologist drive the last bolt of the state's case alleging manual strangulation as the only cause of Verna's death.

The courtroom again was jammed and again, outside the courthouse, a large crowd awaited a chance for seats. Present as the state's case drew toward a close was Miss Florence Hathaway, the defendant's sister, sitting with the other members of his family and making her first appearance at the trial which began a week ago Monday.

Dr. Magrath was the the first morning witness as the defense sprung a surprise by failing to continue cross-examination of Mrs. Laura Galvin, of Fall River, wife of Hathaway's companion on a night rdie to view the body.

His cross-examination continued into the afternoon with indications that Dr. Lester A. Rounds, state toxicologist, and Carl E. Russell, of Portsmouth, father of the victim would follow him as the state's last witnesses.

Under a direct examination by Atty.-Gen. Benjamin M. McLyman, lasting only 20 minutes, Dr. Magrath testified to his belief that manual strangulation or throttling caused Verna's death and that she did not, as the defense has indicated, suffer from a diseased heart.

Under a long cross-examination by George Hurley, defense attorney, this opinion remained unshaken.

JURY INTENT ON WORD

The Boston medical examiner was a picturesque figure on the witness stand. He wore a high-buttoned blue suit and a flowing blue tie, a blue handkerchief peeked from his coat pocket. His great head of gray hair was askew. He spoke almost always directly to the jury. The jury was intent on his every word.

Half way through his cross-examination of the doctor, Atty. Hurley began a line of questioning directed at methods employed to find alcohol in a body.

This was blocked by state objection that it was not cross-examination and Hurley immediately accepted Dr. Magrath as a defense witness in order to proceed along this line.

Dr. Magrath admitted that when he examined the body on April 27, following exhumation, it was impossible properly to examine it for alcohol.

He further admitted that it would have been "good practice" to have removed the victim's larynix and windpipe at the first autopsy. It is evident that this was not done.

The trial resumed this morning following a report that one juror had violated instructions of the court by directly communicating with members of his family.

This, upon investigation, proved to be not so.

MAGRATH ON STAND

At the opening of the session Mrs. Laura Galvin resumed the witness stand. Hurley had no questions to ask her and she was excused.

The next witness was Dr. George Burgess Magrath, questioned by McLyman.

He said he was a physician and a specialist in pathology, that he was a graduate of Harvard Medical School, that at one time he was attached to the pathological department of the Boston City Hospital, that he was a medical research worker.

He said he was a professor of medicine, that he served as pathologist for a number of small hospitals, that in 1905 and 1906 he was attached to the Massachusetts State Board of Health, and his special duty was to investigate epidemics.

He said that in 1907 he was appointed medical examiner of Suffolk County, and still held that position.

Q—Doctor, in the course of your medical experience, how many cases of death have you viewed? A—In my official capacity, somewhere in the vicinity of 18,000. In my private work, in the vicinity of 30,000.

Q—Doctor, how many cases where death has occurred by asphyxia have you viewed, under all circumstances? A—Several hundred.

Q—In case of asphyxia by strangulation, would you say they were common or uncommon? A—Uncommon.

Q—You have viewed a good many of hangings? A—Yes.

DESCRIBES BRUISES

Q.—Doctor, will you tell us when you first became identified with this case of Verna Russell? A.—On a visit to your office in Providence last April.

Q.—Doctor, up to your visit to me, had you visited the scene of the crime? A.—Yes.

Q.—Had you examined the clothing of Miss Russell? A.—Yes.

Q.—At the exhumation on April 27, were you present at the undertaking parlors in Newport? A.—Yes.

Q.—Did you view the body? A.—Yes.

Q.—What can you tell the jury that you saw from your own observation?

Dr. Magrath then proceed to tell the jury that he viewed the body in the presence of Dr. Bryant and Dr. Peasley. He said that the body was in a good state of preservation when he saw it, and that there were bruises on the skin of the face and on other parts of the body.

He said that he saw hemorrhages on the lower side of the neck; that on the inside of the neck he saw discolorations which appeared to be bruises; that he saw a black and blue spot on the right cheek; that he noted discoloration of the skin; that as his examination went on he had the opportunity to see the inside of the larynx;; that he found signs of hemorrhages.

He said that he found a small abrasion on the left hand; on the left thigh he found a post-mortem bruise.

NURSE THROTTLED

He said he had made an examination of the girl's heart, and that while it was not a perfectly normal heart, it was not deformed, and it was not diseased.

He said from his examination of the heart and valves he was of the opinion that some time previous there had been a mild infection. He said that he noticed at the top of the heart, on the rear wall, a group of tiny hemorrhages. He said that he examined the windpipe and lungs and he found hemorrhages and color changes in the lungs.

Q.—Doctor, since the opening of this case, you have had the opportunity to hear Dr. Bryant and Dr. Peasley testify, with the exception of the first part of Dr. Bryant's testimony? A.—Yes.

Q.—Well, basing your opinion on medical facts, including the medical testimony given in this court, and from your observations of the body as you saw it, and from your examination of the organs, what, in your opinion, caused the death of Verna Russell?

Hurley objected, and after a lengthy argument on Hurley's part who questioned the right of the doctor to give an opinion, in answer to the question, McLyman changed the form of the question.

Q—Doctor, basing your opinion on your observation of Miss Russell's body, on April 27 and your examination of several of the organs, and other facts you have learned since you have been in the case, what, in your opinion, caused the death of Verna Russell?

Hurley objected. The objection was overruled and an exception taken.

A—In my opinion, the death was not due to any natural cause. From my observation, there was pressure applied on the neck, cutting off the supply of breath, and also pressure on an important nerve on the side of the neck, the sum of all being the cause of death.

Q—Do you mean by that doctor, strangulation? A—Yes, manual strangulation, or throttling, which is death by asphyxia.

Cross-examination of Magrath by Hurley.

Magrath said that there were many kinds of death caused by asphyxia. The doctor explained that death from asphyxia would take place when the breathing was stopped from within. The doctor said that death from asphyxia might be caused by hanging, by a foreign article getting into the windpipe and cutting off the supply of breath, by a body being exposed to conditions such as illuminating gas, etc., by smothering.

DESURIBES ASPHYXIA

Death by asphyxia, he said, could result from a motor vehicle accident, where pressure was applied from the outside, cutting off the supply of breath.

The doctor also said a person might get asphyxia from an acute posture.

The doctor said that the plugging of the larynx stops the breathing and when the supply of oxygen failed to go through the body that the blood would back up and cause hemorrhages. He said that in every instance the larynx must be thoroughly plugged in order to do that, because if it weren't the person would be able to inhale and exhale air from the lungs, causing coughing, and would cause the foreign article to either be brought into the lungs or expelled from the larynx.

The doctor told of cases where pieces of teeth had become lodged in the larynx.

He said that in his opinion any foreign body lodged in the larynx was liable to provoke coughing. Hurley then questioned him on vocal chords and foreign articles passing through them to the larynx.

The doctor said that in his opinion a foreign body couldn't remain in the larynx if there was coughing going on, as the inhalation and exhalation o fthe air incident to the coughing would pull it out or in.

He said that in the removal of the larynx from the throat of Miss Russell the condition as found was one common in cases of strangulation, but that otherwise the larynx was normal. The doctor said that on the lining of the larynx he found several gray spots which were hemorrhages.

Hurley then questioned the doctor on what would happen when fishbones got into the throat. The doctor went into great detail to explain that it would make it very uncomfortable for the person, would cause coughing and irritation, and might possibly cause strangulation.

Dr. Magrath testified that he saw no congestion in the heart when he examined it on the day the body of Verna Russell was exhumed.

Atty. Hurley asked the witness to decribe hemmorhages such as he

MAGRATH TESTIFIES

Continued from Page 6

found to the jury. Dr. Magrath gave a long technical explanation.

Q.—Dr., would a foreign body lodged in the windpipe cause such hemmorhages? A.—Yes. I have found them in such cases.

Q.—You say that Verna Russell did not have a normal heart? A.—It differed from a normal heart in one particular, but that did not affect the valve. It was technically not a normal heart, but there was no organic damage.

Attorney Hurley repeatedly mentioned in his questions a foreign substance lodged in the windpipe, indicating that the defense would stress this possibility.

Q—Did the liver show any signs of having been examined for alcohol."

CALLED BY DEFENSE

There was an objection by Mc-Lyman and when the court sustained it, Attorney Hurley stated that Dr. Magrath would from that point on be used as a witness for the defense. Judge Welsh then permitted questioning as to alcoholic examination.

Dr. Magrath testified that it was not apparent to him that such an examination had been made previous to exhumation.

Q—When was the first time that examination of the laryn had been made by operating on the throat from outside? A—April 27.

Q—In your opinion should that have been done at the first autopsy? A—It's good practice.

Q—If you had opened it, assuming that you were at the first autopsy, you would have found a fragment of tooth in the mouth that was not found until exhumation? A (laughing)—I'm sure I don't know.

Q—What is the proper practice in examination of a deceased to ascertain a content of alcohol? A—My practice is to note the odor of the heart's blood, gums, brain and the contents of the stomach. For determining chemically the presence of alcohol, I would preserve a portion of the brain, part of the liver and a portion of the stomach contents and kidneys.

Q—Why do you take a portion of the brain? A—For some reason, the brain lends itself to examination, and it has been studied more for alcohol than the other organs.

Q—Is the presence of alcohol particularly market there? A—It is easier to find there.

Hurley offered a number of hypothetical questions based on alcoholic examination.

In answer to Hurley's questions, Magrath said that at the time he saw the body on April 27, it was impossible to examine the organs for traces of alcohol, due to the fact that the body had been embalmed, which prevented any examiaion for traces of alcohol.

ON HAND AT RECESS

The doctor said that it was impossible to examine the brain for traces of alcohol at that time, due t othe fact that the brain had been preserved in a brain preservative. The doctor, when asked if application of outside pressure sufficient to cause strangulation would cause the face to turn blue, replied that, in some cases, it would.

At the noon recess Judge Walsh inquired as to how long Hurley expected to keep Dr. Magrath on the stand. Hurley replied, "About half an hour more."

It is expected that the government will conclude its case late today or tomorrow morning. One of the final government witnesses, according to the prosecuting authorities, will be Carl Russell, father of Verna.

Defense Counsel John H. Nolan said that it would take a week or 10 days for the defense to present its case.

Labor Delegates Discuss Law Code

Harrisburg, Pa., June 19 (AP)—Forty-two delegates to an eastern interstate labor conference today considered recommendations for uniform labor laws in 10 eastern states.

The states included Rhode Island, Connecticut and Massachusetts.

PAIR ESCAPE IN AUTO PLUNGE

Newburyport, June 19—A 7-year-old boy suffered a fractured leg and cuts and bruises, while two Greater Boston men escaped injury today in two automobile accidents.

Ronaldo Brisson, 7, son of Mr. and Mrs. Ronaldo Brisson of 2 Lawrence st., was struck by an automobile truck, said by police to have been operated by Paul E. Maisan of Beck st.

In King's Island rd., which is under reconstruction, a car carrying William Gertig of 611 Lynn st., Malden, as driver, and Thomas Bell of 899 Columbus ave., Roxbury, as passenger, left the highway after striking another car, plunged over a 15-foot embankment and capsized.

Gertig and Bell climbed out from under the wreck unhurt, however.

Panama Malaria Much 'Exaggerated'

Panama City, June 18 (AP)—Reports of a virulent outbreak of malaria on the isthmus are described by Col. J. L. Siler, chief health officer for the zone, as "unauthorized and exaggerated."

He said the proportion of cases among army men working in unsanitary woodlands was only 59 to 1000, while that of Canal Zone employes living in sanitated areas was only 18 per 1000.

DELAY ON U. S. DOPE PLAN

By WINIFRED BLACK

(Copyright, 1931, By Universal Service Inc.)

Geneva, June 19—America was not ready today with the answer it promised to give as to the American plan for narcotic control.

John D. Caldwell, chairman of the American delegation, was called upon for his explanation of his confused plan.

He rose and murmured faintly something or other about the time.

After some rather heated discussion the Americans were given another day to think over their plan and alter it here and there to meet the wishes of some of the other delegations.

There is a persistent rumor that Britain is leading America around by the nose and that all the delegates except Chairman Caldwell are bitterly angry at the situation.

But there is, it appears, a gag rule which forbids any member of the delegation to say one word either public or private without the consent of the chairman. This is quite according to Caldwell's liking, I suppose, as he took pains to tell the newspapers on the night of his arrival in Geneva that it was all nonsense sending so many delegates as he could manage the whole affair by himself.

He certainly has not managed it very well."

HOOVER SURE 'HARD TIMES' ARE ENDING

Washington, June 19 (INS)—President Hoover is convinced the worst of the "hard times" the country has been experiencing for 18 months is over.

He returned to his desk in the White House today, fresh from a 2500-mile swing through the Middle West, convinced that from now on there will be a steady improvement in economic conditions—and, correspondingly, a better outlook for Republican fortunes in the next campaign.

Drive to Re-elect Hoover Is Opened

San Francisco, June 19 (AP)—Northern California Republican leaders began their drive at a dinner here last night to support President Hoover for renomination and re-election.

"We are serving notice on the nation that California backs President Hoover to the utmost," said Senator Samuel M. Shortridge, "and we are leading the way for the rest of the states to unanimously renominate the President at our national convention next year."

Man About Town

—By AL DUFFY—

Buddies

Webster, the cartoonist, used to run a series in the old N. Y. World which he called "The Beginning of a Beautiful Friendship." Here is the Boston version of that phrase.

Eddie Martin, who sits in on the night city desk at the American, was hard at work one night recently when the phone rang.

"Hello," said Eddie.

"Hello, is this Martin?" a voice inquired.

"Yep," Eddie replied.

"Eddie Martin?"

"Yes. Who is this?"

"This is Byrd. What's the news on—"

"This is who?" Eddie asked.

"Byrd. Commander Byrd. What's the news—"

"You mean Admiral Byrd?"

"Well, yes. What's the—"

"So you're Admiral Byrd, eh? Then how come you didn't know your proper rank. Don't try to kid me, fella. Cause, do you want to know who I am? I'm General Butler of the Marines."

"Wait a minute, please. I really am Byrd and all I want to know is what news you have on the Nautilis tonight."

So Eddie, convinced at last—and a trifle abashed—summarized the day's news on the Wilkins' Polar submarine Nautilus to Admiral Byrd and now every night Dick calls up Eddie and they have a great old time exchanging amenities.

Life is like that.

The Morning Mail

Ann S., Boston—Your salutation indicates that you are more discerning than I thought you were. Thanks for the squib. I'll use it gladly. How's the peace situation?

Walt Ryan, Haverhill—Two letters in one day. What did you have—a brain storm or some bad gin?

Billie, Portland, Me.—Virile isn't the word for it. I'm a great big brute. Send along any copy you may have. I'll be glad to get it.

Buggie, Boston—The picture flatters you.

* * *

Now that two seven-year-olds appropriated a car and drove it through dense traffic without smashing into anybody, all we need wait for is to have some imp swipe a plane.

* * *

SIGHTS AND SOUNDS

Who's spending most of his spare pennies at Childs (Tremont st.) because he's ga-ga over one of the waitresses? . . . And speaking of restaurants, who boasts a collection of silverware from 'most every Hub restaurant and hotel? . . . A Chinese pedlar attached to the Newchwang (Manchuria) agency of the Standard Oil Co. apparently has broken all records for selling kerosene in small lots . . . He sells it by the pint from door to door and has disposed of five gallons daily for the past 27 years . . . As he sells it a dipperful at a time this meant an awful lot of dipping in the past 27 years; figure it out for yourself . . . If you care to hear real Southern warbling, listen to "Slim," one of the redcaps at South Station, do his stuff before a train pulls in.

How long does it take for a lad to learn to keep his razor at arm's length when a sneeze sneaks up on him while he's shaving? . . . Maybe blushes didn't preside when He met Her at a revel with another boy while he escorted another gal . . . Both had pleaded headachy in an earlier phone-fest . . . How come Providence gals look on Boston as THE town? . . . Who's the local lad who's pet ambition is to run an "advice to the lovelorn" column? And speaking of such columns, did you know that one paper in town insists that its lovelorn column adhere strictly to the double because of the conservatism of its circulation? . . . Did Fred (Old Howard) Doherty ever really smoke a cigar?

Jerry Day, doorman at the Hotel Lenox, gets a letter each and every day from his daughter, Juliette Day, who is making a name for herself in Hollywood but hasn't forgotten her dad. . . Where's the blonde queen who used to reign over the book counter in South Station . . . Who calls his girl "Hash" because there's so much to her? . . . What a handle! . . . And speaking of names, "Trevelyan" seems to delight my tongue more than any other . . . "I'm not blind," she Frigidaired when one of the attendants on the train told her that she was in the smoking car . . . A member of the espionage reports that the sign over a hash-house rampaged the other night and read, "A Lean Place to Eat." . . . Get it?

AGNEW'S SISTER IN HERO ROLE

Miss Getrude M. Agnew, sister of John H. Agnew, adjutant-general of Massachusetts, was revealed as a heroine today, although she was the driver that injured a three-year-old boy in Lynn yesterday.

Miss Agnew was forced to drive up on a sidewalk when Robert Guptill, three, ran into the street from in front of his home at 13 Halford pl.

The boy was in death's path, according to witnesses, when Miss Agnew swerved the machine. The boy escaped with a bruised right arm, due to a blow of the rear mudguard.

12 Injured in Riot at Dublin Prison

Dublin, June 19—In a police fight with a group of demonstrators protesting against the treatment of political prisoners at Mountjoy prison in Dublin, a dozen persons were injured. A number of arrests were made.

NEW AIRPLANE PROGRAM ASKED

Washington, June 19 (AP)—Senator Bingham today asked President Hoover to recommend a new five-year airplane program for the army and navy.

The Connecticut Republican said the present five-year program was nearing its end and unless something was done at the next Congress the two services would drop behind in aviation development and the airplane industry would be practically wrecked.

He said six years ago, when the Morrow board, which recommended the present program, was sitting at the capital, only 32 actual combat planes could be assembled from the two services. In contrast with that showing, he pointed to the recent army air maneuvers, in which more than 300 planes flew over the nation's capital.

British Motorcycle Racing Star Killed

Douglas, Isle of Man, June 19 (AP)—F. G. Hicks, well-known British motorcycle racer, was killed today in the senior tourist trophy race—a 264-mile dash over mountain trails. Hicks' machine skidded and crashed at Union Mills.

Estate Willed to Cats

Providence, June 19—Property in the village of Hope taxed for $1500 is bequeathed for "the care and maintenance of cats" by Maude A Potter in her will probated here.

2 ON NAUTILUS NEAR DEATH AS BRIDGE GOES

EXCLUSIVE!

By CAPT. SIR HUBERT WILKINS

Copyright, 1931, throughout the world by New York American, Inc., Hearst Enterprises, Inc., and King Features Syndicate, Inc. All rights reserved. Reproduction prohibited in whole or in part.

Aboard the Submarine Nautilus at Sea, June 19 (radio to London via Portishead)—We are still making progress under our own power at the rate of about seven knots an hour. We are working our way through stormy weather with following seas, which sweep the deck of the Nautilus from stem to stern.

The bridge of the submarine was carried away yesterday afternoon, taking our quartermaster, Edward Clark, who was on watch, and Raymond Drakio, one of our engineers, who was with him, over the side. They managed to hang on and crawled back and were able to scramble down the conning tower.

THINGS BATTENED DOWN

Everything is now battened down except the ventilator in the laboratory and the elevated ice drill.

Our port engine is doing splendidly and the auxiliary engine is functioning but the margin on the battery charging is too limited for comfort.

The crew's general health is improving. Arthur Blumberg, chief electrician, and Harry Rothschild, the cook, are still prostrated from the effects of the ptomaine poisoning, but they are not in any serious condition. Jacob Fleutsch, our Swiss mess boy, is carrying on in the kitchen, but nobody seems to do much justice to the meals.

400 MILES OFF COAST

Our position at noon yesterday was latitude 49 north and longitude 17 west, which is about 400 miles from Queenstown, the Cork harbor. When we get there, which we expect will be Monday morning, we will have facilities for charging our batteries.

As our running lights were carried away with the bridge, the U. S. S. Wyoming, convoying us, kept her searchlights on us throughout the night.

Tidal Wave Kills 8

Lisbon, Portugal, June 19 (AP)—The colonial office was informed today that a tidal wave had swept Macao, in Kwangtung, Portuguese China, drowning eight persons.

THE PATH OF FLAME

LIFE STORY OF STARR FAITHFULL

By L. E. LAVEY

Copyright, 1931, Boston Evening American. All rights reserved.

A few years ago, New York sophisticates tireless in the quest for new thrills to whet appetites jaded by the sameness of metropolitan dissipation, discovered a novel outlet for their exuberant spirits.

"Sailing parties" became the vogue—not the innocuous boat rides the name suggests, but extravagant bon voyage parties aboard luxurious transatlantic liners on the eve of departure for European ports.

The magnificent floating palaces furnished an ideal setting for Bacchanalian revels, to which the fast moving men about town and their gilded "ladies" were addicted.

Aboard these liners, safe from the irritating curiosity of local police, a select group of the city's "best people," mellowed by Europe's choicest liquors, marked each sailing night with a brawl such as Rome in the depths of her decadence scarcely knew.

STARR FOUND LOVE

In such company and under such circumstances Starr Faithfull came to know the sea—that sea whose lazy waves sounded her death knell on the sands of Long Beach.

Here she met the clean, smiling man to whom she gave her heart in the first and only love it ever knew—who aroused in her the first call of normal love—whom she pursued—who fled her importunities.

Starr brought to her first visit aboard a liner, a casual, questioning calm. She told herself that life held no secrets from her. She had tasted all its joys and many of its sorrows. But within her was the half-formed thought that here was something new—something that might renew her flagging interest in life and living. And there was.

The first officer was courtesy itself in receiving her as she stepped from the gang-plank. He introduced her to the party guests—most of whom were already reporting remarkable progress in the quest for another evening of fun.

SURGEON'S ASSISTANT

Starr met the ship's surgeon. He introduced her to his assistant—blonde, clear-eyed, Viking-like Dr. G. Jameson Carr. Dr. Carr glanced at the girl. Their eyes met. They passed the usual meaningless remarks that attend all introductions.

But to the girl here was something new again. Here was a man she meant to make her own. And she set about the task immediately.

At these parties each guest is assigned a cabin—well—just in case of emergencies. From long experience in such matters the hosts know that more than one lady or gentleman is apt to take too much—and for such as these there must be a place for rest, relaxation and ultimate recuperation.

After several rounds, Starr retired to her cabin—the first step in a plan conceived on the spur of the moment. She would have that fascinating medical man for herself—alone—even if it were only for a short while. Starr was like that. When she wanted anything or anybody, she usually had her desires gratified.

Dr. Carr came in answer to the girl's ring for the ship's surgeon.

As he entered the cabin, he saw Starr lying on the bed apparently deathly sick. Her glittering evening gown was arranged with studied carelessness. No delicate strap marred the even contour of her perfect shoulder. She presented a picture that would arouse only one thought in the mind of the average male guest at these parties.

HE WAS DIFFERENT

But the young doctor was different. During the short period of his stay with the girl in her cabin he was a model of professional efficiency. He went through the orthodox procedure calculated to relieve patients in such condition. Starr was puzzled.

Here was a man who had violated every canon in the code of the men with whom she associated. He was clean. He was decent. He treated a woman as a woman—not merely as a commodity.

While maintaining his professional demeanor, Dr. Carr aroused in the pleasure-mad girl an emotion she had not experienced in ages of living. When he came to the cabin, Starr had one thought with reference to him—another conquest. Before he left, she found herself wanting him as a friend.

This first contact with Dr. Carr led to many more. Each time his ship was in port Starr used every wile in her reperotire to arrange meetings.

The doctor was a delightful friend. The friendship advanced—it reached a stage almost idyllic. And then Starr, the madcap butterfly, by her own thoughtless act ruined that friendship which might have changed the whole tenor of her life.

(The story of Starr Faithfull's life will be continued tomorrow).

DUCE AND POPE STILL AT ODDS

Rome, June 19 (AP)—Search for a formula to satisfy the Pope's demand for an apology and the question of the church's alleged political activity were stated officially today to be two of the points at issue between Italy and the Vatican.

There are other matters, such as the reopening of many clubs for Catholic laymen and various mutual grievances, which, it was learned unofficially, are on the road to settlement.

The government's firm position regarding Catholic Action and the clubs for young people, it was announced, remains unshakable, but as the Vatican is said to be willing to discuss these points, the situation is described as "one of positive conciliation."

Chas. Lindbergh, Jr., Near First Birthday

New York, June 19—Charles A. Lindbergh, Jr., will be a year old next Monday.

As the day draws near he remains as usual "in seclusion" and away from the publicity always attendant upon the movements of his parents.

MELLON ERRED, SAYS GARNER

Laredo, Tex., June 19 (AP)—Representative John Garner of Texas, Democratic leader of the House, says he believes Secretary of the Treasury Mellon had made a mistake in offering $800,000,000 in treasury certificates at 3¼ per cent interest and he advised the secretary the issue undoubtedly would be oversubscribed at 3 per cent.

Garner, here yesterday, expressed dissatisfaction at the uneven distribution of wealth over the country.

"For more than 100 years we have been feeding New England and concentrating money there," he asserted. "The time has come for this money to be more evenly distributed, and Texas should get its share. The state of Rhode Island, no larger than Webb county, Texas, paid more inheritance taxes, last year than the entire state of Texas."

Hospital's $100,000 Drive Reaches Goal

Massachusetts Memorial Hospital reached the $100,000 goal in the budget-balancing campaign today. With the announcement the trustees issued a statement of praise for the 150 workers and the newspapers who printed the daily progress of the drive.

KATHARINE LEE BURRAGE ANNOUNCES BRIDAL ATTENDANTS

BEACON HILL

—by—

Betty Alden

WHAT IS SO RARE AS A DAY IN JUNE WHEN THE sun is shining down on the soft velvet grass shadowed by ancient trees that have lived a quiet life for centuries, and a garden which has been nursed and tended with loving care for the wedding of a beautiful daughter. In such a setting Miss Dolores Dedons de Pierrefeu, hereditary Comtesse de Coligny, was married to Ensign Arthur Noyes Daniels, a member of this year's class at the United States Naval Academy at Annapolis yesterday afternoon. The ceremony was performed in the historic old church, St. Michael's, in Milton, and the reception was held immediately afterward in the garden of the home of her mother and stepfather, Mr. and Mrs. Joseph D. Leland.

MRS. JOSEPH LELAND

* * *

Seven of the bridegroom's classmates attended him, all in the full-dress uniform of their class, and the bride and bridegroom came out of the church under the crossed swords of the officers. Miss Dolores was very beautiful in her bridal satin with rose-point cap, and the maid of honor, her sister, Miss Leonora, was charming in bright blue. The bridesmaids wore yellow tulle with leghorn hats, very jaunty over one eye with long plumes. Rose-beige—which is so flattering to all women, making them just a little more beautiful than they are—in shadow-lace and crepe was very becoming to Mrs. Leland, the bride's mother—she looked every inch a Comtesse.

* * *

Merry Wedding Group

AROUND LITTLE TABLES ON THE LAWNS, FRIENDS, young and old, chatted while they sipped their punch and demolished ices, and softly from the distance the strains of an orchestra floated on the summer afternoon breezes. And what a merry wedding group it was—the handsome naval officers entering into the spirit of the occasion kissing the bride and the bridesmaids and really appearing to be having a huge time. It was good to see; some wedding parties have more the appearance of funeral marches.

* * *

MRS. JOHN C. GRAY, mother of Mrs. Henry Tudor, representing the old generation, leaned on the arm of her son as she greeted her many friends. She looked very pretty in black crepe. Miss Nellie Carter, an aunt of the bride, who, we hear, presented her with her trousseau, was present; also young Grandfather Guido Perera of Beacon Hill, whose new grandson has recently taken his mother and father, Mr. and Mrs. Guido Perera, down to their summer home at Yarmouthport.

* * *

SURROUNDED BY MASCULINITY was Miss Polly Beale in blue and white printed chiffon, very becoming under a huge hat. Miss Beale will sail on the North Cape cruise this month with friends. Also sailing on this cruise will be Penfield Moore, who lives with his mother at The Country Club, and Miss Betty McGinley, a debutante of this season. If anything should happen that this boat got lost amid the icebergs, a goodly number of social registrites will be missing as there are a large number of debs and their families taking this trip.

Bachrach Photo
Polly Beale

* * *

THE DE PIERREFEUS HAVE always been a lively family, and to sustain the tradition young Tudor de Pierrefeu drained all of the gasoline out of the limousine which was to take the bride and groom away and they got only a mile or so from the house when the car stopped and an SOS was sent out. Young Arthur did not have to walk his sweetie back home, reserves came up and the honor of the navy was saved. Newport News will be their destination this summer and next fall we hear the young naval officer will be stationed in California.

* * *

At Boat Races

THE HUGH BANCROFTS left on their steam yacht last evening for the Harvard-Yale boat races with their daughter, Jane, a debutante of this season, and two of her friends at Winsor, Miss Babbette Morison and Miss Polly Richardson. And another sub-debutante, Miss Frances McElwain, has had the honor of being elected president of her class at Beaver Country Day School.

* * *

MANY DEBUTANTES OF this season are taking their college examinations now, not with the idea of using them next fall, but just to have a little snug harbor in case—well, in case they decide to go to college sometime.

* * *

THE WANDERBIRD IS ON her way to Newport with Elton Clarke and Hobart Spalding aboard and 20 other young Harvard and Dartmouth men who will spend their summer on the seas, taking the course that the yachts do in the Prince of Wales Cup race.

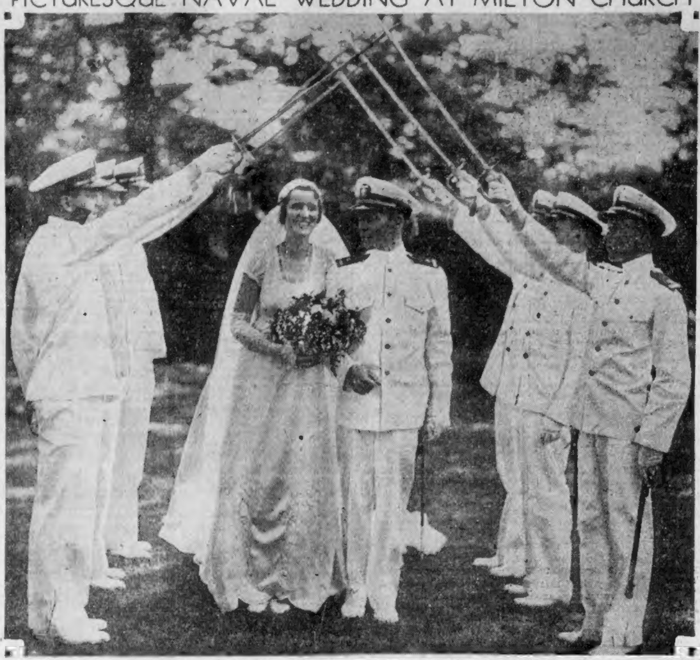
* * *

ALL ROADS SEEM TO LEAD in different directions today—two of the more serious-minded, the Misses Betty Richardson and Nancy Adams, are going to the Northfield Conference, which is a sort of religious revival meeting, for several weeks. What will they do next?

* * *

MASTER ROBERT WINTHROP, JR., will spend the summer with his grandmother, Mrs. Charles Fanning Ayer, of Hamilton.

PICTURESQUE NAVAL WEDDING AT MILTON CHURCH



ENSIGN AND MRS. ARTHUR NOYES DANIELS (Dolores de Pierrefeu), married in St. Michael's Church in Milton, are shown leaving the church under the crossed swords of classmates of the bridegroom at Annapolis.

Jones Re-elected as Child Welfare Head

Minneapolis, Minn., June 19—Cheney C. Jones, superintendent of the New England Home for Little Wanderers in Boston, was re-elected for a third term as president of the Child Welfare League of America here last night.

Mrs. Samuel S. Drury of Concord, N. H., wife of the headmaster at St. Paul's school, was elected third vice-president. Alfred Whitman of the Children's Aid Association, Boston, was elected to the executive board.

Deb Will Wed Clark June 27

St. John's Church, Beverly Farms, will be the scene of a colorful and important wedding on Saturday, June 27, when Miss Katherine Lee Burrage becomes the wife of Mr. Forrester (Tim) Andrew Clark. Miss Burrage, better known as Kitty among her intimates, is the young and charming debutante daughter of Mr. and Mrs. Russell Burrage of Boston and Beverly Farms, and the granddaughter of the Cameron Burrages.

She will be attended by her sister as maid of honor, and eight bridesmaids, the Misses Barbara Holmes, Beatrice Stewart, both of Glen Cove, L. I., Elizabeth Sawyer, Barbara Young, Anne Warren, Frances Gardiner, Anne Dick and Caroline Hunnewell, all of Boston, and all sister-debs of Miss Kitty's this season. The reception, which will take place immediately after the ceremony, is to be at Brookwood Farm, the lovely summer home of the Burrages.

Mr. Clark, who is the son of Mr. John Dudley Clark of Boston and Sherburne, will have John Dudley Clark, Jr., his brother, as his best man, and the following friends to seat the guests at the church: George O. Clark and Nathaniel Clark, two other brothers, Charles E. Mason, Jr., Philip W. Smith, Conway Olmsted, James Lawrence, Jr., Oliver Ames, 2d, Richard Warren, Orten P. Jackson, William Wetmore, Wm. A. Coolidge, Wm. T. Emmet, Daniel A. Simonds, 2d, Robert A. Bishop, Wm. A. Russell, Alexander Shaw, John Watts, and Gordon Douglas.

Several dinner dances and other more informal parties will come off the week of the wedding, the most unusual being a dinner with dancing, Friday, the evening before, on the Aztec, a yacht owned by the bride's grandparents, Mr. and Mrs. C. Burrage. And on Saturday, Mrs. Samuel D. Warren, mother of one of the bridesmaids, will give a luncheon for the bridal party.

NEW ENGLAND'S lure as a vacation land often brings relatives or friends on a visit, sometimes unexpectedly. On such occasions the foresighted hostess will want to be ready with appetizing foods which may be quickly prepared for meals at home or for picnic lunches. The simplest and most suitable item on a summer menu is a crisp salad . . . made with "Old Monk" salad dressings—French, Russian or mayonnaise. These salad dressings with "Old Monk" Lunch-O-Net, and colossal ripe olives, are imported food products that provide the desired piquant touch. Cobb, Bates and Yerxa have introduced these products to Boston. Call about them at the store and plan to have a complete selection on hand.

COBB, BATES AND YERXA
65 Summer Street

WHAT equals the restfulness of being able to utterly relax in a chair, cushioned and curved to give the utmost in easeful comfort? And when you add beauty and artistry of design, you have the ideal combination. At Ferdinand's you will find just such a chair, especially suitable for the sunroom or boudoir. The comfort features are: loose reversible pillow back and seat, and its appearance is enhanced by the de luxe quality of the upholstering of chintz in a variety of patterns that are pleasingly colorful but in excellent taste. There's the added attraction of a saving, because you may buy it for $25 instead of the usual price, $35.

FERDINAND'S
At Dudley Street Terminal
And opposite Needham Theatre, Needham

WITH the advent of summer's social activities, thrilling vacations, and week-ends, comes the increased need of evening gowns, dainty informal afternoon dress, and sportswear. The fascinating white satin evening gown sketched is one of the dresses at the New York Dress Mfg. Co. They specialize in selling sample dresses retail at wholesale prices and less. Mostly less. These dresses, in every new style and color, are marked at their famous prices, $6.75 and $3.75, and are made to sell for 3 or 4 times as much. They have 20 private dressing rooms and plenty of salesgirls to assist you.

DON'T forget your dad on Father's day next Sunday . . . especially when Geo. L. Griffin and Son, Inc., offers these cleverly arranged gifts for your selection. Whether he's an enthusiastic sportsman, or a quiet "stay-at-home," you will find the most suitable items for him at Griffin's. Among the suggestions are smart and comfortable all wool sweaters in slip-over or coat styles, all colors and sizes, at $1.95, $2.25, $2.45, $3.95 and up; Golf hose, $1.00, $1.50, $1.75 a pair; Socks, 25c, 35c, 50c, 75c and $1.00 a pair; well fitting shirts in the best materials at $1.35, $1.50, $1.75, $1.95 and up. Griffin's also have an outstanding assortment of ties priced at 55c, $1.00, $1.50 and up.

GEO. L. GRIFFIN & SONS, Inc.
Washington Street

HAVE you ever started to dress hurriedly for an evening party and found to your dismay that the last pair of sheer chiffons had "run out" on you? Even in town that is exasperating, but on a vacation it is nothing short of a calamity. One way to make sure that this won't happen is to choose several pairs of the lovely sheer 48 gauge chiffon hose that C. F. Hovey's is selling at $1.05 a pair, or three pairs for $3.00. They're in the voguish dull finish, with double picot top, reinforced french heels and cradle soles. It is real economy not to buy one, but several pairs.

C. F. HOVEY CO.
Summer Street

I had rather be the descendant of an honest man than of any petty tyrant of Italy.—Napoleon

True to Type
MOTIVES IN SCHOOLING OF "LITTLE ONES"
By Gilbert Seldes

One of the most elaborate facades ever erected to conceal simple human desire is the new theory of child education. On the surface it appears absolutely scientific. In fact, many people who follow the most advanced theories would assure you that they go against the grain, for fundamentally new principles seem to deny two great parental instincts: to kiss their children and to slap them. Judging from observation, I should say that the first instinct is more easily abandoned than the second one.

In its best light the modern training of children shows as an effort to rear the young by the steady light of reason in place of the lightning flashes and black clouds of emotion. The followers of Dr. John B. Watson believe that the father and mother are exactly the last persons to be entrusted with the continuous education of their own children. And any parent who has been humiliated by a child, and amused when someone else's child did exactly the same thing, will see the sense of the argument. It has been remarked before that experts are engaged to train monkeys and football players, but that any ignoramus is supposed to be competent to make a man out of a child through the divine agency of parent love. The new theory holds to the belief that the creation of human beings—at least after their birth—is also a matter for experts.

• • •

Not So Reasonable

But if they imagine that this is pure reason, the patrons of pre-kindergarten schools and other modern institutions are deluding themselves. Their ideas may be right; I have not yet heard of any modern school which isn't at least as intelligent as the old-fashioned school. But they are not guided solely by the cold process of thought. The shifting of responsibility to the shoulders of others is a contemporary habit which we see in politics and business and in cooking and entertainment. Where we are lucky, the machine does the work for us so that by setting a clock we are relieved of the necessity of attending to the furnace, or by turning a dial we are relieved of the necessity of thinking. As no machines exist for the instruction of childhood, we engage experts.

And by a coincidence this fits in with another habit, which is the habit of thinking first of ourselves and then of course of everyone else. The psychologists warn us that our desire to sacrifice ourselves for our children is bad for the children, but if we take their word for it with enthusiasm, it is partly because we suspect that sacrificing ourselves for our children is equally bad for us. As we are modern, we do not want our children to have complexes about their parents, and the new schools effectively prevent that—or at least so we hope. The thing we are sure of is that the new schools prevent the parents from being tied down to their children, and that is velvet.

• • •

What Kind of Product?

There is still room to wonder what kind of children the new schools want to create. Most of them have to make rather general statements. They know what they do not want. They do not want all the children forced into the same mould and they do not want to thwart any child's natural bent by a system of education which is always concerned primarily with the average. Some of the most intelligent of the new teachers say frankly that what they want is a happy child. This is heresy to the parent who wants a dutiful child, or a well-mannered child, or even a brilliant child.

The more extreme schools feel that the greatest immediate happines and the greatest ultimate good for a child will come by allowing him the maximum of self-expression. One of the most familiar orders to parents is that they must avoid "don'ts." (It is too late to do anything about the parents, so "Don't say don't" seems perfectly logical.) To check a child's impulse when he is hammering a Ming vase is dangerous, and the intelligent method is to divert his attention or substitute something less valuable for the victim of his destructive passion. The puzzle to parents is that they wonder at what age the child will learn that he cannot do certain things. It is as easy to say "Wait for the green light" as "Don't cross on the red light," but there are events in human existence which are not regulated from the central watch tower.

• • •

How to Make a Genius

The schools which intend to create geniuses are working on the principle, which has not yet been established, that we are made by what we express and wrecked by what we suppress. There is an idea in the minds of many people that the opposite is equally true.

The emphasis at present is on the child before he reaches the age of five. (The Jesuits put the age limit farther on, but essentially the idea is the same.) The assumption is that the major complexes will be formed in these tender years and the subconscious memory of little children is credited with an eternal and almighty wrath, so that if you are infinitely kind to a child of three for eight months and unjust for ten minutes it is the injustice which he will remember and not the kindness.

• • •

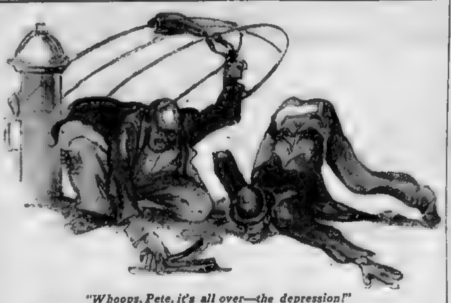
A Father Worries

I am unable to disprove any of these assumptions. Some of them are extremely reasonable. But I have been impressed by the experience of a friend of mine who in the last four years has followed within reason and devotedly all of the precepts of the new schools. Suddenly something made him think of his own childhood and he became aware of the fact that his first conscious memory of his own father was at the age of five. He became aware at the same moment that now for the first time his son is approaching the age from which he will date everything, which means that whatever the father does now will remain with the child through his life. The father is profoundly shocked; he is undergoing a revolution in his attitude toward his child. The psychoanalysts say it is too late and that the important memories are already fixed in the child's subconscious mind. But the proof is still to be found, and the proof of the young father's own experience is overwhelming.

Lover's Lament

I sent a letter to my love,
And waited her reply.
No answer came—I thought: "Pourquoi?
Warum? What? Wherefore? Why?"
I mused: "Such wilful negligence!
She is a careless scamp."
I sent a letter to my love—
But I forgot the stamp.

—*Mary Carolyn Davies.*



"Whoops, Pete, it's all over—the depression!"

Birth Rate
By the Reader

PROFESSOR EZRA BOWEN, like most who have dipped into the subject, is faintly alarmed at the rate of human increase. This old planet, in the year 1831, had a billion people subsisting on its outer crust. They followed the Biblical injunction to multiply, and now Earth harbors two billion, with the end not in sight.

In *"An Hypothesis of Population Growth"* (Columbia University Press) he expresses a hope that the white race will prevail. He is not sure that propagation should not be controlled in the "under-endowed" classes, and that "voluntary parenthood" wouldn't be a very good thing for all classes.

• • •

Nature cares not a fig for cultural endowment. From the standpoint of biology, a pygmy or a Hottentot is quite as perfect a specimen as a Goethe or a codfish Bostonian, if not better.

Certainly she has endowed the first with more prolificacy, which shows how she loves the primitive types. This is all a little shocking to the "Nordics," who think something ought to be done about it.

To bring the matter nearer home, the United States had twelve millions in 1831, and more than ten times that at the last census. College graduates—who, The Reader is assured, are quite superior persons—manifest a tendency to have but half a child apiece.

The French-Canadians, of whom there are one million in the New England States, have 5.2 children to each couple. The Portuguese do a little better, and the Mexicans, numbering three millions within our borders, have doubled their numbers through births since 1927.

There is, thank Heaven, small fear of our population dwindling. If all these youngsters weren't born, there wouldn't be any grown-ups, which would be a calamity.

• • •

It is a source of annoyance to American tourists that so little English is spoken on the Continent. A few Berlitz phrases work wonders sometimes. Bernard Shaw isn't so sure. He advocates yelling at the top of your voice and using sign language as the handiest approach to the mind of the porter or concierge.

Those preferring more subtle

Those preferring more subtle means will pack along *"Talking Your Way Through Europe"* (Mohawk Press), by LeMassena and Hackes.

If art, as Walter Pater said, is the elimination of non-essentials, then this little book is a work of art. Every phrase in it you can use a thousand times over, if you go abroad. It is repeated in both French and English.

"Geben Sie mir die Weinkarte" is a very good phrase. It is equally beautiful in French, *"Donnez-moi la carte des vins."*

"Up from the Ape"

Inability to wiggle the ears need not be considered a disgrace. In *"Up from the Ape"* Professor E. A. Hooton, of Harvard, reminds us that a talent for ear wiggling is a left-over from our lower animal ancestors who pricked their ears to save their skins.

The characteristic of the human ear that distinguishes it from that of the anthrapoid apes is the size of the lobe; this is the part most developed in the civilized races of man.

As for the nose, the more highly evolved man is, the "nosier" he looks; the elevation of the bridge and the prolongation of the tip distinguish man's nose from that of his tree-climbing progenitors.

Dr. Hooton shows man's relationship to other animals, discusses our fossil ancestors, the likenesses and differences between the various races of men. His facts are presented with frequent flashes of humor.

"Up from the Ape" is a new Macmillan book. It is listed by the University of Minnesota as one of the hundred books, "guides to general culture."

Day of Doom
By Agnes Smith

I am disquieted by the news from the Long Island home of Mrs. Martin W. Littleton that the Second Coming of Christ is at hand. Every year some prohpet arises—and these prophets usually dwell in the mystic localities of Long Island or New Jersey—to predict the imminent end of the world. And every year I find that I am unable to laugh off these predictions. When the Day of Doom arrives, I am subject to restlessness and view with alarm the slightest thunderstorm.

The photographs of Mrs. Littleton's Biblical surroundings impress me. They are not really ridiculous. Other ladies have built for themselves Japanese tea gardens, or imitations of Le Notre's gardens of Versailles or landscapes patterned after the Villa d'Este. Mrs. Littleton chooses to live in the atmosphere of the Old Testament which is no more of an anachronism in a Long Island setting than a Spanish villa.

Those who take religion literally are, perhaps, the happiest persons in the world, far happier than the sceptics and deniers. I have no doubt that at present Mrs. Littleton is living in a state of poetry.

• • •

A Book Tells Us

Last year a strange and beautiful book was published called *"The End of the World."* In it, the year of 1931 was listed as among the years mentioned by ancient prophets as a time of doom.

Very likely in her esoteric readings, Mrs. Littleton discovered this same prophecy, and it probably struck her as being a good idea. Just now a great many persons, not so courageous as Mrs. Littleton, would welcome the Millennium with open arms. They would prefer joining the chorus of the blest rather than the ranks of the unemployed, and a white robe, whatever its deficiencies in style and cut, is better than no new clothes at all.

Mrs. Littleton is no mean psychologist. During the years of 1928 and 1929, we looked to more earthly leaders for our salvation. A prosperous and hopeful nation is not given to taking religious prophets seriously. But, as Mrs. Littleton points out, what with earthquakes in England and in Wall Street and upheavals all over the world, we might well look for superhuman help.

In Russia, Stalin and his associates have substituted a Five-Year Plan for the Orthodox State religion. In other words, they promise a Millennium in 1936. If the Five-Year Plan works, the Russian leaders will be safely entrenched as national idols. If the Five-Year Plan fails and Russia does not abound in milk and honey, then something will happen. Other prophets will arise in the land and the systematically squelched Orthodox Church will come back into power, stronger and more influential than ever. An innately religious peasantry will begin to suspect that it has sold its birthright for a mess of pottage—and not gotten the pottage. The book caused me no little apprehension.

All of which proves that we must have our hopes of Millennium and wiser persons than Mrs. Littleton have predicted the immediate coming of a Golden Age. The French Revolution substituted an Age of Reason for an Age of Religion. It, too, suffers from a Millenium complex. Even the names of the months were changed and given more reasonable appellations. But today how many persons can tell you the months of the Revolutionary Calendar? July is still July and not the month of Humidor.

• • •

Too Good to Be True

As promises of Millenniums go, Mrs. Littleton's is fairly simple and not so far fetched. Compared with Stalin's program, it seems positively conservative. Those who are disposed to laugh at it should recall that only a few years ago most of us, by our votes, expressed a confidence in an even more glamorous Golden Age. Still more recently, the Spanish nation booted out a comparatively competent king with the high hopes that a change of government would immediately bring them their own personal Millennium.

Mrs. Littleton says that her Millennium will last for one thousand years, longer than the reign of a French Bourbon king or a Republican administration. Personally, such stability of government appeals to me. To be practical, it would be good for business and would bring a soothing confidence to manufacturers and purchasers alike. It would calm the troubled stock market and quiet restless industries. There would be no necessity for too frequent elections or upsetting revisions of tariff.

• • •

Such faith as Mrs. Littleton's is more to be envied than scorned. The costume that she has designed for herself is not without dignity and charm. Her house, with its library of religious books, its Oriental gardens and its Palestine architecture, must be a singularly attractive and restful spot. In the worldly and cultivated landscape of Long Island, its ancient simplicity must be as startling as the presence of a Bible in a duplex penthouse apartment.

The only great trouble with Mrs. Littleton's Millennium is that it is almost too good to be true.

Subway Romance

She smiles at him with a pearly smile,
And her teeth are wondrous white,
And he is clad in immaculate style,
The source of a maid's delight,
But the lass and her swain will never mate,
And their love is doomed by a cruel fate,
For she is a charming toothpaste ad,
Alluringly sweet and fair,
And he is a collar-and-necktie lad
With a smile that is painted there,
And they live so near and yet so far
On the opposite sides of a subway car.

POLITICS
Notes and Gossip About People You Know

NEW TAMMANY CLUB

"Dan" Hourihan, brother of former Rep. "Mike" Hourihan, is organizing a Ward 10 Tammany Club. The organization will be modelled after the old Tammany Club in Roxbury. Quarters have been rented at the corner of Longwood ave. and Phillips st., and the first meeting is to be held soon.

CITY HALL POST OPEN

A civil service examination for the position of assistant city registrar of voters is to be held on July 17. July 7 is the last day for filing application for the examination.

DOHERTY IS CANDIDATE

John Doherty, technician in the X-ray department at the Boston City Hospital, plans to be a candidate for City Council from Ward 10, Roxbury, this fall. City Councillor Leo Power will seek re-election.

KEEFE, CANADA BOUND

"Dave" Keefe, janitor in City Hall, will spend his annual vacation in Canada. His rest period starts at the close of business tomorrow and he will leave Boston on Sunday.

CHESKY MAY SEEK OFFICE

Atty. Benjamin F. Chesky, of 302 Broadway, South Boston, is another of those mentioned as possible candidates for school committee. He has made no announcement of his plans.

CARO IN FIELD?

Friends of Atty. Maurice Caro, of Chelsea, are urging him to be a candidate for mayor of that city this fall. Maurice is a former assistant district attorney of Suffolk County.

TENNIS TOURNAMENT NOW

Tom O'Leary, of the central office, public works department, in City Hall, checker player and golfer, now plans to stage a tennis tournament in August. Only city employes will be permitted to participate.

NEWSBOY POLITICIAN

Abie Gray, king of the Scollay sq. newsboys, is another of those mentioned as possible candidates for City Council from Ward 14, Dorchester. He is an active member of the Ward 14 Democratic Club.

WEATHER WAS ROUGH

The delegation from the Legislature which attended the funeral services of the late Rep. Arthur W. Jones of Nantucket will remember the trip back to Woods Hole from the island for many a day. The little coast guard patrol boat put at their disposal encountered some rough weather and all but about four of the party were very seasick.

CARE FOR DEWOLF

DeWitt C. DeWolf, secretary to Governor Ely, has been presented with a cane made by a lifer at the State Prison. The cane has a silver band upon which is inscribed the secretary's name.

BACON TO GO TO EUROPE

President Gaspar G. Bacon of the Senate will go to France in August for about two months' vacation. He will make his headquarters in Paris. Bacon heads the St. Mihiel War Memorial Commission.

HOOVER ACTION TO REVISE WAR DEBTS SEEN

Washington, June 19 (AP)—President Hoover is showing a vital interest in the European financial situation and as a result of conferences today there is a belief in Washington some action by the administration is imminent.

The President called to the White House three members of the Senate and Representative Tilson of Connecticut, Republican leader of the House.

MELLON IN LONDON

Immediately after his return last night from the Middle West Mr. Hoover held a long conference with Secretary Stimson. Yesterday in London Secretary Mellon held a series of conferences with Prime Minister MacDonald nad other officials who recently heard the plea of Germany's officials for a cut in the Germans reparations bill.

Chairman Smoot of the Senate finance committee is headed for an unexpected visit to Washington. Senator Reed, Republican, Pennsylvania, conferred with Mr. Hoover at breakfast today, together with Tilson.

WALSH, GLASS CALLED.

Later the President called Senator Walsh, Democrat, of Montana, a member of the foreign relations committee and Senator Glass of Virginia, former Democratic Secretary of the Treasury. There was a rumor that Senator Watson of Indiana, Republican leader, might be here over the week-end.

The President's conversations with the congressional leaders led to the belief that some revision of World War debts or a moratorium is contemplated to help avoid a financial crisis in Europe.

Congressional approval would be required for any change in the debt status.

3 NABBED AFTER HECTIC CHASE

Providence, June 19 (INS)—Driving an automobile stolen in Hartford across the state of Rhode Island at an 80-mile-an-hour clip, dodging 12 shots from the pistol of a pursuing state trooper, sideswiping six automobiles on the Hartford pike and narrowly avoiding running down of 12 persons in North Scituate, three men were arrested here.

The driver said he was John Ackerman of Hartford. His companions said they were Edward Proulx of Fall River, Mass., and John Sunday, no addres.

The automobile was that of Morris Jaffer of Hartford. Police suspect the trio as members of a band of auto thieves who have been active in Connecticut and Rhode Island, stealing automobiles in Connecticut and driving them into Rhode Island to be sold.

Ackerman was held on reckless driving charges. The three men roared into North Scituate late last night, scattering crowds attending a carnival.

State Trooper Ernest Stenhouse gave chase. A mile outside North Scituate his car drew close to the speeding automobile. He was forced [illegible] into a sandbank and narrowly escaped with his life.

He renewed the chase and in Olneyville fired between 12 and 15 shots. Olneyville police had been notified and had a cordon drawn up around the district. The stolen automobile swung into a side street and the men were arrested.

State Shows List of Jobless Decreasing

A further slight increase in employment in wholesale and retail trade in Massachusetts is reported by the State Department of Labor and Industries.

The report is based on 2051 returns, representing 4787 trade outlets. The number of persons employed in all the trade establishments reported for was 78,828 in May as compared with 78,219 in April, a new increase of 609 employes.

Corbett Sentence Put Off for Week

New Yokr, June 19 (AP)—The sentencing of James M. Corbett of Boston for assault on James Quinn, an aviator, formerly employed by Corbett, was postponed today in Bronx court for two weeks. Judge Barrett said he needed more time to study the testimony.

Edward Kline, 27, one of three co-defendants who pleaded guilty to second degree assault, was placed on probation for two years.

Honorary Degree to Be Given Paderewski

Warsaw, Poland, June 19 (AP)—University of Warsaw was decided to confer an honorary doctor's degree on Ignace Paderewski, noted pianist, and the city council will name a park in the suburb Praga after him.

The honors will be accorded when he arrives to unveil a statue of President Woodrow Wilson on July 4.

District Attorneys to Meet Warner

Attyorney-General Joseph E. Warner will hold his quarterly conference tomorrow at the State House with the various district attorneys of the state.

U. S. Court Starts June 23

Judge James M. Morton, Jr., announced today that the federal court term will begin June 23. Judge James A. Lowell will preside.

Dry Agents Raid Vinegar Plant

Sherborn, June 19—Federal prohibition agents swooped down upon the "vinegar" plant, P. McCarthy & Son, here today, and seized 13,000 gallons of hard cider in store.

The seizure followed the purchasing of a large quantity of the cider by the agents, who placed the owner of the firm and a worker in the place under arrest. They will be arraigned Monday on a charge of violation of the national prohibition law in Federal court.

TWO DASHING NEW

Ford Convertible Cars

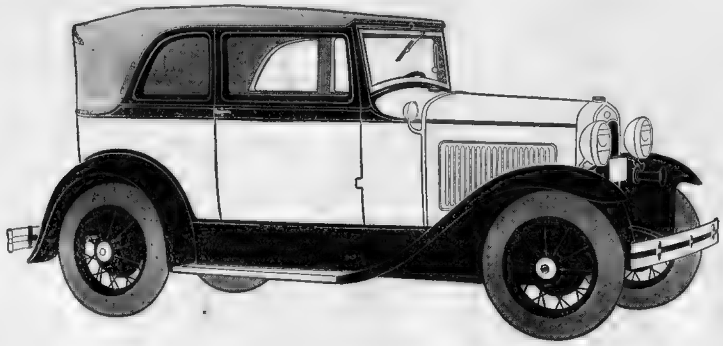
IN THE past few months, the Ford Motor Company has introduced three new five-passenger bodies—the Town Sedan, De Luxe Sedan and Standard Sedan. To this distinguished group are now added the Convertible Sedan and Cabriolet.

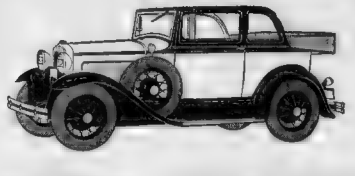
These latest Ford bodies are of particular importance at this season not only because of their distinctive style and beauty, but because of the convertible feature. Each is really two cars in one.

On bright, clear days and moonlit nights, you may enjoy the exhilarating dash and freedom of an open car. When skies are overcast, or winter comes, the substantial attractive top gives you the snug comfort and protection of a closed car. The change is made quickly and easily.

See these new Ford cars at the showrooms of Ford dealers and make special note of their careful finish, rich upholstery and beautiful colors. You will take pride in their striking appearance and their satisfactory performance over many thousands of miles.

THE NEW FORD CONVERTIBLE SEDAN



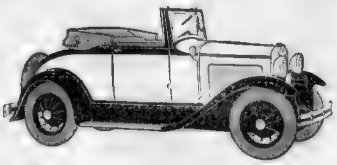


AN ENTIRELY new Ford body of impressive grace and style. Great care has been taken to make the top sturdy and substantial. Only four clamps are needed to hold it securely in place—two at the windshield frame and one on each of the rear-quarter side frames. Snaps fasten the non-shrinkable, fast-color top material to the sides. The solid frame for window and door supports is a distinctive feature. Seat cushions and backs are genuine leather, with arm rests for rear seat passengers. Driver's seat is adjustable. Side fender-well for spare tire is standard equipment. There is a choice of de luxe body colors. Most exposed bright metal parts are made of Rustless Steel. The slanting windshield is made of Triplex safety polished plate glass.

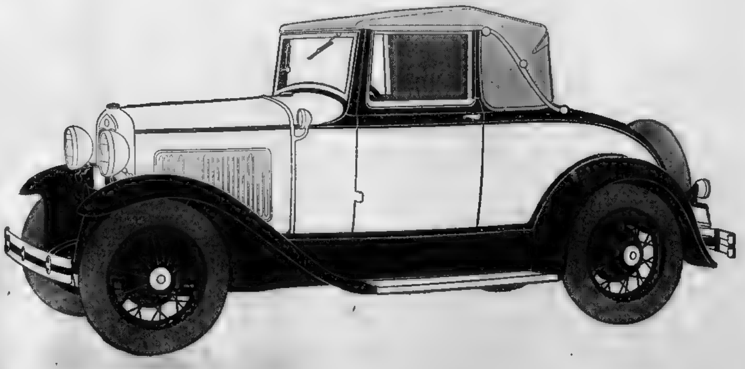
$640

F. O. B. Detroit, plus freight and delivery. Bumpers and spare tire extra.

(Safety glass is optional in all doors and windows at small additional cost.)



THE NEW FORD CABRIOLET



SMART STYLE and utility are combined in the beautiful new Ford Cabriolet with the slanting windshield and sloping top. It is really two cars in one—so easily can you change it from a roadster to a coupe. The enduring body finish is offered in a variety of rich, attractive colors. Radiator shell, headlamps and other exposed bright metal parts are made of Rustless Steel. Upholstery of driver's seat is available in either a fine quality Bedford Cord or genuine crushed grain leather. Seat is adjustable. The slanting windshield is made of Triplex safety polished plate glass. Attractive top material is fast color, non-shrinking, with a sliding seam fastener for the wide, rear window. Wide, comfortable rumble seat is standard equipment on the new Ford Cabriolet.

$595

F.O.B. Detroit, plus freight and delivery. Bumpers and spare tire extra.

(Safety glass is optional in all doors and windows at small additional cost.)

GREATER BOSTON NEWS

BOSTON EVENING AMERICAN

BOSTON, FRIDAY, JUNE 19, 1931

SECOND SECTION

THIS IS LIFE

LABOR AND MACHINES; MUSICIANS FACING A GRAVE PROBLEM

By ROBERT E. ROGERS

(The opinions expressed in this column are those of Mr. Rogers and are not an editorial expression by the Evening American.)

I HAVE RECEIVED from Mr. Thomas H. Finigan, past president of Local 9 of the American Federation of Musicians, the following letter, which he requests me to publish:

ROBERT E. ROGERS

"A recent decision rendered by a well-known theatrical producer, denying Bostonians the privilege of reviewing his latest musical production because of the restrictions exacted by the Boston Musicians' Union, has at least given several local writers an opportunity of exercising their emotional and imaginative forces.

"As it is much easier to write intelligently on a subject when facts are in evidence, the Musicians' Union graciously offer needed assistance in order that the public may, in turn, understand the true situation.

"According to a 'Specification' in the existing agreement between the theater managers and the Musicians' Union, at least 60 per cent of all orchestras playing musical shows in this city are required to be members of the local affiliated with the American Federation of Musicians. The managers accepted this law three years ago, and only last year agreed to continue the operation of the same law for the following three years. Incidentally, the remaining 40 per cent of the orchestra may be recruited from other parts of the entire country. ***Surely a just and equitable law*** **purposely constructed in a flexible manner to cover all exigencies.**

"Professional musicians are no different in their desires than the doctor or lawyer whose practice is protected by even stronger 'governmental protection' laws. Musicians should not be expected to travel from coast to coast in order to acquire a livelihood. Home life is enjoyed by them in no lesser degree than other individuals, including 'short-sighted critics.'

"The Boston local of the American Federation of Musicians is striving to give its members employment protection they so richly deserve at less expense to their employer as the producer or manager may engage local talent fully as capable of performance at a more reasonable rate."

Omitting such passages as were "writ sarcastick," it will be seen that the point Mr. Finigan makes is simply a legal point. No one doubts that the agreement exists and that the Boston local is within its legal rights in attempting to hold Mr. Ziegfeld to it. I had nothing to say about that. But the main question the letter above does not touch upon—the question of expediency.

As a perfect outsider, with no axe to grind, I suggested that the musicians' organizations of America had brought upon themselves the enormous spread of mechanical or robot music, of which they complain so bitterly, by steadily stiffening their requirements about money, hours and conditions of work to the point where the employment of musicians became neither profitable nor convenient. The result is that the musician has nearly vanished from our theater and the machine has taken his place.

* * *

The Problem of the Machine

The same general question may well be raised about all organized labor. How far is the present "technological unemployment"—not this present depression, but the steadily increasing unemployment due to machinery—the result of conditions laid down by labor?

My impression is that history tells us that human labor has always been the most satisfactory because the most intelligent; that so long as human labor is plentiful and reasonable in price, it will be employed; but that so soon as it becomes too dear or too difficult to obtain or too exigent in its demands, it will be replaced by machinery.

The distinction between the just demands of organized labor and the unduly restrictive and therefore unjust demands is not an easy one to define. But once the line of distinction has been passed, the employer, however much he may prefer to employ the intelligent human being, will bend heaven and earth to invent machines which will displace those human beings whose demands he feels have become too difficult to meet.

American labor was confronted by immigration and successfully beat that threat. The virtual exclusion of foreign labor shows the enormous power of our workers' organizations. But when it comes to machines, labor is up against something it can't beat. A hundred years ago labor tried to beat the machine and failed. If history means anything, it will fail again.

The Musicians' Union has been in the past able to enforce its demands, largely because of the sympathetic assistance of the other organizations of theatrical workers. But every type of theatrical worker is suffering today. Road shows grow fewer and fewer. Stock companies are almost non-existent. In spite of the success of Equity, New York is full of actors out of work. And only last week it was announced that in New York the organizations of theatrical workers have voluntarily taken large cuts in wages, in order to keep the theaters open at all.

That is why it occurred to me that it was a bad time for the unions to stand upon the letter of a law made in more prosperous days. As machines tend more and more to replace men, it seems to me unescapable that many of the traditional policies of our American unions will have to be modified to meet these new conditions.

* * *

Labor Must Save Itself

The reference in the letter above to the fact that the doctor and lawyer are protected in their own localities is perfect correct, and yet it tells only half the truth. The fact remains that professional work, the kind of work done by the doctor, lawyer, engineer, teacher, etc., can't be done by a machine. The work of even the skilled laborer can be done by machines—is everywhere more and more being done by machines. Musical machines, for instance, are not yet perfected, but they are well on their way to perfection. And a machine has no union rules to control the employer. No, the analogy of the doctor or lawyer doesn't get us very far.

Down in Texas the brotherhoods have decided to stagger their hours so as to give employment to numbers of their own unemployed. It will mean lower wages for a few but living employment for all. This is statesmanship in labor. But where labor insists that only the employer share the depression, the result has been rising unemployment.

Labor in America has enjoyed in the past a power of control such as labor in no other country has known. That power carries with it the responsibility of helping care for its own people. The sooner the lesson of the Texas brotherhoods and the New York theatrical employes is taken to heart, the sooner labor itself will be helping in our business rehabilitation. And specifically, if the musicians wish to beat the machines, it looks as if they will have to modify those policies which have helped create their unemployment.

Ely, Curley Absent From Sojourners' Session

MORE THAN 700 DELEGATES AT CONVENTION

Banquet Tonight to Be Feature; Military Masonic Order to Elect Tomorrow

More than 700 delegates and guests were present at the official opening of the 11th annual convention of the National Sojourners, military Masonic organization, at the Statler Hotel today.

Governor Ely and Mayor Curley, who were to have appeared personally at the opening, sent their greetings to the convention by letter. Governor Ely was obliged to cancel his appearance and also a luncheon he was to have given to the national officers and the committee of 33 on account of the death of his mother several days ago.

The meeting today, which followed two days of preparatory events, brought together delegates from chapters throughout the country and isolated chapters from Honolulu, Haiti, Panama and Guantanamo Bay, Cuba.

Business sessions were held this morning simultaneously with a bridge tea for wives and daughters of attending officers in another part of the hotel.

At 1 o'clock many of the delegates made a historical tour of the city and of Lexington and Concord. This afternoon the annual meeting of the "Heroes of '76," side order of the Sojourners, will be held in Faneuil Hall. At 7 tonight the annual banquet and bill be given. Speakers at the banquet will include Mayor Curley, Admiral Robert E. Coontz, retired, national president of the Sojourners; Capt. G. F Unmacht, secretary of the Sojourners; Gen. Frank T. Hines and Capt R. T. O'Neill, national commander of the American Legion.

Tomorrow election of officers and the choice of a place for next year's convention will take place.

PROMINENT SOJOURNERS NOW SOJOURN IN BOSTON

ENJOYING HER BOSTON VISIT

Mrs. George A. James of Cincinnati, who accompanied her husband to the Sojourners convention, and who declared she was having a delightful time.

ADMIRAL COONTZ — CAPTAIN UNMACHT

THEY PRESIDE AT CONVENTION'S SESSIONS

Admiral Robert C. Coontz, national president of The Sojourners, military Masonic order, and Capt. George Unmacht, national secretary, will deliver addresses at the banquet tonight.

LEFT TURN FOR BRIDAL PARTY

For the first time since the new traffic lights were installed in Boston, a left-hand turn was permitted from Tremont st. into Park st. today to allow a bridal party to reach the Union Club in Park st. for a wedding breakfast.

The bride and groom thus honored were Mr. and Mrs. Gregory Stone, who were married in St. Paul's church by Rev. Sherrard Billings of Groton School, an uncle of the bride.

The groom, who is a son of Mrs Helen J. Stone of Boston, was graduated from Harvard yesterday.

The bride is a daughter of Mr and Mrs. Arthur Billings of Hingham. She was graduated from Milton Academy and was of the class of 1930 of Smith College.

Miss Alice Doosen was maid of honor. The bride's attendants were Misses Eleanor Lane, Mary Wright, Nancy Dabney and Linda Doosen.

Mr. Stone is the seventh man to bear the same name. His ancestors were among the early settlers of Cambridge. He prepared for Harvard at Lycee Janson de Sailly, Paris, and Stone school.

Brain Operation to Save Simonds' Life

Following a delicate brain operation made in an effort to save his life, Daniel Simonds, 26, former Harvard football player, and son of a wealthy Boston family, is in a critical condition in Peter Bent Brigham Hospital today.

Simonds sustained a fractured skull when an automobile crashed into a pole in Brookline Saturday. The driver, Edward R. Nash, Jr., of Brookline, will face a drunkenness charge in Brookline court tomorrow.

BANDITS FLEE A TONIC BOTTLE

Three armed holdup men were put to rout by a well-aimed bottle of tonic when they started to rob the store of Samuel Finkelstein at 82 Highland ave., Somerville, last night.

Finkelstein said he was alone when the gunmen entered. One covered him with a gun and another began to rifle the cash register. The proprietor dropped behind the counter, seized a bottle of tonic and rushed at the bandits. They fled and Finkelstein hurled the bottle, striking one man on the head, he says. The trio escaped in an auto driven by a fourth man, according to Finkelstein.

SHOE FIRMS IN COMPROMISE

Brockton shoe manufacturers won a compromise reduction in the pice of help today in a decision of the State board of conciliation and arbitration at the State House.

They had asked a 10 per cent reduction.

No change in daily wages were recommended by the board, but an average of 7 per cent was suggested for certain piece work.

The vamping departments in the 18 factories involved were left untouched.

Chairman Edward Fisher said the decision was reached after an investigation that cost the State $10,000.

Firemen Don Masks for Rubbish Blaze

Thick smoke from burning rubbish caused firemen to wear gas masks in battling a blaze which caused damage of $2500 in the basement of the five-story stone building at 99 Bedford st. early today.

The fire started in a rubbish heap and filled the entire building with smoke. Stock of the Bigelow-Sanford Carpet Co., Inc., on the second floor was damaged.

FIGHTS OFF THREE GUNMEN

Samuel Finkelstein in front of his store, 82 Highland ave., Somerville, where he put to flight three young armed holdup men by hurling a bottle of tonic at them and hitting one on the head.

CRABTREE CASE IS PUT OVER

Mrs. Ida M. Blankenberg, one time claimant to the estate of Lotta Crabtree, wealthy actress, today was granted a continuance until June 26 in her appeal of a six months' sentence for perjury.

Mrs. Blankenberg, who is at liberty on $1000 bail, was represented by Atty. John J. Cummings, who told Judge James M. Morton, Jr., that additional time would permit him to present evidence vindicating Mrs. Blankenberg.

The perjury charge arose during Mrs. Blankenberg's fight for the fortune of the dead actress, whom Mrs. Blankenberg claimed as her mother.

TROLLEY TIEUP DELAYS CROWD

Commuters coming to Boston early today along the Blue Hill ave line of the Boston Elevated Railway were delayed for about 10 minutes when a car with a trailer attached was disabled at the corner of Blue Hill ave and Morton st.

Trolley cars were lined up about two blocks beyond Morton st. before the trouble was repaired.

DOCTOR CALLED IN PARENTAGE WILL CASE

Autopsy on Mrs. McManus Did Not Show Usual Signs of Motherhood, He Says

If Mrs. Ellen McManus of C st., South Boston, ever bore any children, none of the usual signs were present when he performed an autopsy on her body last January, Dr. Henry F. Howe of City Hospital [illegible] today in Suffolk [illegible]

Dr. Howe [illegible] in the fight [illegible] of Staten Island, N. Y., John A. McManus of Medford and G[illegible] J. McManus to be listed as next of kin, and heirs of Mrs. McManus, who stated in her will that she had no children.

In their petition, [illegible] sons and dau[illegible] the [illegible] McManus [illegible]

Dr. Howe, under cross-examination by Senator Joseph Finnegan, counsel for the two McManus brothers and Mrs. Somers, denied he had been paid for performing the autopsy, and declared he had no expectation of payment.

The doctro said he could not recall who directed him to conduct an autopsy [illegible] his brot[illegible] were brought up by Mrs McManus as her children.

When he married, he said, Mrs. McManus presented him with a dining room set and later gave him an automobile and aided him in purchasing a home.

Mrs. Somers testified she was married from the McManus home and Mrs. McManus made her a present of $250.

A letter from Mrs. McManus to Mrs. Somers [illegible] introduced [illegible] being identified as written by Mrs. McManus.

WIDOW IS GIVEN $5000 INCOME

The will of Walter C. Blodgett, senior member of the firm of W. C. Blodgett Co., printers, [illegible] st., Roxbury, allowed by Judge Arthur W. Dolan in the Suffolk probate court today, besides providing for an annual income of $5000 for the widow, allows for bequests to several institutions and individuals.

All of the property is left to Linus C. Coggan of Hingham and the Old Colony Trust Co. as trustees. They are directed to pay the income of the property to Mrs. Mary J. Blodgett, the widow, during her life, and if at any time the income shall fall below $5000 per year, enough of the property in their hands is to be sold to provide that the income to the widow shall not fall below that amount.

Trust Funds of $10,000 each are provided for the benefit of a niece, Florence M. Jordan, Mrs. May Blodgett, wife of Fred S. Blodgett of St. Paul, Minn., and Clifford L. Jordan, a nephew. They are to be paid the income during their lives.

Other bequests include $3000 to Emma F. McMahon of Roxbury, and $2000 to Susan T. Tirrell, also of Roxbury, who were in the employ of Blodgett; the Home for Aged Couples of Boston, [illegible]; Grand Masonic Lodge of Boston, A. F. & A. M., $5000 for the Masonic Home at Charlton; St. Luke's Hospital for Convalescents, Roxbury, $5000; the Rev. William Dacey, pastor of St. Francis de Sales Church, Roxbury, $2000 for the use of the St. Vincent de Paul Society of the parish; St. Mary's Infant Asylum, Roxbury, $3000; Colby School for Girls, New London, N. H., $5000, to be used for scholarships or other purposes; Roxbury Home for Aged Women, $2000; Rev. John H. Harrigan of Dorchester, $2000.

DAILY TRUE STORY

THE CONSPIRATORS

BETTY FOUND IT SWEET TO LIE IN HIS ARMS

LIEUTENANT FRANKLIN CUTTER flattened himself a little closer to the ground. There wasn't any feeling of fear. It was just according to the book. The grizzled old French sergeant who had been on instruction duty back in the States had said just how it would be.

The citation they read later, when a staff officer from division headquarters, resplendent in shiny boots and knife-creased uniform, pinned a bit of ribbon on his chest, told of how Lieut. Franklin Cutter had gone on, how the machine gun nest that held up the advance had been wiped out, of how Lieut. Franklin Cutter had, "though wounded, carried on to his final objective, so inspiring his men that they held to their position."

It's a long way from Dunsur-Meuse to Ardsley-in-the-Pines, where, as the real estate man had said, one might "pay like rent" until the roof for which one paid finally became one's own.

It's a long time from July, 1918, to June, 1931.

Yet Lieut. Franklin Cutter found himself standing in front of a framed bit of parchment, reading—"though wounded, carried on to its final objective"——

He clenched his hands and looked at the crumpled figure in blue linen house-dress, forlornly sobbing, there in the big overstuffed chair.

"Oh"—came up from the crumpled one, in staccato phrasing—"I hate you, hate you, hate you, hate"——

He leaned toward the girl and put a hand on her shoulder.

"Betty"—he began.

The Last Straw

Betty's Sick of It All

"Don't Betty me! Don't stand there and try to patronize. I'm sick of it all. I'm worn out trying to make two dollars do the work of ten. I'm washed up with washing dishes, dodging the doorbell because the collectors keep on getting tougher. I'm—oh everything—I'm through!"

She stormed from the little "back sun parlor" from which, in the Spring and Fall, before and after full leaf time, the trees allowed a distant vista of the Hudson, and Cutter heard her stamp up the stairs to their room. Hot anger flooded his face. Roughly he picked up his hat and started toward the doorway. He paused to switch out the light, and his eyes ran again to that framed bit of parchment. He read, again:

". . . carried on to his final objective". . .

He turned to the desk where the budget book he and Betty had kept religiously in the five years of their marriage was carefully snapped with a rubber band, so that receipts marked "paid" might not slip out and become mislaid

He began thumbing through the pages.

He made quick totals. Then he, too, started for the stairs.

In their room he found Betty pacing back and forth. She gave one look at the pencil back of his ear, the bits of paper in his hand. Intuitively, she knew And again words burst from her in a torrent.

Not the Money

But Her Holding Out

"I expected you'd go looking in the book. I expected you'd find I hadn't paid the gas bill. I expected you'd find I hadn't paid for that last ton of coal. Well, I'll tell you some other things you didn't find. I'll tell you that the whole amount I've held out is $312.65, that's more than you can find items of shortage for."

"Betty, Betty, Betty"—he cut in on her harangue. "Betty, you listen to me. I don't care about the money. It's just the thought that you'd hold out on me. You don't have to do that. Just say what you wanted——"

"Oh, no?"—Her voice was deadly with sarcasm. "You let me have what I wanted? You don't care about the money? Oh, no? Well how about the thing I wanted most, ever since we were married? How about . . ."

Both of his hands went up in the air. Again she paused.

"The baby, Betty? You know we've talked that all over many times. It wouldn't be fair to have him, or her, until we got on our feet a little stronger. It would have been all right by now if it hadn't been for the slump. But with things picking up . . ."

Well, listen, Mr. Smarty, other people have babies and get along. I'm going to have my baby. That's where the money's gone. It's in a private account, and right now it's enough for the hospital and the doctor. I don't care whether or not you like it——"

But this time she had to stop. His kisses stopped such talk.

She heard him tell her that he'd been saving, too, from his allowance for lunches.

The two of them, looking over little woollen socks, tiny, hand embroidered dresses, vestes and the hundred and one things an expectant mother gets together for her first to be born, seemed to have the same idea. They strolled together to that back sun parlor and stood before the framed bit of parchment.

"There's nothing," said Franklin Cutter, "like having a real objective."

"That's what I ALWAYS thought," said Betty Cutter, giving his hand a sudden squeeze before she put her lips up to be kissed again.

(All names and characters in this story are fictitious.)

3 BOYS RESCUE WORKER BURIED IN CEMENT

DIVORCE JUDGE HITS SALESMEN AS HUSBANDS

Not the Ideal Mate, He Observes as He Grants Decrees to 22 Persons

Twenty-two uncontested divorces were granted today by Judge Colin Campbell in Middlesex Probate Court.

Among them was a decree given Mrs. Thelma V. Cahill of Belmont, freeing her from Frank L. Cahill, whom she charged with cruelty and desertion.

Her husband left her, Mrs. Cahill said, to go to New York to establish himself i business in 1925. Since that tome, she said, they have no tlived together, and Cahill's father drove her and her two children from his home, where they were living until the family made a contemplated move to New York.

"I have noticed, from a study of the cases that pass through this court, that salesmen do not make ideal husbands," Judge Campbell said in granting a decree to Mrs. Marie A. Buckley.

Mrs. Buckley declared that her husband, John F. Buckley of Arlington, left her in 1929 after seven years of marriage, during which he refused to work, drank constantly and frequently beat her.

"When I remonstrated against his treatment of me," he threatened to put a bullet through me," she said.

BUYING DRINK COSTS MAN JOB

A learning for a mite o' drink" cost Thomas S. Murphy, a blacksmith in the Newton city stables, $10 in cash last week and lost him his job today.

Thomas purchased a dollar's worth of liquor from Esther Castagino of River st., West Newton, and gave a $10 bill in payment. Esther in turn gave the money to Reginald Cavallo of Oak st., West Newton, for change. Reginald disappeared.

In Newton court both were charged with larceny. Esther was fined $100 on a liquor-sale charge and $25 on the larceny charge. Reginald was fined $25 for theft of the bill.

Today Street Commissioner George E. Stuart, whose attention was directed to the case by the court action, dismissed Murphy from the Newton city employ for buying liquor on city property.

'DUD' PUTS LAD IN BED

Edward Carey, 10, of Bolton st., South Boston, is through handling "dud" firecrackers. Last night he placed one of the "duds" in his mouth before several companions. The "dud" exploded and Edward lost two teeth, and voice and hearing temporarily. Here's Edward and his pet pup "Teddy." The pup can't understand why his little master doesn't talk to him. (Staff photo.)

Traffic Held Up as Stray Dog Parks Under Trolley

It may have been the heat or just plain childishness.

At any rate, an unidentified poodle scampered under a street car today at Walnut ave. and Rockland st., Roxbury, and tied up traffic.

It was shady under the car, but would have been perilous if Motorman John F. Sullivan of Farquhar st., Roslindale, had started.

A passerby warned him of the dog and the fun began.

Sullivan poked, coaxed and threatened without success. A policeman fared no better.

After 15 minutes the canine took leave himself and traffic moved again.

MOTHER-IN-LAW OF ELY BURIED

Westfield, June 19—Mrs. Emily Dyson, mother-in-law of Governor Ely, was buried this afternoon after services at 2 o'clock in the home, 55 Franklin st.

The Rev. Clement C. Holmes, former pastor of Second Congregational Church, officiated, assisted by the Rev. Roy Gilmour Pavy, present pastor of the church.

Only the Governor and his family and other close friends and relatives attended. Burial was in Pine Hill cemetery.

Get a good piece of real estate, buy it wisely, pay for it, keep it, and later it will keep you. See the sound values listed today in the real estate columns of the Classified Ads.

VICTIM IS HURT IN COLLAPSE AT BELMONT

Floor Falls Under a Load of Material in a New Building

The life of James W. Mason, 50, of 972 Tremont st., South End, was saved by the alertness of three Belmont youths last night after he was buried under 50,000 pounds of cement following the collapse of a floor in a building under construction at 460 Common st., Belmont.

Leading in the rescue work was George Cassidy, 19, of 75 Horace rd., Belmont. He and two companions, Arthur Hatfield and Robert Wardell, were opposite the building when the floor collapsed, plunging Mason into the cellar

Cassidy and his companions turned in a fire alarm and then rushed to aid Mason. He was completely buried under the bags of cement, but the boys had uncovered him by the time police arrived.

Mason was removed to the Cambridge Hospital, where his name was placed on the danger list.

It is said that Mason was carrying 100 pound bags of cement into the building and he had placed the last of 500 bags when the floor collapsed.

Unidentified Man Found on Common

An unidentified elderly man was found in an unconscious condition on Boston Common early today, and taken to City Hospital. He is described as being 60 to 65 years old, 5 feet 7 inches tall, weighs 145 pounds, medium complexion, gray hair and smooth shaven.

Rites for Fireman

Funeral services will be held this afternoon for Frederick A. Dauncey, for the past 42 years a member of the Waltham fire department, who died at his home, 6 Mt. Pleasant st., Waltham, on Wednesday. He was 65 years old.

MISS AMERICA '24 TO WED

Miss Ruth Malcomson, who in 1924 was chosen "Miss America" with Lieut. Carl A. Schaubel, polo coach and instructor in cavalry at Pennsylvania Military College as they left City Hall in Pennsylvania after obtaining a marriage license. They will be married June 24. Their first meeting occurred last autumn when the lieutenant inadvertently hit a polo ball into the lap of Miss Malcomson who was a spectator.

210 CAUGHT IN SAFETY DRIVE

A drive to safeguard pedestrians on the Northern Artery in Cambridge resulted in the roundup today of 210 motorists, who will be summoned into court at Cambridge by Capt. Timothy F. Leahy of the East Cambridge police.

Capt. Leahy found drivers along the Northern Artery in many cases are guilty of speeding and fail to slow up to allow pedestrians to cross the highway. He declared persons are obliged to wait at intersecting streets for five and 10 minutes before they get an opportunity to cross.

The move today is in conjunction with the safety drive of the governor's highway safety committee.

State Tax Up

Tax Commissioner Henry F Long announced today that the State tax on national banks and the trust companies for 1931 will be 6.53 per cent. A year ago the rate was 6.40 per cent.

STUDENTS PAY $26,000,000 A YEAR TO N. E.

Dean Lord of B. U. After Survey Estimates How Profitable Colleges Are

Students who come from other states and abroad to New England institutions of learning spend approximately $26,000,000 here each year.

This estimate was announced by Dean Everett W. Lord of Boston University College of Business Administration through the New England Council today after a survey by the B. U. bureau of business research, which was suggested by Governor Roy A. Young of Boston Federal Reserve Bank.

The survey covered 82 preparatory schools and 48 colleges with 18,709 students from outside New England spending $20,976,661 in the academic year just closed.

Figures from 82 schools, or 90 per cent of the preparatory schools in the six states, showed that students from outside New England attending them spent $4,930,654.

"The grand total of approximately $26,000,000 would be increased by perhaps two or three million dollars by the addition of expenditures made by relatives of those students and by alumni returning to their schools during the year," the report stated.

GEM ROBBERY VICTIM FAILS TO GIVE CLUE

Bernard Lessner, New York jewelry salesman, who was robbed of $120,000 in gems at a Boston hotel by two men and a woman, could not identify the robbers at the Rogues Gallery. Inspector Stephen Flaherty and Sgt. Thomas McMurray questioned Lessner.

SMITH IS HELD FOR TRIAL ON JUNE 29

Court Refuses to Accept Plea; Quincy Boy's Suspicions Led to Accused Man's Arrest

Slumped in despair, Charles A. H. Smith, 35, formerly of Malden and later of Buffalo, N. Y., mumbled, "Guilty," today in Quincy court on a charge of intent to kill his wife.

Smith was captured last night in Quincy through an 18-year-old garage employe after he attempted to shoot his estranged wife and beat her with the pistol butt when the gun jammed.

She was taken from her home at 37 Wendell pk., Milton, to Milton Hospital suffering from a fractured skull.

After the attack Smith started for Plymouth to "do away with myself" but he stopped at a Quincy garage to change clothing.

It was there that James Mitchell noticed blood on Smith's hands and clothing and notified police.

The Smiths have been estranged several months, according to police.

The guilty plea today was [illegible] as not guilty and Smith was held for recorded hearing June 29.

He is a World War veteran, a lithographer, and suffered from gas and shell shock during the war.

Driver Fined $150

Albert Pucklavo, 28, of French st., Watertown, was fined $150 in the Newton District Court yesterday on a charge of driving while under the influence of liquor.

2 LYNN FIRES ARE PROBED

Two Lynn fires of mysterious origin were under investigation of the State fire marshal's office today.

The first was in a vacant cottage that was to be occupied by a Negro family today. It was recently sold them by a Cliftondale man, the sale arousing the ire of neighbors on River st. pl.

The blaze started in a closet, burned out the inside of the cottage and spread to another vacant one next door.

Nearly at the same time the 2½-story house of R. Wyer Green, Swampscott selectman, was found in flames in Eastern ave., East Lynn.

It was to have been sold yesterday by Green to a Lynn realtor who put the sale off until today because he said it's unlucky to make a deal on Thursday." The interior was destroyed.

Lynn Woman Dead at 101

Mrs. Mary Downey of Collins st. ter., Lynn, died at her home yesterday, aged 101.

FLASK CLUE IN GEM HOLDUP

An empty liquor bottle found today may solve the mystery of the estimated $120,000 jewel robbery of Bernard Lessner, New York salesman, in his room in a downtown hotel.

The bottle, bearing a fingerprint, was found together with a black leather bag by Inspector Thomas H. Towle in a room near that where the robbery occurred.

It was immediately sent to headquarters for photographing in the hope that the print might connect some criminal possessed with a record with the holdup.

Police were working on the theory the holdup men might have hired the room where the bottle was found, to await the arrival of Lessner, who had been calling on trade all day.

In the meantime Depty Supt. McDevitt submitted Lessner to a lengthy questioning as to the details of the holdup, checking and rechecking his statements. The police official was curious to know why Lessner, whose feet were not tied, did not kick over the telephone in his room after the robbers left, instead of waiting 15 minutes to free himself. He was also interested in the fact that after Lessner was handcuffed and gagged the handcuffs were fastened to a bathroom faucet by a piece of wire, a proceeding new to the police. Another subject of interest was why the salesman changed his estimate of the value of the stolen jewelry from $30,000 to $120,000.

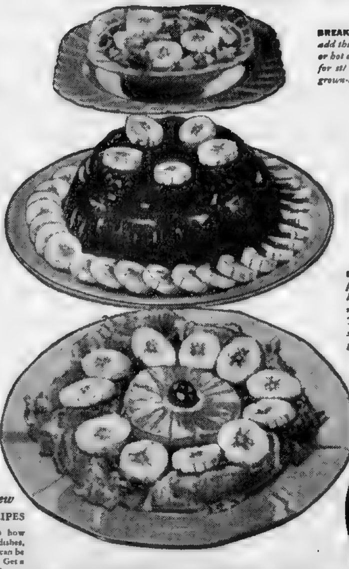
BANANAS DRESS UP YOUR "PLAIN JANE" MEALS!

"WHY in the world don't you cook something different?" unfairly complains the work-weary husband. But you're a tactful wife. You don't rise up in wrath and say, "What...on the money you give me for food!"

Now listen to this secret! You can change the most ordinary "plain Jane" foods into dishes your husband will think he's never met before...for literally NEXT TO NOTHING... Just put bananas on your grocery list. They've never been cheaper than they are right now. Snip, snip...a few slices here...a few slices there...on breakfast foods, custards, gelatin desserts and salads, and PRESTO!

The masterly male will say, "Atta girl...that's just what I meant by something different!"

IN JUST A MINUTE!



BREAKFAST CEREAL
LUNCHEON DESSERT
DINNER SALAD

BREAKFAST CEREAL. *Just a minute to add this nourishing appetite appeal to cold or hot cereal. And umt how the children go for it! To say nothing of how it pleases grown-up appetites.*

LUNCHEON DESSERT. *There's nothing simpler or better tasting than fruit gelatin, served with a guileful garnish of goodness...bananas. Quick? Yes!*

DINNER SALAD. *Only a slice of canned pineapple perched on a crinkled green lettuce leaf. That's no trouble. Then a ring of bananas sliced to circle the plate. The tart tang of the pineapple...the smooth sweetness of the banana...a grand combination.*

Peel a bite of health

ALICE WHITE AND BESSIE LOVE GET STAR PARTS

Helen Twelvetrees Will Be Featured Next in 'The Second Shot'

By HARRIET PARSONS

Copyright, 1931, by Universal Service

LOS ANGELES, June 19—Alice White and Bessie Love, two great picture personalities who've been in eclipse of late, are slated for breaks. Hand the palm to Producer Phil Goldstone of Tiffany. He did it.

Harriet Parsons

Alice and Bessie are two of Hollywood's biggest mysteries. Both girls have much to offer the talkies and everyone with half a brain cell knows it—yet both have been sent to Coventry by Hollywood producers. Why, after her spendid trouping in "Broadway Melody," Bessie Love should have hit the chutes, no one seems to know. And why Alice, who's proved herself one of the biggest box office bets of all time, should sit home twiddling her thumbs is another conundrum.

But, anyway—Bessie gets the lead in "Morals for Women" and Alice goes into "The Monster Creeps"—both Tiffany pictures.

Interesting cast assembled for "Morals for Women"—Edmund Breese, Lina Basquette, Natalie Moorhead, Frances Dade, Virginia Lee Corbin. Gene Lewis directs.

Sidney Toler Gets Prize Comedy Role

THAT SWELL melodrama, "Her Man," did such a lot for Helen Twelvetrees that RKO-Pathe have been searching ever since for a follow up vehicle to match it. Producer Charles Rogers thinks he's found just the thing in "The Second Shot," an original story by Garrett Fort. Fort will do the continuity and dialogue for his yarn, which is set as one of the four forthcoming Twelvetree productions. They say "The Second Shot" has as much punch and red-blooded drama as "Her Man." How about Ricardo Cortez opposite Twelvetrees? He made a great Johnnie for her Frankie. (Note to producers: Suggestions made free of charge. Write in your problems to old Aunt Hattie but don't forget to enclose stamps.)

* * *

ONE OF THE ace comedy roles of the season, that of "Mulligan," the cop, in "Strictly Dishonorable," fails to Sidney Toler. Sidney, as "Cool Kelly," in the stage production of "It's a Wise Child," glorified the ice man. I'm still laughing at his riotous characterization. He should be a unique addition to the talkies. George Meeker, blond lad who was one-fourth of the title role in "Four Sons," will play the part of the puritanical Henry which he created in the original stage production of "Strictly Dishonorable."

* * *

HEARD AND overheard about town: Irene Rich on her way back to Hollywood [illegible] daughter Frances' graduation [illegible] Smith. [illegible] Irene has that diploma [illegible] packed in cotton wool. She would [illegible] cost her $10,000 [illegible] amount she sacrificed by giving up an important role in order to make the trip East. Her first part after the academic jaunt will be "Wicked," with Elissa Landi at Fox. Comedy-wise Mack Sennett kidnaping two clever writers to do the first Moran and Mack story. Harold Lloyd is lending him Clyde Bruckman and John Grey who helped put the pep in the recent Lloyd successes.

Irene Rich

* * *

NEATEST PIECE of casting of the week: Metro-Goldwyn-Mayer puts Dorothy Jordan into the [illegible] in "Boarding School." Dorothy ought to be a natural [illegible] girl part. She has youth and a quality of sweetness which most of our [illegible] gun toting ingenue [illegible]. But [illegible] backbone [illegible]. Miss [illegible] proved [illegible] Paris [illegible] drawing [illegible].

Dorothy Jordan

* * *

SNAPSHOT: Of Hollywood doings, at random: RICHARD BENNETT receiving an interviewer in bright yellow lounging pajamas and Japanese sandals. SUE CAROL so sunburned nobody recognized her, lunching at the Embassy. SUE looked snappy in a blue sport dress and white blouse trimmed with diagonal stripes of red and blue. MRS. JACK WARNER too excited over her coming trip abroad to eat her luncheon. WARNERS won't be able to open any theaters while the JACK SENIORS are away since JACK JUNIOR, official family master of ceremonies, goes along. ANNA MAY WONG and BUDDY ROGERS among the guests of honor at the Wampas gathering. JANET GAYNOR and MARIAN NIXON lunching at Eddie Brandstatter's Montmartre. JETTA GOUDAL and MR. AND MRS. LIONEL BARRYMORE at the Brown Derby. HARRY SKEPNER, the genial Hollywood pharmacist, dispensing bromo seltzers for Hollywood headaches at his Vine St. medicine emporium. MRS. JOE E. BROWN showing her mother-in-law the sights of Hollywood. That's all today.

Gala Program at Fine Arts

The Fine Arts theater announces a complete tie-up of what its name implies—drama, music and painting. It will present in addition to the prize winning film "The Village of Sin"; on Sunday afternoon, a musical program rendered by Einar Hansen, the famous violinist who was brought here to join the Boston Symphony by Dr. Koussevitzky. He will be assisted by Stanley Benson and Madame Shari de Lys.

In addition, during the entire week, there will be an exhibition of the paintings of Ernst de Nagy, noted Hungarian artist.

ON KEITH'S SCREEN TODAY

Kay Francis and Ricardo Cortez as they appear in a scene from "Transgression" feature film at RKO Keith's today

Jones Films on Two Screens

The much heralded Bobby Jones series of 12 one-reel pictures on "How I Play Golf" starts at the Washington St. Olympia and Uptown today. The world's greatest golfer explains in these pictures how he plays golf, how he stands, swings, grips the clubs, how he uses the niblick, the putter, the irons and the other clubs—the mastery of the game that has won for him 13 major championships and the only grand slam the game has known.

"How I Play Golf" will give to hundreds of thousands the chance to see how Bobby Jones plays, to study his method in detail and to hear him explain and illustrate them. They are almost as good as private instructions from Bobby himself on the game of golf. Golfers following this series of pictures attentively will be able to cut their handicaps quite easily by following out what they learn.

The Bobby Jones reel will be shown at the Olympia on the following schedule: A. M., 11 05, p. m. 1 10, 3 15, 5 25, 7 30, 9 40. And at the Fenway P. M., 2 55, 5 10, 7 20, 9 35.

Gaxton Comes to Boston

William Gaxton, the stage and screen star featured in Leon Errol's laugh skit "Partners," at the RKO Keith Boston tomorrow, may be the only actor ever given a free trip around the world so that he could keep another man cheered up. Robert L. Hague, an official of the Standard Oil Corp., actually took Gaxton on a world girdling journey for this reason. He first met the actor at the Lambs Club in New York city where Gaxton was appearing in an impromptu entertainment. They became friends and Hague was so impressed with the actor's inherent optimism and personality that he offered to pay Gaxton's expenses for a trip around the world if the actor would accompany him and keep him in a good humor.

William Gaxton

Pops Tonight

Arthur Fiedler announces the following program for the Pop concert at Symphony Hall tonight:

Marche M[illegible]	Schubert
The Marriage of Figaro, Overture	Mozart
Largo from the New World Symphony	Dvorak

Peer Gynt, Suite	Grieg
"Du und Du" Waltz from "Die Fledermaus"	Strauss
Spoon River, American Folk Dance	Grainger
"Panaderos," Spanish Dance	Glazounov

Another Nantasket Excursion on Sunday

Manager Frederic L. Lane of the Nantasket Beach Steamboat Co. announced today another special half-fare rate to Nantasket Beach for next Sunday, with hourly service in both directions. Steamers leave Boston every hour beginning with 10.15 a. m. and leave Nantasket Beach beginning with 11:45 a. m. The last steamer leaves Nantasket Beach for Boston at 9 45 p. m.

"Daddy Long Legs," Met Feature, Has Wistful Miss Gaynor as Star

By HARLEIGH SCHULTZ

For the Gaynor and Baxter fans, "Daddy Long Legs" is a sweetheart of a picture. For that vast throng who thrill to the throbs of a Cinderella tale, the film is a knockout. For the Metropolitan Theater's box office, it should be a "click"—the click of the clinking shekels of the crowding patrons. For young and old, no matter what their likes and dislikes may be as to theme and treatment, the movie should be a pleasure to behold, and a wonderful chance to breathe a deep sigh of relief at a change from the long run of cinematic sameness out of Hollywood. The reason is that "Daddy Long Legs," well done from about every angle, heaves in sight as a welcome sign that things are on the up-and-up, that the studios are seeing the light, and that at last production generally will swing to the making of films that are different from the bulk that have cluttered the talkie screen for so long a time.

Warner Baxter

Standing on its own props, "Daddy Long Legs" has many things to its credit. Excellently directed, it has pathos and punch, humor and tears, children and romance.

Nan Halperin Stars in Stage Show

There is no need to rehearse the story of the orphanage, of the girl who gets her chance for life through the interest of a millionaire, and of the love that develops. But one must dwell upon the work of the children; they do better than a good many grown-up actors. They are probably the picture's best asset. They are all good, but one must pick on the oldest boy particularly. He bears the high-sounding name of Kendall McComas. Nothing feazes him. Not the "mike." Not the camera. His every line and every bit of business is splendidly done. Since Jackie Cooper leaped ahead, the McComas kid is the best on the horizon.

* * *

And the wee blonde fellow in the crib who gives the "razz" and cries "boloney," is another comer.

Her role fits Janet Gaynor to a "t," just the sugar-sweet, wistful type she can do well nigh perfectly. It is the best thing she has done for the sound sheet. Warner Baxter is entirely satisfactory in the hero role.

The Met also has a mighty good stage show. Nan Halperin pleases her audience immensely with a new line of patter, and her songs. She gets many laughs, and great applause. The "Little Revue" also has merit in the efforts of the Rio Brothers, who go over very big; the Mullens Sisters, and the Merriel Abbott girls.

TIDAL WAVE OF TALK

Listeners Hear Voices of World Figures

Radio Airing Opinions of Influential Men on Big Issues

Is America talking too much? Can it be that radio has made this a nation of garrulous gabbers? Perhaps yes and perhaps no, in any event, words of wisdom uttered by the truly great have been conveyed into family circles with a view to giving men and women a better insight as to what goes on in the wide world of affairs.

Calvin Coolidge, while in Marion, Ohio, this week, suggests that "words should not be permitted to supplant ideas." Just the same, talk of the right type is every bit as essential as silence. There is no better way to judge men and what they stand for than by the manner in which they employ language to construct ideas. With ideas that are fundamentally sound people may improve governmental and social conditions.

Of late many outstanding Americans have stepped up to microphones with messages totally unselfish. A type of talk that reveals the inner workings of many a great mind. In most cases talk serves to set thousands of other minds to work along given lines of constructive thought. For example, a subject such as reduction of our foreign debt, with attending comment. Men have conveyed its actual meaning to countless citizens by way of radio. When great men speak their minds, lesser men should listen, whether they approve or not. Self-expression is not necessarily a gift, no more so than radio itself. Both are the result of labor, thought and knowledge, perfected through development.

It would seem that the day of silent men has passed. The 20th century cry is "Speech! Speech!" Radio invites utterance. A sort of open forum in the interest of progress and improvement for mankind. Are you listening?

* * *

Political Propaganda?

Editors over the land are inclined to regard the remarks of President Hoover, uttered during his three speeches in two days by radio, as sort of opening guns, fired to informally inaugurate a campaign razzle-dazzle for 1932. Subsequent broadcasts and further remarks by prominent Republicans via radio will soon enlighten ear cuppers. Let it come. At least there is the promise of relief from the dust-dry political propaganda aired from Washington these last few months.

* * *

From a radio standpoint, it can be truthfully said that "All is not quiet along the Potomac."

* * *

That big motor car company that asks everyone to "ask the man who owns one" is responsible for big radio news. Indeed, the names of Geraldine Farrar, Anna Case, Marion Talley and John McCormack are involved. What bigger names are there than these when it comes to singing? NBC has the premiere listed for 10 o'clock on the night of June 29.

* * *

Welcome to a Young Veteran!

Hail to a young man and a radio old-timer. Arnold Johnson, remember him? He first gained prominence on the air waves with the original Majestic "Theater of the Air" when the Two Black Crows held sway. CBS has him spotted with a new orchestra from the Woodmansten Inn in New York. Now WNAC and WAAB will more than likely air it in Boston. Monday, Tuesday and Wednesday nights have been selected, the exact hour to be announced.

* * *

Song titles are being soft pedaled of late (just an observation), which is a peculiar new wrinkle. Here's what appears to be happening. Sponsors are opposed to plugging any given song or musical hit, consequently the melody finds itself being broadcast with no attending announcement. Wouldn't it be great to treat some of the other blurbs in that manner?

* * *

H. V. Kaltenborn, who edits news on the CBS network, likes to emphasize his utterances by pounding the table with his fists, or whatever it is he does. Word comes through that a resourceful announcer has placed a cushion under his right hand. Padded studios may be the next step. N. F. T.

On the Air

The American Derby, horse race which brings $50,000 to the winner, will be run at Washington Park, Ill., tomorrow, and WAAB will carry the broadcast. Pat Flanagan will describe the race, which has among its entries many horses that ran in the Kentucky Derby.

HENRY FORD, who has shunned the mike with great gusto in the past, speaks o'er WEEI at 9 tomorrow . . . Walter Damrosch, silent these many months, starts a concert series Sunday o'er WJZ . . . U. S. Atty. G. E. Q. Johnson, who obtained the indictment of Al Capone, will reveal some of the nefarious activities of gangland on the CBS Monday.

HOT AIR BRIEFS: Paul Tremaine to marry and Bert Lown to divorce . . . George Olsen to tour New England soon . . . Jimmie Gallagher now touring Maine . . . Ted Husing doing movie shorts of his Sport Slants . . . The Chicago radio show featured a $15 three-tube set . . . Adele Vasa mocking the depression by flaunting a Rolls . . . NBC's successor to the Boswell Sisters, Don Hall Rose trio, gets underway tomorrow on WJZ . . . Frank Gillis did well on the WAAB bouts last night . . . WBSO with the a. m. recordings yest'y had a background of hammerings offered by what was presumably a carpenter. He sure had rhythm, banging in time with the music . . . B'dcasters are slowly but surely eliminating mention of the names of songs heard on the air. Thereby cutting out free advertising for the tunes . . . Every orch. leader in the land is hoping to be summoned as maestro of the Waldorf Astoria when it opens in the fall. NBC is contracted to supply the orch. but its three leading leaders, Lopez, Whiteman and Vallee have other contracts. At the moment Wayne King and George Olsen are favored for the job.

Paul Whiteman will introduce his boys musically on his new time,

Personalities

In an effort to lose two or three chins, PAUL WHITEMAN is romping 'round the tennis courts . . MICKIE ALPERT and orch. will be coming out of the ether nightly soon . . . FAY TEMPLETON, comedienne, starts an NBC series July 27 . . . DENNIS KING hangs on to a mike when he b'dcasts, which doesn't please the engineers . . . GUY LOMBARDO'S boys are afraid to travel by plane . . . No more depression: DON CARNEY of CBS is sporting a $400 panama . . . TED HUSING had to postpone his Palace Theater engagement on account of previous announcerial duties on sports b'dcasts . . . Rep. RUTH BRYAN OWEN of Fla. tells CBS the day will come when radio speakers won't use manuscripts. Perhaps they won't speak at all . . . DOUGLAS GILBERT, Fortune Builders speaker, is going in for music writing . . . GRACE HAYES attributes her beauty (when asked) to eating three lbs. of spinach a day . . . DUKE ELLINGTON may switch from NBC to CBS . . . A Chicago radio station features THE MASKED REPORTER. Not the same as the Boston Evening American Reporter, as the former conducts a radio gossip column . . . LEE WILEY, soloist with LEO REISMAN, is related to WILL ROGERS. Both trace their ancestry to the same Cherokee Indian. —M. G. M.

WBZ at 10 tonight . . . March of Time, WNAC at 10 30 this eve. concludes until the fall . . . The Shriners Band of 180 pieces will entertain as guests of the Fox Fur Trappers on WEEI at 9 30 tonight. —M. G. M.

DEATH BOAT WITH GRUESOME BURDEN IS CARRIED INTACT INTO THE MORGUE

Thatcher Colt Decides From His Dress That the Murdered Man Was the Minister of Some Fashionable Congregation

"THE MURDER OF THE CHOIR SINGER"

[redacted] ANTHONY ABBOTT

What Has Happened So Far

A drifting rowboat containing the bodies of a minister and a young woman is found in the East River in New York. Both had been shot and the woman's throat cut. Police Commissioner Thatcher Colt arrives and begins his investigation.

Now Go On with the Story

THATCHER COLT turned and put his hand on my shoulder.

"Tony, that poor devil was the minister of some wealthy and fashionable Protestant-Episcopal congregation."

"You recognize him?"

"No—but the costume tells me his denomination; the expert tailoring reveals the rest. Moreover, I do not believe they were killed in this boat. Much more likely they were killed on shore, and then put in the boat. Also I do not believe the crime is more than three hours old, because I have touched the woman's hand and even exposed to the river winds, it is still faintly warm. Think of it, Tony—when you and I had dinner tonight, these two persons were still alive."

"Chief——"

"Wait, Tony!"

As he admonished me to silence, Thatcher Colt pointed downward with his free hand. Something was moving in the dark shadows in the forward part of the boat.

With my arm gripped around a wet piling, I leaned lower, peering into the dark recess forward in the little boat. What moving, living thing was it that crouched there, so close to the lifeless bodies? As if the creature had read my thoughts, it gave a low, fierce cry. At the same instant, its two pale, shimmering eyes flashed at me—eyes gleaming with the phosphor fires of the night hunter. Stowed away in this rowboat with its dead decumbent figures was a live cat.

THE CAT NETTED

It added to the horrible scene a touch of the fantastic, the outlandish. How had the animal got in the boat? To whom did it belong? To the killer? Or one of the victims? These questions whizzed through my head—but Thatcher Colt was wasting no time in speculation

"Harris!" he called to the patrolman, "have you a handnet?"

"I'll bring you one in a few minutes, chief."

"I can bag that cat, Mr. Commissioner," pleaded the patrolman, as he returned with the net.

"Go ahead! But don't let it escape."

Lying flat at the edge of the pier, Patrolman Harris thrust the net out toward the cat. With much squirming, backing and deploying, he managed at last to cover the cat with the snare. The captive snarled and clawed and struggled viciously within the corded toils as Harris pulled it slowly nearer to the edge of the boat.

Finally I leaned far over and pounced on it. I clasped the net tightly around the wriggling cat and raised it up, as Colt turned his pocket-lamp full on the wretched little creature.

"A strange witness!" muttered the commissioner. "I knew by its cry that it was no 100 per cent American—the sound resembled the cry of the jungle cat in India and Africa.

Our prisoner was writhing wildly in my hands, frightened by the glaring light from Colt's hand-lamp.

"Blood on your paws, Grimalkin!" exclaimed Commissioner Colt suddenly. "Not on your funny tuft of a tail, not on your graceful whiskers—but on your paws Tony, you have a material witness in your embrace!"

A WITNESS FOUND

And turning, he called up to Sergeant Carter

"Have you some place you can keep this cat?"

The wharf watchman shouted down that he had a pet rabbit cage in which we could confine the cat until we wanted him again. At a word from Colt, I gladly passed the cat, still in the net, to the watchman, who went offf with him in the direction of the Morgue, promising loudly to deliver him on demand.

Smoking his pipe, Colt remained on the ledge. He seemed reluctant to give orders; lingering there and watching the inert figures in the skiff, himself meanwhile as silent as they, as uncommunicative as a Trappist monk. Finally, and very softly, he spoke.

"Sergeant Carter'"

"Yes, sir!"

"There is a portable steam derrick working on the foundations of the new ward of Bellevue at Twenty-ninth and First ave."

"Yes, sir?"

Some slight and utterly respectful note of bewilderment tingled in the Sergeant's voice.

"Bring it—the steam derrick, sir?"

The Sergeant's voice [redacted] hoarse with astonishment at Colt's unexpected order.

"Hurry!" called the Commissioner. "Every second you hesitate is aid and comfort to the murderer."

"Yes, sir!" groaned Sergeant Carter, and we heard him stamping across the pier.

Colt chuckled

LETTING NOTHING ESCAPE

"You see, Tony," he murmured, "the solution of this case may finally rest upon the most trivial and absurd details. I want to proceed with caution. I don't want the bodies removed from the boat—too soon."

"Not even after——"

"Not even after the Medical Examiner comes. We may hold up the autopsy for a few hours. The boat may be just as important for clues as the bodies themselves."

"But, chief——"

"A little later, Tony pleaded Thatcher Colt. "I need the next few minutes to organize my badly scattered ideas."

As a matter of record, we remained silent on that narrow ledge. Colt with his pipe, and I with my cigarettes, for half an hour. But at last we heard, in the heat and stillness a clanking, rumbling sound; a chugging and puffing of steamy breath, growing louder with each moment. Like a juggernaut, the steam derrick was approaching, commandeered by Sergt. Carter, who, whatever he may think of his orders, always carries them out.

Now Colt gave brisk commands. He wanted the boat lifted out of the river and taken into the Morgue without disturbing the bodies.

It was a queer and difficult undertaking. The excavating crew shambled down and helped us as we swung and tied a cradle of chains under and around the rowboat.

For a moment the boat remained pendulous and swaying, as if about to capsize, but the horizontal posture of its two inanimate passengers remained secure. Though it seemed ages while the boat was suspended between water and pier, hardly a moment passed before it swung inward and then was lowered down to the cement pavement of the dock.

"Now what, Mr. Commissioner?" asked Sergt. Carter confidently.

Colt pointed down the pier to a dark, cavernous opening in the brick wall. It was like the entrance to a tunnel, just to the left of the archway through which we entered.

"Isn't that the underground passage leading into the morgue?" he asked. "Yes' Well, I want this boat carried, just as it is, through the tunnel and into the reception room."

"Okay, chief!" agreed Carter, calling upon the others to help in toting the skiff.

"And you and I, Tony," added the Commissioner, "will lead the way for them"

A moment's walk brought us to the mouth of this tunnel, which runs for one block under E. 29th st., from the river to First ave. Descending in an elevator, we came to the bottom of the tube, which I consider the most sinister and creepy spot in all New York

A STRANGE PROCESSION

The elevator rose again to receive the boat. Colt and I started off. Our footsteps resounded on the cement walk.

I was glad when at last we found ourselves in that chamber which is politely called the reception room.

The carriers staggered into the room bearing on their shoulders the dripping row-boat. At Colt's direction, the boat was set down in the middle of the bare, concrete floor, and the workmen scurried to prop boxes on either side to keep it even on its keel.

"More lights," called Colt

Promptly a dozen other lamps were turned on. In the brilliant illumination, the boat and its victims with their open, glassy eyes seemed like some garish exhibit in a Coney Island wax-works.

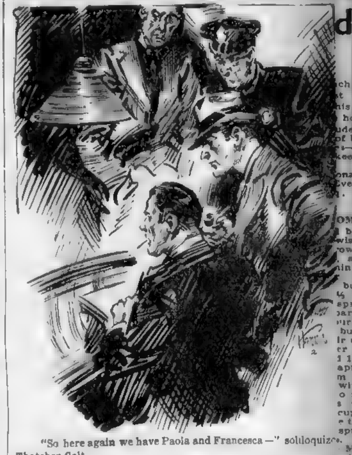
"Now, Carter," snapped Colt as he waved all the workmen out of the room, "you go up on the dock, telephone to Capt. Henry to send everybody up and wait—the men from the Homicide Squad, Dr. Multooler, and the others will be here soon."

Thus we were left alone, my chief and I, except for Patrolman Harris, who stood back and kept his eyes fixed solemnly in front of him.

"So here again we have Paola and Francesca," soliloquized Colt as he refilled his pipe. Having lighted it, he approached the edge of the boat.

Copyright, 1931 by Covici-Friede, Inc

(Is Colt's unusual precaution to keep the murder boat and its grisly burden undisturbed justified by events? Read tomorrow's absorbing instalment.)



"So here again we have Paola and Francesca—" soliloquized Thatcher Colt.

RUTH NICHOL TO HOP SUNDA

New York, June 19 (AP)—Da age to Ruth Nichols' plane landing at Floyd Bennett airp from Jersey City yesterday on first leg of her projected flight across the Atlantic will vent her leaving before Sunday.

Mechanics worked all night the plane, but it was said two da work was still ahead of them.

Miss Nichols said she hoped take off for Harbor Grace, N. Sunday morning.

M. I. T. Class of '96 Reunion on Ca

Sixty members of the class 1896 of M. I. T. are celebrating 35th anniversary in a reunion East Bay Lodge, Osterville. Cl members began to assemble yest day and will remain until Sun night. Julian E. Woodwell, N York engineer flew to the reun in his plane, which he placed the disposal of his classmates.

The class includes many pro nent figures, among them Morti C. Priest, business manager of Boston Evening American and B ton Sunday Advertiser; Eugene Hultman, Boston Police Comm sioner; Paul W. Litchfield, pr dent Goodyear Tire and Rub Co., and Dr. George K. Burg director U. S. Bureau of Standar

WHY I ENVY A MAN—HE HAS CAST-IRON NERVES

By **HELEN ROWLAND**

ONE OF the things that a woman envies a man is his perfect equanimity—his lovely cast-iron nerves!

* * *

Man may have been "made to mourn," but he has cheerfully dodged his destiny by turning over the job to woman.

* * *

HELEN ROWLAND.

Every woman bitterly envies a man his ability to turn over and go fast asleep in the middle of an exciting argument, and his magnificent faculty for falling right back into a blissful doze after a fire or a burglar scare.

* * *

Everything makes a woman "nervous!" NOTHING makes a man nervous!

* * *

He can calmly stand for half an hour on a street corner, reading the baseball bulletins, watching a gang of safe-movers at work, or swapping stories with a crony, without once skipping a pulse-beat at the thought that the soup is getting cold, the roast drying up in the oven and the cook probably having hysterics.

* * *

He can serenely stick a woman's letter in his pocket and neglect to answer it for a couple of weeks, without a quiver of conscience at the knowledge that she is running anxiously to the door six or seven times a day, looking for word from him.

* * *

He can break a date at the last moment, and then eat a hearty dinner in blissful serenity, without a tremor of remorse at the consciousness that he has spoiled a girl's whole evening.

* * *

He can promise to go to a party, and then, at the 11th hour, "call it off," with never a thought of the agonized hostess, who is torturing her brain and keeping the telephon wires hot in her maddened efforts to fill his place.

* * *

He can close his lips comfortably on his pipe or his cigar, and KEEP a secret to himself, even when he knows that his wife is aching and quivering with curiosity to hear it.

* * *

He can turn on his radio at midnight or sit for an hour practicing on his wailing saxophone without a twinge of guilt at the knowledge that he is driving the whole household to nervous prostration or suicide.

* * *

A MAN never lies awake all night wondering whether or not a girl loves him! Or whether or not he should have let her kiss him! Or whether or not she is "serious!" Or what he should wear to a party! Not HE!

* * *

A man never gets so excited over anything—love, a woman, an adventure, or even an accident, or a sudden shock—that he can't eat or sleep or enjoy a baseball game!

* * *

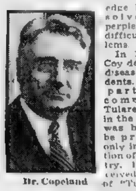
No wonder men make better motorcar drivers than women! They have such wonderful CAST-IRON NERVES! That's why women are such nervous wrecks!

(Copyright, 1931, for the Boston Evening American.)

Animals Aid in the War on Disease

By **DR. R. S. COPELAND**

MUCH valuable information has been contributed to mankind by the study of animal diseases. This method of obtaining knowledge has often solved many perplexing and difficult problems.



Dr. Copeland

In 1911, McCoy described a disease of rodents. It was particularly common in Tulare County in the West and was believed to be prevalent only in that section of the country. It thus received the name of "Tularemia" and the germ causing the disease was called bacterium tulareuse."

It was originally believed to be only a disease of animals, particularly of rodents, such as the wild rabbit and squirrel. Subsequently, it was noted that man often had this ailment.

The transmission of this disease occurs either by handling diseased animals or by the bite of certain insects which have previously fed on a diseased animal. So far as known, this disease is believed to be found only in the United States and Japan.

The attack comes on suddenly. A postule or pimple appears at the point of infection. This postule is painful and eventually forms an ulcer. Headache is usually present with chills, general body pains, vomiting and fever.

The fever may be very high and last for two or three weeks. Recovery is slow, but it always follows. In many cases, however, it may be months before the individual regains his former strength.

Anwers to Health Queries

C. R. Q.—What would you advise for a patient who, although examined and X-rayed for stomach trouble, will not follow the instructions which have been outlined for her case, and refuses to believe that her trouble is not due to some serious disease or ailment? She is nervous, irritable and troubled with chronic constipation.

A.—She should be treated for neurasthenia. Proper elimination should do much toward improving her general condition and outlook. Careful diet and exercise will help toward this end.

Lorry Sees Mary Lou Again

(Continued from Yesterday)

MARGARET LORRIMER continued her conversation with Mary Lou.

"But I'd like you to know, Mary Lou, that even before we knew the facts, even before everything was cleared up, I'd not only forgiven you, I'd been won over to your standard, and I was grateful."

Later she asked Mary Lou to come back to Westwood.

"Your room is waiting for you; it looks lonely," she said, "and all your things are there."

"But," said Mary Lou, "my job is over." She tried very hard to smile, but the red mouth quivered.

"Come as my guest," said Margaret briskly.

"Please," said Mary Lou, "not yet. I suppose sometime I can—and we can laugh about it all. But not yet."

Margaret did not urge her further. She had plans of her own and consulted secretly with Jenny about them. The upshot was that several days later Jenny invited Mary Lou to come "gadding" with her.

"I've some shopping to do," she announced, "and you can go to your darned old school and tell 'em why you've been absent."

"I'll tell them I'll come back Monday," said Mary Lou with spirit.

"If you like, and I can't persuade you to stay," remarked Jenny carelessly. "Then, as it's the grandest day I've ever seen, let's run out to Long Island, and perhaps we can look in at Oakdale and Larry can meet us in town for dinner. How's that for a program?"

It was a very marvelous day. Mary Lou looked out of the windows. Spring was dancing toward summer on feet shod with the soft green of her season, her arms full of early roses. The sun was high and brilliant, and it was warm, but warmth with a vitality in it.

Spring, thought Mary Lou, is a hard season, really, and a cruel one.

They started out for town and early in the afternoon were riding together, Jenny at her roadster's wheel, on the Long Island roads.

"Do you plan to live at the hotel?" asked Jenny.

"Not permanently. It's too expensive. I want to get a furnished room somewhere," replied Mary Lou, and shuddered a little. A furnished room sounded so dismal.

"What will you do with your car—and Konig?" Jenny went on.

"Are you crazy?" Mary Lou stared at her blankly.

"Aunt Margaret told me she'd given you the car. And of course Travers gave you the dog. And where will you keep that horse of yours? Not, I trust, in a furnished room, though some might seem suitable."

"But," said Mary Lou, "I couldn't take them anyhow; they don't really belong to me."

"Is that so? Well, I don't know how the car feels of the horse either, but they tell me Konig is a shadow of himself with missing you. You can't just accept things, accustom them to you, and then drop 'em again," said Jenny austerely.

She turned off into another road and, while Mary Lou was still pondering her last remark, stopped.

"Here we are," she said. "I heard there's going to be stunt flying today."

The Saturday crowds filled the flying field. Mary Lou got out of the car, a little bewildered. Jenney walked her briskly across the field, her keen eyes searching as she walked, and her gay tongue rattling on carelessly. Suddenly

"There's Travers!" she cried, and waved.

He was standing by a plane, his new plane, and talking with the mechanic. He had arrived home on the previous evening. Margaret had known, too, that he planned to be at the field today.

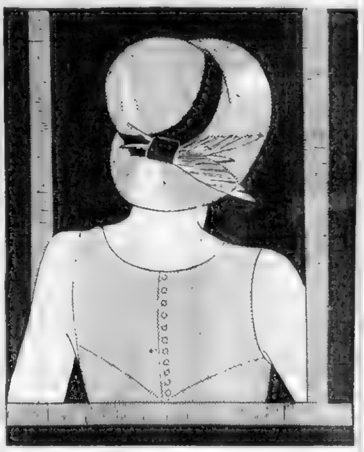
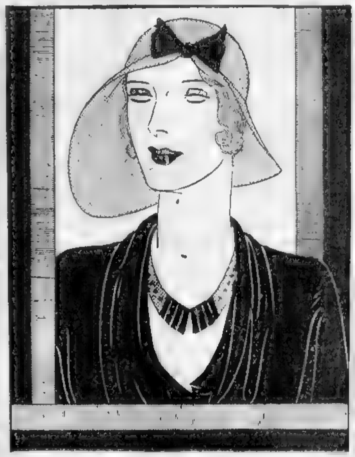
NEW PARIS HAT STYLES

Materials Disguised in Models

SKETCHED IN PARIS



Pictou is showing a number of glycerined felt hats for sports wear. Usually only one side of the felt is treated, and the result suggests shiny, thick oilcloth. Shown in the sketch is a glycerined felt in bright red, the treated side on top, the under brim in natural felt.



Pale pink shantung-straw, a new straw of silky texture finely woven to resemble shantung silk, makes this Summer model from Mme. Jose's collection. The sloping brim is folded back against the crown in front and caught up by a crisp little bow-knot of the same straw in black.

'Stay With Young Folks and You'll Stay Young'

By **WINIFRED BLACK**

"IF YOU want to stay young, stay with young people," quoted the man who really knows.

What rot! They're always telling you that, and it's the worst rubbish in the world.

Winifred Black

"Why, the other day, when the boat was pulling out of Honolulu, I saw a tired old man come aboard. He had two young fellows and a young girl in his wake, he looked old, and he looked tired and he looked sad, and he looked somehow, for all his company—alone.

"'Looks like old Bill Hendricks,' I said to myself. 'Looks an awful lot like Bill, but 20 years older, and Bill never looked as blue as that in his life.'

"But when I met the party at dinner, an hour later, I'll be switched if it wasn't Bill himself!

"I couldn't believe it, but it was.

"I've always seen Bill up and coming, full of life, and the hardest fighter I know.

"But this Bill, why a kid of 20 could have licked him.

"I wondered what was the matter with him. It didn't take me long to find out.

"The two girls with him were his nieces and the boy was his nephew. He'd had them down in Australia with him, and they could, every one of them, swim farther, and ride faster and walk farther, and eat more and sleep better than old Bill.

"They'd be up till three in the morning dancing, bound out at sunrise for a swim, race up and down the beach for half an hour, come in and eat a breakfast that would daunt a dozen old-fashioned, tired men, and then go for a horseback ride. That would keep them till five o'clock—cocktails from five till seven, dinner from eight to nine—another dance another swim and poor old Bill found himself nearly a has-been in a world of Here-We-Ares.

"He felt old, and through, and finished and done with.

"On the steamer he met some men of his own age, men of position, and power and reputation, and in a day old Bill came back.

"He was a Force again, a power to be reckoned with, and he just told the two young fellows and the niece to run away and play, and let a man attend to a man's business.

"If old Bill had stayed with those kids another month, he'd have been begging for admission to the old men's home and saying a prayer of gratitude for being allowed to get in.

"Stay with young people to keep young—rubbish! Stay with your own age, and you'll keep your own age with your own privileges and your own place in the world right where it ought to be."

And the man who really knows, struck a vigorous match and lit a vigorous pipe, and laughed into the face of a world-wide proverb.

I keep wondering if he happened to be right.

What do you think?

"Glycerine" Hat Model Novelty

By **PARIS BUREAU**

PARIS, June 18—Felt is again making its presence felt in the millinery world. Several milliners are again using various felts for their sports models. Felt is the ideal all-occasion material for knockabout hats, as most of us have discovered [illegible].

All sorts of novelties are being prepared, and next autumn there will be many new felts on the market. Already there are some new and novel felts to be had, and many women are buying the new felt hats to take with them for sports and travel wear. Of course interest in straw hats has not abated one jot, and every house is responsible for the sponsoring of one or more new straw weaves. Simplicity continues to be the motif of the [illegible] of the models shown. [illegible] party type of hat not [illegible] favored by the fashion-wise woman who knows that simplicity is the essence of smartness.

Patou is responsible for a new departure in the felt, the glycerined felt. He is using this for sports models. Usually only one side of the felt is treated, and the result suggests shiny thick oilcloth. Shown in the sketch is one of the new glycerined felts, this one in a bright red, the treated side on top, the under brim in natural felt. There is a wide band of black grosgrain ribbon knotted at the back [illegible] hold in position two semi-transparent quills of crystal, closely resembling glass. The wide brim turns up smartly off the face and down in back.

Pale pink shantung straw of silky texture woven to resemble shantung silk makes the summer model from Mme. Jose's new collection. The sloping brim is folded back against the crown in front and caught up by a crisp little bowknot of the same straw in black. The right side of the brim is wider and more sloping than the other and both sides narrow considerably in back.

Miss Fairfax Warns Her of Married Man

By **BEATRICE FAIRFAX**

DEAR MISS FAIRFAX

I have been going with a young man now for about two months and had begun to think a great deal of him until, a few days ago I was told he was married. I didn't believe it. I got up enough courage to ask him about it and he said that he was—but it happened a long time ago.

Do you think I should stop going with him because of his past marriage, or should I try to forget it? Somehow, since I found out about that, I don't feel the same toward him, although I still like him.

JACKIE.

Dear Jackie: The length of time the young man has been married does not make him eligible as a suitor. He may have been married ten, twenty or thirty years ago and he would be just as much married as if the ceremony had taken place yesterday afternoon if he has not been divorced or made a widower in the meantime.

His lack of frankness toward you, in this matter, doesn't put him in a very favorable light. And you are quite justified in asking him to tell you just what his legal status is. If he is some other woman's husband—don't waste any more time on him.

Their Differences

DEAR MISS FAIRFAX

I have written to you before about a problem that was bothering me and you have helped me so I am coming again to you for advice. I am a young [illegible], very much in love with a man of a different religion. Although he is 30 years old, he likes to go around and have a good time the same as I do. We both like athletics and dancing, and he takes me out quite often. Would you advise me to marry him in spite of his religion and age?

UNDECIDED.

Dear Undecided: If you had told me your age, I should be better able to advise you. If you're 16, 17 or 18 it seems wiser not to marry a man of 30 of a different faith.

TAKE IT EASY WITH COOL DESSERTS

By **MARTHA LEE**

From Martha Lee's Friday Morning Broadcast Over Station WAAB.

THERE ARE always times when the homemaker should "take it easy"—and no real homemaker needs to have these times enumerated! Certainly one of them is when summer rolls around and nobody wants to stay inside and labor over a hot stove. The dessert question, at least, solves itself comfortably when you choose something that is cool to make and cool to eat and as economical as daylight saving days are long! Here are two or three that I hope will help you to take it easy these summer days.

Martha Lee

LEMON FOAM

- 1 c. sugar.
- 2 c. cold water
- 2 tbsps. cornstarch.
- 3 tbsps. lemon juice.
- 1 egg white, beaten stiff.
- 1 1-3 tsps. salt.

Boil together sugar and 1½ cups of water for five minutes. Then stir in cornstarch mixed with remaining water. When mixture has thickened put in the top of double boiler over boiling water to cook for 15 minutes. Add the lemon juice and salt and when cool, fold in stiffly beaten egg whites. Chill thoroughly, serve on sponge cake.

FRESH FRUIT FLUFF

- 3 cups milk
- 1½ tbsps. cornstarch
- ¼ cup sugar
- 2 eggs
- 1 tsp. vanilla
- 2 cups sliced fruit
- 1-3 cup powdered sugar
- Salt

Mix cornstarch with half cup milk. Scald remaining milk in top of double boiler. Beat eggs slightly and add sugar and salt. Stir scalded milk slowly into eggs and return to double boiler. Add cornstarch mixture, stirring constantly until thick and smooth, cover and cool 20 minutes. Remove from fire; add flavoring. Slice fruit into serving dish and pour hot custard over it. Beat egg whites, add sugar, and pile on top of pudding. Bake 15 minutes in slow oven, 320 deg. F. Chill and serve.

Martha Lee

Tomorrow's Table

BREAKFAST
Strawberries
Dry Cereal with Pitted Dates
Toast
Coffee

LUNCHEON
Scrambled Eggs with Tomatoes
Toasted Muffins
Rhubarb Sauce
Tea

DINNER
Baked Meat Hash
Macaroni-Stuffed Peppers
Buttered Cauliflower
Fruit Salad
Cheese Crackers
Coffee

Household Hint

TRY USING coffee instead of water when making gingerbread and you will greatly improve its taste.

MRS. J. WAINWRIGHT
11 Acton st., Boston

WHY TAKE PILLS?

THERE'S no need to drug yourself with laxatives when constipation can be overcome by eating a delicious cereal. Mr. F. C. Aminsen, Kennyhole, Washington, writes:

"I suffered with chronic constipation for many years and was compelled to use pills every night, but since I got your Kellogg's ALL-BRAN it works fine. I would not be without it. I was so deathly sick of taking pills every night. Now it is so different. Kellogg's ALL-BRAN works so naturally and is pleasant to take."

Just eat two tablespoonfuls of Kellogg's ALL-BRAN daily. Relief is guaranteed. It is the natural, safe way.

Delicious with milk or cream, fruits or honey added. Kellogg's ALL-BRAN also furnishes iron for the blood. In the red-and-green package at your grocer's. Made by Kellogg in Battle Creek.

Kellogg's
ALL-BRAN

SCALLOPED MUSHROOMS

Peel the mushrooms and bre them into pieces. If you wish serve them very white, throw pieces into boiling water, all them to stand 2 or 3 minut then pass into cold water. D carefully and saute in hot but for 3 or 4 minutes. To 1¼ c of mushrooms add 3 tbsps. flour, ¼ tsp. of chopped pars stir and cook until the flour become absorbed by the butt Then add 1 cup of milk, stir u the sauce boils, then simmer v gently for 10 minutes. Add 1 lemon juice, a dash of paprik ¼ tsp salt. Remove from fi beat the yolk of an egg with tbsps of milk and stir into m ture. Fill buttered shells w the preparation. Stir 1 cup cracker crumbs into one-th cup of melted butter and spre the crumbs over the top. L stand in oven to brown.—Ma E Ba , 169 Oak st., Wakefie

RHUBARB PUNCH

- 2 lbs. rhubarb
- 1½ cups sugar
- 1 cup orange juice.
- 2 qts. plain or charged water
- 3 cups water
- Thinly peeled rind and juice
- 3 lemons.
- ⅓ cup shredded pineapple (o tional).

Wash and cut the rhubarb qui small and cook it with the wat and lemon rind about 20 minute Strain and add the sugar, a stir until dissolved. When co add the fruit juices and pineapp if used. Just before serv combine with the plain or charg water and serve from a pun bowl, containing a generous pie of ice.—Mrs. Ruth Whitcomb, Glover ave., Atlantic.

Our Daily Salad

MEXICAN SALAD

- 1 medium head white cabbage.
- 1 canned pimiento.
- 1 green pepper, chopped.
- Boiled dressing

Chop the cabbage quite fi and crisp in ice water for ha an hour, then dry beween to els. Mix with the chopped gre pepper and pimiento cut into di Moisten well with boiled dressi chill thoroughly and serve wi cold meat.

FISHER COACH CONTEST TO END JULY 1

At midnight on Wednesday, July 1, every Fisher Body Craftsman's Guild miniature Napoleonic coach to be judged in the State of Massachusetts must be in the hands of the T. G. Buckley Storage Co., 690 Dudley st., Dorchester. Entries close at that hour, and the list of models received will be turned over to Mayor James M. Curley to be locked up in the city vaults until the day of the judging. Coaches not on hand at that time will not be eligible for judging.

Every member of the Boston Evening American Chapter of the Guild should get his model to the warehouse. With four university scholarships of four years each at stake, in addition to the 980 other awards totaling $30,000 or more, it is to the interests of every boy craftsman to comply carefully with the simple rules for getting an entry in.

As already announced, the Massachusetts models will be judged by local men. These judges—Duncan MacKellar, field scout executive, and Andrew Roswall, divisional supervisor at the Boston Trade School—will co-operate with a third judge from headquarters of the Guild in deciding the distribution of the long list of awards. The judging, and a free public display of all coaches built in the state, will be held in the Department of Architecture, Massachusetts Institute of Technology, Rogers Building, 491 Boylston st., starting July 8.

Following the state judging there will be a month of relaxation in the Guild program, leading to the national convention of the Guild, to be held in Detroit, Aug. 24, 25 and 26. Two Massachusetts boys will attend this convention, with all expenses paid.

PHILCO DEALERS BANQUETED

A thousand radio retail dealers, guests of the Milhender Radio Co., wholesale distributors here of Philco Radio, gathered at a banquet in the main ballroom of Hotel Statler last night to celebrate the formal presentation of the Philco models for 1931-32.

Joseph L. Milhender, head of the company, discussed "a most astonishing angle of the leadership by Philco dealers in the face of general business conditions."

Albert M. Stone, sales manager of the Milhender Co., director of the Radio Wholesalers Association, National Federation of Radio Wholesalers, and the Radio Wholesalers Club of Boston, presided as toastmaster.

Prominent among the guests were Sayre M. Ramsdell, vice-president of the Philco Co.; James R. Kennedy, general manager for Philco in the New England district; Clarence J. McClaskey, Philco's special representative here; Ben J. P. Morrison, advertising manager of the Milhender companies; Frank A. Hutchins, presenting the factory's advertising plan;

Port of Boston

What was said to be the largest amount of swordfish landed at the Fish Pier, was brought in yesterday by three schooners engaged in this work. The three boats got their catches on the Georges, and the Oliver Brown had 48, the Evelyn M. Goulart 42, and the Funchal 39.

Aboard the Hamburg-American liner Cleveland when she arrived yesterday was a yacht which had been built in Sweden for Axel W Nilsson of New York.

The yacht, of the 30 meter class was brought from Hamburg, was to have been put overside in Halifax and sailed to New York, but rough weather prohibited this.

NEW ENGLAND BUILDING HAS INCREASES

By FRANK H. MELOON

New England building has been showing increases lately. For the week ended June 16, as reported today by F. W. Dodge Corp., contracts awarded totaled $6,404,800. This compares with a total of $4,517,500 for the like week a year ago. The figure is also above the weekly average for 1931 to date. The total for the previous week was also larger than the weekly average. The total for the week ended June 16 was greater than that for the previous week.

* * *

President Joseph Wilshire of Standard Brands, Inc., offers us an interesting suggestion. He argues that since the government was able to reduce the consumption of flour during the war by an advertising campaign, now it will be equally able to increase the use of bread and reduce the huge surplus of wheat in the present emergency by the same method.

Joseph Wilshire

* * *

One curious fact is that Wall and States Sts.' new high speed stock tickers have to date been called on to do less work than the old and slower ones. The new tickers came into use Sept. 2, 1930. They can print 500 characters a minute against a maximum load of 300 for the old ones. Since the new tickers have been installed however transactions on the stock exchange have been less than in the corresponding period prior to that time. Old style tickers dragged along from 20 minutes to three hours behind the market, but the speed tickers have already demonstrated their ability to keep abreast of a 5,000,000-share market.

* * *

U. S. Department of Commerce assures us the installment trade is maintaining the level of normal times. It declares this form of retail credit has proved sound during the depression, although it will doubtless admit the system is unlikely ever to be entirely without weaknesses.

* * *

The Department's finding is most interesting when it is recalled that a decade ago, there were two schools of thought on the question of installment business. One of them maintained that it could be depended upon to find its proper base in the economic structure and that it was here to stay. The other group contended installment selling was unsound from the retailers' standpoint and equally dangerous for the buying public, or that part of it which resorted to "buying on time" and thus pledging its future earnings.

* * *

Economic thought and study may be entering a new era that will prevent future major depressions of business. Raymond M. Gunnison, vice-president of the Reuben H. Donnelley Corporation, publishers of the classified telephone book, said in regard to the survey announced by C. C. N. Y. to study the New York market and to prove that New York is the world's first complete city.

* * *

Mr. Gunnison congratulated Dean George W. Edwards, of the School of Business Economics, and suggested that the public be allowed to assist in the study. His company will give an automobile to the person compiling the largest list of things that cannot be bought in New York city.

* * *

H. S[illegible]ley Hyde of West Newton has been appointed treasurer of the Walpole Trust Company, Walpole, Mass. Mr. Hyde's experience was with a national bank, an auditing company dealing largely with banks, and for several years he has been with the United Fruit Company.

Dividends

Sears Roebuck & Co. today declared its regular quarterly dividend of [illegible] cents on its common stock, payable August 1.

* * *

Directors of Mountain & Gulf Oil Co. have omitted the quarterly dividend of 1 cent due at this time.

* * *

Pitney-Bowes Postage Meter Co. directors have declared a dividend of 2 per cent in stock in lieu of the quarterly dividend of 5 cents in cash, payable October 1 to stockholders of record September 15.

* * *

American Thermos Bottle Co. declared a quarterly dividend of 15 cents on the common, payable August 1 to stock of record July 20, placing the stock on a 60-cent annual basis, against $1.20 previously.

* * *

At meeting of directors of Oil Stocks, Ltd., no action was taken on the dividends usually declared around this time on the "A" and "B" stocks. Last previous dividend was 10 cents on each paid March 31.

* * *

St. Lawrence Corp. Ltd., has omitted the quarterly dividend of 25 cents on the Class A stock due at this time.

* * *

St. Lawrence Paper Mills Co. Ltd., omitted the quarterly dividend of 75 cents on the preferred stock due at this time.

* * *

New Bradford Oil Co. has omitted the quarterly dividend of 7 cents a share due at this time.

Today's News of Live Stocks in Wall Street

Oil stocks turned sharply upward at the very beginning of trading today. The rise came on the outlook for a termination of the "gas price war" that has been raging in various sections of the country. Standard of California soon forged over 3 points and sold in good volume above yesterday's close. The bulk of the Standard and independent oils advanced a point on the average.

Dividend Actions Are Being Awaited

Westinghouse Electric displayed mixed trends today. Dividend action on Westinghouse and other important stocks is awaited with considerable interest by speculators and investors alike, as forming the basis of a calculation of values for the stocks. Westinghouse $2 basis is expected in Wall Street.

Steel and "Can" Show Resistance

After yielding prices had signalized the start today, both U. S. Steel and American Can displayed considerable resistance to selling. Bears lacked aggressiveness. Stocks showed a disposition to roam around within a narrow range while awaiting definite and specific news from important industrial and business lines.

Regular Dividends Due Next Week

Gold Dust and Liquid Carbonic are expected to declare regular dividends next week. There is nothing seen immediately ahead to break the market out of the current rut of dullness and the obvious lack of incentive to buy should tend to influence continued irregularity.

Anaconda Cut or Omission Expected

A series of important dividend declarations starts next week. There are about 20 important meetings scheduled. Westinghouse is expected to cut to a $2 basis; Anaconda to reduce or omit its payment, while other doubtful declarations include Baltimore & Ohio, Lackawanna, Pennsylvania, American Ice, Goodyear and Industrial Alcohol.

Many observers express confidence Ice and Goodyear will pay as in the past.

Aggressive Bear Activity Stopped

From supposedly reliable sources, it is learned that aggressive bear activities have been very greatly curtailed and in some important instances completely terminated.

Recent Buying Is Viewed as Good

Distinctly encouraging trend, reflecting type of recent buying, is again disclosed in the weekly Federal Reserve report on brokerage loans, showing a further reduction of $71,000,000 during the past week.

Chrysler's Friends Are Increasing

It has been apparent recently that Chrysler has been adding to its friends among the traders. The stock has been accumulated, particularly when minor recessions have occurred. This buying was based on the knowledge that the company is bringing out a new four-cylinder car, which is claimed to be vibrationless. Officials of the company are confident that the new product will meet with a good public reception because it will be in the low-priced line. A considerable part of the buying in the stock has been of the long-pull variety.

Buyers Switching to Dome Mines

Greater activity in Dome Mines represented switching by holders of Alaska Juneau. Several well-known firms were among the principal buyers of the former.

Bond Market Prices Mixed; Trading Dull

New York, June 19—Quiet trading and narrow mixed fluctuations characterized the bond market today as early activity in foreign and public utility issues slackened. The latter group scored a number of small losses. Foreign obligations had a rising tendency which remained within fractional limits in most instances.

June Auburn Sales Setting High Mark

Cincinnati, June 19—N. E. McDarby, vice-president and general manager of Auburn Automobile Co., expresses confidence that sales in June will top the record of May.

In the first five months of this year he said Auburn produced 24,440 cars, against 22,749 during the entire year 1929. Production in May reached a high record of 6717, but June figures to date assure an even greater output this month. May production compared with 1848 cars in May a year ago.

White Motor Gets $280,000 Bus Order

Cleveland, June 19—White Motor Co. has received an order for 20 buses costing $280,000 from Third Avenue Railway System of New York. The buses have a 38-passenger capacity.

PRICE TREND IS DOWNWARD IN BOSTON

Prices were worked downward in today's dealings on the Boston Stock Exchange in a dull session. Losses ruled from fractions to 2 or more point. Atchison lowered over 2 points and American Telephone was down 1½.

Edison moved against the general trend with an advance of nearly 2 points recorded. Torrington was 2 points higher and United Fruit was up 1⅜. First National Stores and United Shoe each gained fractionally.

New Haven dropped nearly 3 points and Pennsylvania was down around 2. Boston Elevated common, Warren Brothers and Gillette showed fractional declines.

There was little doing in the investment trust group. General Capital Corporation was a point lower.

THE COMMONWEALTH OF MASSACHUSETTS.—Metropolitan District Commission.—Public Hearing.—The Metropolitan District Commission will give a public hearing at the offices of the Commission, 20 Somerset Street, Boston, on Friday, June 26, 1931, at 10 a. m., under Chapter 371 of the Acts of 1929, and amendments relative to the improvement of Charles River Basin for recreational and other purposes, and for the laying out and construction of certain parkways along the Basin. Plans, specifications and estimates of cost may be seen at the office of the Metropolitan District Commission. METROPOLITAN DISTRICT COMMISSION. By William E. Whittaker, Secretary.

STOCKS RALLY IN LAST HOUR IN WALL ST.

New York, June 19—Share prices fluttered uncertainly in somewhat more active trading in today's Wall St. market

The list was distinctly heavy for a time in the afternoon, but week-end short covering caused some recovery in the last hour. Principal industrials and utilities closed with nominal changes, although a somewaht easier tone developed in the last five mintues

RAILS OFF, OILS UP

Rails were off 1 to 3 points, while oils and some of the specialties were a point or so higher. The day's turnover was 1,100,000 shares

Oils were firm from the start. Standard of California sold up 3 then lost some of its gain. Standard of New Jersey and Shell Union were among issues gaining about a point.

In the rails, losses of 1 to 3 appeared in such issues as New York Central, Atchison, Chesapeake and Ohio, and Norfolk and Western

Cotton belt issues turned reactionary, the common losing 2 and the preferred 4 points. American Telephone lost a point, as did Consolidated Gas and National Biscuit U. S. Steel and American Can were about steady at the finish.

The improved action of the oil issues primarily reflected Standard of California's increase of 5¼ cents a gallon in the price of gasoline, making the price 13½ cents at San Francisco, and the doubling of its buying price for crude oil, making the price 40 cents a barrel. This was interpreted as indicating the end of a price cutting war in California

DELAY FOR MERGER

Over the country at large petroleum prices still are unprofitable in the main Although mergers do not thrive in periods of depression, Wall St. feels that consolidation will eventually go far toward stabilizing this important industry

While opposition has developed to the present terms of the Socony Vacuum merger, and its completion may be considerably delayed, its eventual success is regarded as assured. Withdrawal of government opposition to it is expected to revive the plan to merge Standard of New Jersey and California, making a company exceeding in size the Royal Dutch Shell group

Statistical surveys of business activity in May, now making their appearance, are somewhat discouraging indicating a somewhat larger than seasonal contraction, but a reasonably good season for crops is widely expected to hold the key to important seasonal recovery in general business in the autumn, and current crop indications are in the main favorable.

The large drop of $71,000,000 in brokers' loans, in a week of firming prices and extremely light trading, was distinctly encouraging as it must be interpreted as representing a steady if light stream of cash buying orders

Fundamental to Pay on Its "A" and "B"

Distribution of 22 2-10 cents per share on Fundamental Trust Shares, Series A, cumulative type, and of 30 cents per share on Fundamental Trust Shares Series B disbursement type, for the six months ending June 30, 1931, is announced by Fundamental Group Corporation 40 Wall st., New York City.

Fundamental Trust Shares are fixed investment trusts created and sponsored by E. A. Pierce & Co., and American Industries Corp.

May Failure Total Low for 8 Months

Total business defaults during the month of May, although above the same month last year, were the smallest monthly total shown since November, 1930, according to the monthly survey of Bradstreet's. Liabilities dropped substantially from April it shows, but were larger than in March or February this year, or in May, 1930

Selling Persists on the Big Curb

New York, June 19—The curb market ran into persistent selling pressure today with the general run of active favorites gradually giving way to new low ground on the movement. The utility group was reactionary in spots. Oils stood out prominently with firmness in this group attributed to the ending of the gasoline price war on the coast.

Rubber Exports in Month Decline

Malaya will export about 41,000 tons of rubber this month, says estimate cabled to Rubber Exchange of New York, Inc. May exports totaled 44,200 tons; April, 43,400 and March, peak for the year, 48,500.

Grains Are Higher in Chicago Market

Chicago, June 19—Grains closed generally higher today. Wheat was ⅛c lower for June and ½c off to ⅜c up for other futures. Corn finished ⅛ to ½c higher and oats ¼ to ⅜c up. Rye was ½ to ⅝c higher.

Cotton Higher in New York Market

New York, June 19—Cotton futures today finished 22 to 26 points higher July 8.70-72, Oct. 9.11-12, Dec 9.34-36, Jan. 9.43, March 9.62-65, May 9.86. Spot steady; middling 8.85.

Bond Offerings in Week Are Larger

New bond offerings during the week ended June 19 totaled $87,265,000, compared with $14,684,000 last week and $133,041,500 in the like

CASH HOLDINGS LARGELY UP

Holdings of cash and marketable securities by leading corporations have shown a large increase since 1921, not only in amount, but also in relation to total assets and funded debt, it is revealed by a study prepared by Clermont Cartwright, vice-president in charge of research and statistics of Allied Business Corporation Shares, Inc., national distributors of ABC Trust shares

The 31 companies in this trust, for example, show an increase in cash and marketable securities from $846,584,000 at the end of 1921, to $1,814,532,000 at the end of 1930, an increase of 114 per cent. Total assets of these companies increased 60 per cent during this period, while funded debt increased only 26 per cent and current liabilities 24 per cent

American Telephone & Telegraph was revealed as having the largest cash holdings in 1930—$388,858,000, followed by Standard Oil of New Jersey with $225,826,000, U. S. Steel $197,807,000, General Electric $123,703,000, and Allied Chemical $113,320,000

No Bids Received on New Jersey Bonds

State of New Jersey failed to receive a bid for entire issue of $23,000,000 3½ per cent bonds offered Thursday, due to decline in municipal bond price since sale was scheduled last month. New York banking groups planning to bid found themselves unable to pay the stipulated price of at least par and refrained from bidding for the entire amount

May's Production of Shoes Greater

New York June 19 (AP)—Shoe production during May approximated 29,000,000 pairs, compared with 35,400,000 in May last year and 29,757,000 pair in April this year, a preliminary estimate by the New York Hide Exchange shows The report said estimated output for last month represented greater activity in shoe manufacturing than in any previous May, with the exception of 1929 and 1923.

Gardner Receiver for Motor Company

St Louis, June 19—Russell E Gardner, president of Gardner Motor Co., has been appointed receiver for the company. Directors consented to receivership following the failure to obtain a stockholders' quorum to authorize liquidation of assets.

ADVICE TO INVESTORS IS FREE

Before you buy or sell stocks or bonds, you ought to secure unbiased expert advice. Send your investment inquiries with stamp to Frank H. Meloon, Financial Editor, Boston Evening American, 5 Winthrop Sq., Boston. All replies are made by mail direct.

REPORTED DEFICIT

I. E. Boston—What are the latest earnings for Mack Trucks? Do you consider the stock a good investment

Ans.—Though Mack Trucks has paid dividends from the last quarter of 1923, the stock is a speculation Earnings last year were materially affected by the general business depression and net dropped to $2.60 a share against $9.05 in 1929 Operations for the March quarter resulted in a deficit of 23 cents a share. A yield of 10 per cent indicates in [illegible] of the current $3 dividend

DECREASE IN NET

E. I Wilmington—What has caused the decline in Warner Brothers Pictures? I have 50 shares more than 20 points above current levels

Ans.—We do not care to discuss fluctuations in Warner Brothers Pictures common. The decline probably is due to lower earnings, which for six months ended Feb. 28, 1931, were 23 cents a share contrasted with $3.68 in similar previous period For fiscal year ended Aug. 30, 1930, net was $2.24 a share against $6.33 in 1929 The stock is a speculation having paid no dividends since June, 1930

GOOD EARNINGS

F. L., Bedford—Please give information on International Business Machines. What do you think of a purchase now?

Ans.—International Business Machines is selling at a level to yield about 4 per cent from the current $6 dividend From December, 1928, an extra 5 per cent in stock has been distributed annually. Earnings in 1930 were $11.53 a share, compared with $11.04 in 1929 In the first quarter of current year net income was equivalent to $2.82 a share [illegible] same amount reported for similar period in 1930

EARNINGS POOR

I. Waltham—Do you think Packard Motor will sell higher I thought of buying it now but should like your advice

Ans.—We have no means of knowing future market prices. Though Packard Motor has had a good record, the stock has declined because of a sharp falling off in earnings. Net for 1930 was only 60 cents a share; in the first quarter of current year one cent a share against 18 cents for similar period in 1930 The current 40 cents dividend is a reduction from 60 cents and $1 previously paid

FOR A WIDOW

Mrs. B. C. Boston—I am a widow, supporting a child. In savings banks I have $6000 and want to invest about $4000. Of course, I must be careful. What do you suggest

Ans.—Buy $2000 each Title Guarantee & Trust 5s and Prudence Company 5½s. The annual income will be $320. These are first mortgage bonds, guaranteed as to principal and interest You are cautious in keeping a generous amount in the savings bank to meet unexpected demands for cash

PLAN APPROVED

D. O., Chelsea—As a reader of your paper I shall appreciate your opinion on Morris Plan certificates I have $4900 in a savings bank and want to invest $3000.

Ans.—Morris Plan certificates, paying 5 per cent convertible into cash on demand, are sound. The company, organized in 1914, operates under the state banking law. Invest $3000 as planned. You will get an annual income of $150.

KREUGER BUYS IN INT. TEL.

Ivar Kreuger of Kreuger & Toll and Sosthenes Behn, chairman of International Telephone & Telegraph, announce that Kreuger & Toll has acquired interest in International Telephone & Telegraph and that latter had acquired interest in L. M Ericsson Telephone Co., controlled by Kreuger company.

No announcement is made regarding terms, but it is understood that Ericsson partial voting shares purchased by Kreuger & Toll in 1930 were exchanged by latter for International stock

Mr. Kreuger and F. W. Allen of Lee, Higginson & Co., Kreuger & Toll bankers in this country, will be elected to International directorate.

General Foods Corp. Holders Increased

Holders of General Foods Corporation stock now total 44,400, and nearly half of these are women who own the stock individually, or jointly with their husbands, according to an announcement by the company. The number of stockholders has increased 88 per cent, since February, last year, and 2,390 per cent since 1927

During the past two years the number of General Foods stockholders has increased 150 per cent, while the present total of 44,400 represents a gain of 1,004 per cent over the February, 1928, figure.

Dome Mines Buys in Far East Rand

New York, June 19 (AP)—On recommendation of H. P. DePencier general manager, Dome Mines, Ltd has purchased a sizeable block of shares of the East Geduld Mine, Ltd., a gold mine on the Far East Rand which has been under development for several years and is now about to begin milling operations

Standard of Cal. Advances Prices

Standard Oil Co. of California has advanced prices on purchases of crude oil by 20 to 40 cents a barrel on average grades. Major oil companies on the Pacific coast have advanced wholesale gasoline prices by 5¼ cents a gallon to 13 cents in Los Angeles and 13½ cents in San Francisco

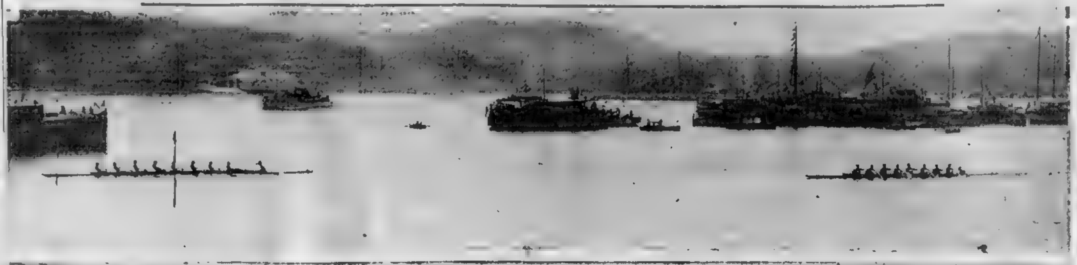
Independent Oil Co.'s Lower Prices

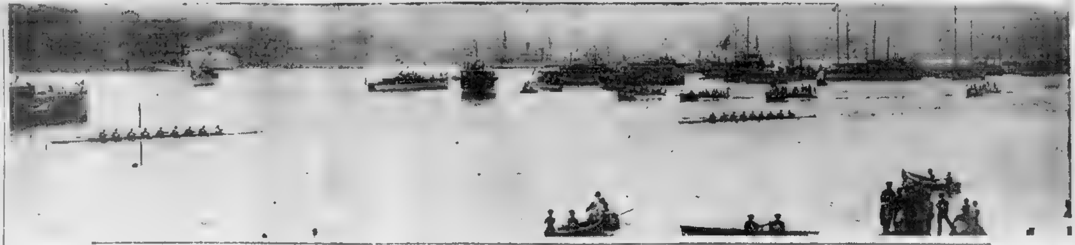
Youngstown, O., June 19—Independent oil companies here have met the reduction of 1 cent in gasoline by Standard Oil Co of Ohio. New prices, including State tax are 16 cents a gallon for regular grades and 19 for premium grades It is the first change in retail prices here since a 2-cent advance March 11

YALE WINS FIRST TWO BOAT RACES ON THAMES

BLUE CONQUERS CRIMSON IN FIRST TWO RACES IN REGATTA

JUNIOR VARSITY FINISH





FRESHMEN FINISH

With crack shooters of the International Newsreel on the job as photographs show the Yale Freshies and the Yale Jarvies led their Harvard rivals across the line in the water duels that preceded the big varsity race on the Thames today. In top picture you see the Blue's junior varsity crew leading their Crimson rivals across the line by three and one-half lengths. The lower picture shows the Harvard freshmen three lengths in the wake of Yale as the Blue craft shoots across the finish line. The varsity eights will not go to the starting line until 8 o'clock this evening. These photos of the opening races, the first to be printed, were rushed from New London to Boston by specia plane.

FANNING

By GEORGE UNDERWOOD

House of Memories Now Training Place. Dempsey's Saratoga. ↕ *Tunney's Speculator. Schmeling's Endicott. Other Boxing Camps.*

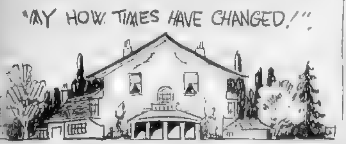
Houses, Like Humans, Change With the Years

Where Morgan and barons of finance used to drop in and call,
Where Jenny Lind's notes of the songbird trilled through parlor and hall,
Where ghosts of Society's favorites, peer from crannies and nooks,
And step from out of the shadows, like heroes from out of some books,
Now jars the argot of ringdom, talk of jolt and of jab,
The squabbles of fighters and managers, other squared circle gab.
Yes, houses are much like humans, on them misfortune leers,
They, too, fall from their greatness; they, too, change with the years.

That big rambling House of Memories, the Warren mansion, hidden there among the giant elms and oaks in the Valley of the Owls, Hoosick Falls, looms up first as we sit down to fan about training resorts of the champions to follow up the fanning we have been doing on how champions train, what they eat and how they are entertained. Dempsey's favorite spot at Tom Luther's on the shores of shimmering Lake Saratoga, Tunney's aerie up there on Lake Pleasant high among the Adirondacks—no training resort we ever have seen is one half as colorful, one half as romantic as the old Warren Mansion now owned by Hans Ehmler at Hoosick Falls, where Tommy Loughran, Paolino, Al Singer and others trained for championship goes.

A little valley with a lily spotted lake cupped in the lap of the hills. A sloping hillside covered with pine, firs and hardwoods. A great rambling house from whose windows and porches through vistas in the giant oaks and elms which surround it, you catch glimpses of the Berkshires and foothills of the Green Mountains of Vermont. Seventy-five yards from the house a ring pitched in a swale shaded by a great walnut. Twenty feet away a grove of beautiful spruce, pines and hemlocks completely hiding the cottage where the boxers live. Back of that the rambling barns and outbuildings of the farm itself with pastures where 150 cattle browse. Turkeys gobble from the thickets, geese honk and ducks quack in the lake.

Jenny Lind had sung in the big drawing room. J. P. Morgan, the Elder, many great financiers and politicians, President U. S. Grant and other celebrities banqueted in the great black walnut panelled dining room with the huge fireplace over which looms one of the most costly panels in America. In odd nooks and crannies are antiques and objects of art from all corners of the world. Two tapestries were brought from an old monastery in Italy.



"MY HOW TIMES HAVE CHANGED!"

And this great historic mansion in its beautiful setting, fairly reeping history, romance, opulence, turned into a training resort for fighters! Yes, houses are like humans. Misfortune falls upon them. They change with the years.

Dempsey's favorite training resort was Tom Luther's at White Sulphur Springs on the shores of beautiful Lake Saratoga. Tunney, Firpo, McTigue, Britton and other champions trained at Luther's too. Before them Kid McCoy and Tommy Ryan trained across the lake and before the Cauliflower brigade invaded Saratoga Luther's used to be a great place for the college amateur and professional oarsmen.

Pine bordered Saratoga Lake is beautiful but not quite so beautiful as Gene Tunney's favorite training quarters at Speculator, high up in the Adirondacks. Speculator is a modern Garden of Eden. Blue hills tumble all around. The pines, rank on rank, march down to bathe their feet in the turquoise waters of Lake Pleasant.

ALL QUIET ALONG THE CONGAMUNK

Congamunk Creek winds back among the marshes and hardwoods. There at evening the deer come down to drink and you will see all kinds of wild life. If you are a good woodsman, and choose your time you may even paddle noiselessly up the creek like Tunney used to do, and catch the beavers, now coming back into the Adirondacks, at work building their dam.

We never could get much of a kick out of Gus Wilson's place at Orangeburg, where Sharkey trained for several of his battles. We found it colorless. The Matthews Farm at Manhasset, Long Island, where Carpentier trained for Dempsey, was a beautiful little country place. Harvey's Lake, about fifteen miles from Wilkes-Barre, Pa., where Tommy Loughran trained for Sharkey and Braddock is a beautiful spot and Bill Davis, the political leader, Mayor Dan Hart of Wilkes-Barre, the Pugh brothers saw everyone got plenty of entertainment.

The best appointed training camp we ever saw was En-Joie Health Park at Endicott, N. Y. where Schmeling trained for Sharkey. George W. Johnson, the millionaire shoe manufacturer, spent thousands of dollars fitting it up.

The one drawback at Endicott was the way Schmeling hedged himself in. The Black Uhlan lived on a farm a couple of miles away from his training quarters. Manager Joe Jacobs had him guarded like a visiting potentate. Jacobs and Schmeling made it as hard for the sports writers as did the Johnson brothers make it easy.

Max now is training at Conneaut Lake in Pennsylvania for his go with Stribling. Wonder if the Black Uhlan and his manager, Joe Jacobs, can make their visitors feel just as unwelcome as they did at Endicott?

Yale Junior Varsity and Freshmen Crews Win

Harvard remained a slight favorite for the four-mile varsity classic, scheduled to be rowed up-stream this evening.

Under a hot sun that quickly penetrated the haze shrouding the river and its colorful fleet of pleasure craft the Yale freshmen got away smartly in the first race and quickly opened up a commanding lead with the faster, smoother Eli stroke.

The Blue yearlings, stroked by J. H. Jackson of New Haven had a lead of a half length inside the first 400 yards. Harvard's first challenge was repulsed, and Yale drew steadily ahead, with a quarter length of open water showing between the shells at the mile stakes.

The Eli youngsters raised the beat as they headed for the finish and boosted their margin by another full length within a half mile. They finished smoothly [illegible] three lengths to the good, in 10 minutes 25 seconds for the two-mile route ending at Bartlett's Cove.

Harvard's time was 10 35 3-5.

The clean cut victory of the Yale junior varsity crew came as a distinct surprise inasmuch as this boat was the hardest hit in the shake-up of the Eli squad resulting from violations of training rules.

With the exception of the No. 3 oar, [illegible] Urquhart of Chehalis Washington the crew was made up entirely of New York state talent, five of the boys including Stroke Charles Tenny coming from New York city.

The Jayvees' contest was a duplicate of the freshman race. Again the Elis got off in better style gained a [illegible] advantage within [illegible] another [illegible] time the [illegible] soothed [illegible] spurt [illegible] Jayvees stroked by [illegible] Armstrong of Dallas [illegible] in the last half-mile [illegible] this time however [illegible] was lost and the Elis had no trouble holding [illegible] more than three full lengths.

Yale's time of 10 43 was surprisingly slower than the winning freshman mark. Harvard's 'Jayvees' were clocked in 10 54.

The morning races were witnessed by one of the smallest crowds in many years. Less than one thousand spectators half filled the observation trains run on opposite banks of the Thames. However the course was jammed by a big fleet of flag-bedecked pleasure craft, from the sides of which a host of notables including the King of Siam were spectators.

Harvard Has Superior Stroke Oar

Harvard is a 10 to 8 favorite for the varsity race this evening and there is a prospect of a new up-stream record being made.

Weather conditions were perfect early today. The sun shone from clear skies on thousands of early arrivals. A light southwesterly

In contrast with the deluge at Poughkeepsie, there wasn't a cloud in sight to threaten the colorful renewal of rivalry in America's oldest and most picturesque naval rivalry.

From sunup, a steady stream of boats entered the harbor and sought places of vantage along the Thames river course. They ranged from small sailboats and launches to some of the biggest private yachts afloat.

King Prajadhipok and Queen Rambai-Barni of Siam saw the race from the 135-foot private yacht Amida, turned over to the Siamese ruler by its owner, E. R. Behrend for the exclusive use of the king and his entourage.

The royal craft and J. P. Morgan's luxurious Corsair headed the armada that lined the river for the race.

While many veteran rowing critics who have seen the two Yale eights since they came here nearly three weeks ago have noted a smoothness in the blade work which the Harvard eight has not yet attained, the Harvard crew has a power which Yale has lacked in practice here and in its two races, in which Yale was first defeated by Columbia and later by Cornell.

Harvard possesses a superior stroke oar it is thought, and Yale has in Stroke Goodalle, a six foot seven inch oarsman who must be rigged perfectly to prevent the crew from making poor progress.

It was a slight jar in the stroke which allowed the only victory over Yale during the coaching regime of Ed Leader exactly four years ago. Dana Bartholomew one of the cleverest oarsmen in the shell caught a crab and lost a couple of strokes.

Although Yale was leading at the time, Harvard shot to the fore and won. Harvard's time spins here have on two occasions, when taken at practically the same hour, proved less satisfactory than those of Yale.

Both eights have shown themselves extremely fast and both may push the up stream record of the Thames tonight.

Capt. Jim Rogers of Yale will row in the junior varsity shell. He was taken off both varsity crews about five weeks ago because of poor condition, but when Ed Leader dropped three members of the jayvee eight for smoking Rogers went back into the junior shell. He has rowed in the varsity eight in the last two four mile races.

If rough weather prevails today Harvard's more powerful varsity crew will have a better chance. Betting among rival students and alumni was practically even on the outcome of the big race, because Yale undergraduates will not grant a cent off the odds in their wagers, owing to the upset caused by the departure of the veteran Goodbody in the smoking incident just before the crews came here.

Over a squally four-mile row up stream upon a rough river surface the superbly conditioned and stalwart Harvard eight may row Yale down by sheer force and drive. Yale has been a poor finisher in the two races it has rowed this season.

Since the departure of three of the strongest oarsmen in the Yale shell in the smoking escapade, the ranks have been filled from class crew members and the present jayvee eight has lacked the speed of the junior eight, which has raced in two events this season.

N. B. A. to Recognize Winner as Champ

Chicago, June 19 (AP)—The National Boxing Association will recognized the winner of the Stribling-Schmeling fight at Cleveland June 3 as world's heavyweight champion.

This was the ruling today of Gen. John V. Clinnin, president of the N. B. A., after conducting a poll on the question. The vote was 18 to 1 in favor of giving recognition to the victor as champion.

Sport Stars Given Honorary Degrees

—By MYLES T. McSWEENEY—

Here are a few of our own degrees for the year at Summer Commencement.

John Bottlethrower, A. M. The degree of A Moron is hereby given to that eminent and distinguished wrestling fan who hurled a bottle into the ring at a spring semester bout at Boston Garden. He is also awarded a pair of mittens.

Donald Duffer, LL.B. Each succeeding year sees Donald Duffer, eminent golfer, keep out his chin, despite the fact that it is as calloused as a tramp's foot from punches. In recognition of his deathless spirit, he is awarded the degree of Light Bull. What an honor!

A. Boston Fann, A. B. Undying optimism in the face of jeer barrages from other baseball cities entitles Mr. Fann the degree of A Break. We hope he gets it.

Cauley Flower, B. S. Mr. Flower, for faithful attendance at every boxing show, even though he has seen only one good one in the last year, the degree of Big Sucker is gratefully awarded by the College of Fight Promoters. He deserves it.

Other candidates for honorary degrees are taking their second term exams.

We frame diplomas.

Station 2 Wins

The Milk st station, Division 2 of the Boston police department defeated the Athens st. station division 6, 19 to 5, yesterday.

Six Horse Races at Brookline Tomorrow

Excellent weather is promised for the second day of the annual race meet of the Eastern Horse Club at The Country Club, Brookline, tomorrow afternoon.

The opening events on June 17 were marred by a heavy rain which lasted until within an hour of race time. Consequently, the crowd was small and the thrills few.

With fine weather and a fast track on the morrow, it is expected that a record-breaking gathering will witness a great race program.

There are six events on the card with outstanding thoroughbreds entered in each.

COLLINS LEADS IN OPEN GOLF

Miami Valley Club, Dayton, O., June 19 (AP)—Jock Collins, Dayton professional added a record-smashing 67 to his card today to take an early lead in the Western open golf championship with a 36-hole total of 141 strokes.

Collins, who held the competitive course record at Miami Valley until Walter Hagen crashed in with his 68 yesterday, won it back with brilliant golf under a broiling sun. He was out in 33 and back in 34, slicing four strokes off par. He collected six birdies and went one stroke over par on two of the easiest holes on the course, numbers four and nine. On the eighteenth he missed a four-foot putt for a birdie.

His card:

Par, out ..... 4 4 4 3 4 5 4 3 4—35
Collins, out .. 3 3 4 4 3 4 2 3 5—33

Collins shot a 74 yesterday.

Fights Last Night

By the Associated Press.

New York—Al Singer, New York, outpointed Lew Massey, Philadelphia (10). Jack Rosenberg, New York, outpointed Paulie Walker, Trenton, N. J. (8). Andy Saviola, New York, outpointed Solly Schwartz, England (8).

Chicago—Earl Mastro, Chicago, outpointed Midget Mike O'Dowd, Columbus, O. (10); Pee Justo, Madison, Wis., outpointed Joe Sharkey, Albion, Mich (8); Young Corbett, Fresno, Cal., outpointed Meyer Grace, Philadelphia (10).

VOIGHT BEATEN IN TITLE PLAY

Mamaroneck, N. Y., June 19 (AP)—George Voight, acclaimed by many the United States leading amateur since the retirement of Bobby Jones, was defeated in the third round of the metropolitan amateur golf championship today by Eddie Driggs of Long Island, 1 up in 19 holes.

A. F. Kammer, Jr., a freshman at Princeton, defeated Eddie Held of Lakeville, 4 and 3, in another quarter final match. Young Kammer led Held, the former St. Louis star, 4 up at the turn, a margin his more experienced adversary could not overcome in the last nine.

Leonard Martin of Apawamis won from Harold V. Carew of Baltusrol, one up.

Charles Sheldon of Siwanoy became the fourth semi-finalist by eliminating F. Paul Anderson of Canoe Brook, the New Jersey State champion.

MICKEY WALKER GIVES UP TITLE

New York, June 19 (INS)—Mickey Walker will walk in on the boxing commission today and surrender his middleweight title for the privilege of fighting Jack Sharkey for the benefit of the Milk Fund show at Ebbets Field next month.

After the meeting, Sharkey and Walker, in person, will sign for what will be one of the greatest drawing cards of the year.

Walker was welter and then middleweight champion, and he has his heart set on meeting Sharkey, Schmeling or Stribling for the world's heavyweight crown before he considers that he has run his full race.

DEGLANE VICTOR

MALCEWICZ INJURED IN TITLE BOUT

By JACK CONWAY

Henri DeGlane will defend his title as world's heavyweight wrestling champion at Braves Field on July 14 against Ed George as a result of his victory over Joe Malcewicz in a stirring bout at the Arena.

DeGlane won from the Panther in two straight falls. He scored the first fall in 1h. 2m. 4s. with a reverse body lift and back fall, while he gained the second toss in the record time of 43s. with an inside crotch, body lift and slam.

Jack Conway

Malcewicz injured the lower part of his back when thrown for the first time, which explains why he was such an easy victim for the champion when wrestling was resumed.

It was the best exhibition of wrestling witnessed in Boston this season. DeGlane proved himself every inch a champion, while the veteran Malcewicz was at his best.

It was a case of DeGlane's superior strength and aggressiveness wearing the Panther down. Joe was faster and more tricky than DeGlane, but the latter left few openings and followed a steady line of attack.

There was not a single flying tackle during the entire bout. The fact that DeGlane and Malcewicz had the crowd on edge throughout the contest proved that the old wrestling holds still possess their thrills.

Malcewicz used a heel lock to good effect, while DeGlane did his most effective work with arm locks and toe holds.

The rival grapplers also resorted to considerable rough work when at close quarters. Each repeatedly used a rabbit blow to the base of their opponent's brain.

Following his heel locks, Malcewicz clubbed short right hand punches to the jaw. DeGlane came back with left and right blows to the head and body.

Neither DeGlane nor Malcewicz engaged in any wild swinging as they did not wish to leave openings in their defense.

George Wrecks Cantonwine in 34 Seconds

It only took Ed George 34 seconds to toss Howard Cantonwine with an inside crotch hold, airplane whirl and slam.

At the calling of time, George rushed from his corner and was on top of Cantonwine with a fierce tackle before the latter turned around. Two more tackles followed in rapid succession, one of them driving Cantonwine through the ropes to the floor of the Arena.

Cantonwine was badly shaken up by the fall. The aggressive George was all over him. Ed then applied the winning fall.

They must be feeding the Michigan hero raw meat. He has become the most vicious grappler on the mat.

Al Morelli Is Victor Over Bill Demetral

Al Morelli, Boston College star, continued his winning surge when he dropped Bill Demetral with a flying tackle in 14m. 50s.

Jack Ganson and Bonnie Muir went 10 minutes to a hectic draw. Bibber McCoy, who was originally billed to meet Muir, wasn't permitted to go on by the examining doctor. He is suffering from an eye infection. Bowser substituted Ganson.

McCoy was introduced and the fans informed that his physical condition would not permit him to wrestle.

Allen Eustace and George Vassell battled on even terms for 10 minutes. So did Harry Stevens and Jake Patterson.

Farmer George McLeod and Jim Browning furnished a lively 10-minute draw.

Jack Conway Right Again on Mat Selections

Jack Conway, champion picker of winners in ring and mat shows, successfully defended his title last night when both Don George and Henri DeGlane won their bouts at the Arena.

George defeated Howard Canowine in 34 seconds, while DeGlane tossed Joe Malcewicz, challenger, after a thrilling battle.

Conway's 1931 record follows:

W	L	P. C.
42	4	.919

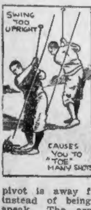
GOOD GOLF

BY CHESTER HORTON

"Golf's Greatest Teacher"

Swinging your golf club too uprightly, which results directly from thinking "upright" swing, leads more directly than anything else to the common fault of over-swinging. Here you see this fault in the sketch, and should also be able readily to see just what causes it. Your arms, reaching too much directly upward, get out of line with your shoulders, and, in turn, your pivot is away from your swing instead of being with it, so to speak. The arms, now having complete freedom, will swing away high, letting the club dip down. It is almost impossible to "catch the club up" and bring it back into unison with your body action. You "toe" many shots wholly because of this fault.



SWING TOO UPRIGHT
CAUSES YOU TO "TOE" MANY SHOTS

(Copyright, John F. Dille Co.)

Bobby Jones Joins Spalding's Staff

New York, June 19 (AP)—Bobby Jones, who announced his retirement from competitive golf after winning the four major titles of 1930, has become a member of A. G. Spalding & Bros.

CARNERA WILL TRY FOR K. O.'S

Primo Carnera is an ambitious young giant. He isn't satisfied with merely chilling the opponents he meets in regulation bouts, but he sends word to Matchmaker Eddie Mack of the Argonne A. A. that he will try to stop Big Boy Rawson, Big Boy Burlap and Danny Reagan whom he clashes with in exhibition matches at Braves Field on next Monday night.

Of course the boys will be wearing the big pillows, but when Primo gets his 271 pounds behind a punch somebody usually fades out of the picture.

GILLETTE RAZOR
with purchase of 10 Gillette blades

GILLETTE has developed a remarkable new positive-registration razor that assures perfect blade alignment—entirely eliminates improper seating. Patented positioning members prevent lateral play and end guess work by locking the blade in place for real shaving comfort. We want to give you the immediate benefit of this revolutionary improvement *absolutely free.*

Smoother, Quicker, Cleaner Shave

Accept this amazing razor. Try it tomorrow morning. See for yourself how the blade registers with both cap and guard—forming one precisely adjusted shaving unit. Learn how sleek and clean every stroke can be when both shaving edges hug the guard in perfect alignment.

A Sensational Betterment

Gillette's positive-registration razor—the greatest development in shaving instruments since the invention of the double-edge safety—cost 29 years of scientific research and thousands of dollars for new production machinery. It's worth it—because this new Gillette will be a tremendous good-will builder.

The handsome, gold-plated GOOD WILL Razor is packed in a special GOOD WILL box. You get it and 10 marvelous new Gillette blades for the price of the blades alone. The razor is *free.* Don't wait. Your dealer's supply is limited. Get your free razor now by merely paying the regular price for the blades alone—$1.

THE GOOD WILL new Gillette RAZOR

The cellophane-wrapped GOOD WILL package contains one new Positive-Registration Gillette Razor, in enduring GOLD plate—and ten of the finest Gillette blades ever made—all for the price of the blades alone. The razor is FREE.

FANS PLAN GREAT RECEPTION TO FRED HOEY

HONORS FOR ANNOUNCER TOMORROW

By JOE CASHMAN

Tomorrow is Fred Hoey Day.

And as many fans as can be packed into spacious Braves Field will turn out to pay tribute to the popular baseball broadcaster.

Players, managers, owners and even umpires have had afternoons set aside in their honor here, there and everywhere since baseball began, but Hoey Day will be the first ever dedicated to a radio announcer.

Which is as it should be, for Fred is the most interesting, entertaining and accurate reporter of diamond doings who has ever manned a "mike" and deserves to be the first of his calling to receive the plaudits of the fans.

The committee in charge, headed by Johnny Igoe who conceived the idea, has arranged a stellar program.

There will be music and drill by two bands, singing and dancing by leading theatrical and radio personalities and, of course, the presentation of gifts to Hoey.

The announcer will be the recipient of a large sum of money, raised by the committee from the sale of tickets and buttons and contributions by Judge Fuchs, Bob Quinn and the Boston players, as well as countless presents received from admirers in all parts of New England.

Braves and Cards in Twin Bill

The baseball on the program will be furnished by our Braves and the champion St. Louis Cardinals in a doubleheader. If there were nothing else to attract the customers, this feature alone would come close to packing the park.

Tomorrow's capacity audience will be one of the most unique in baseball history. Thousands who have never seen a game and whose knowledge of the sport is limited to what they have learned of it from Hoey's broadcasts will be attending their first and, unless another Hoey day is held, their last big league contest. They'll be there to see the announcer and not the action on the field.

Also, there will be thousands present who have been converted into regular patrons by the announcer during the five years that he has been broadcasting at the local parks.

It is no breach of confidence to state that when the idea of broadcasting big league games in this city was first proposed, both Bob Quinn and Judge Fuchs believed that attendance would drop off as a result and agreed only because they wanted to bring a little sunshine into the lives of disabled veterans and the sick, infirm and aged who might enjoy listening to radio accounts of the tilts.

Hoey hadn't been on the air long, however, before attendance started to pick up instead of fall off and both prexies admitted that broadcasting was helping their business.

We may not have the best ball club in Boston, but we have got the best of baseball broadcasters, and we're going to tell the world about it tomorrow.

Jack Johnson Too Old to Exhibit

Chicago, June 19 (AP)—Jack Johnson, former world's heavyweight champion, is too old at the age of 54 years to appear either in exhibitions or contests.

That was the edict today of Gen. John V. Clinnin, president of the National Boxing Association. The age limit in the N. B. A. is 38 years.

COMPTON ROBSON MITCHELL HAVERS E. WHITCOMBE EASTERBROOK

DUNCAN C. WHITCOMBE HODSON DAVIES

They'll knock the little ball around at Winchester today, the members of the British Ryder Cup team, who are here on an American golf invasion including a battle with Walter Hagen's American professionals at Columbus, O. Left to right, kneeling, George Duncan, Charles Whitcombe (captain), Bert Hodson and Bill Davies. Standing, left to right, are: Archie Compton, Fred Robson, Abe Mitchell, Arthur Havers, Ernest Whitcombe and Sid Easterbrook.

MORGANS LOSE FIRST GAME

The Morgan Furniture Company baseball nine of Boston suffered its first defeat at the hands of the All-Stars of the Sunset League of Portsmouth, N. H.

Although suffering defeat the Morgan Company nine went to Portsmouth to meet the best players of that city.

They played this all-star team for the benefit of the unemployed of Portsmouth and a gathering of 5000 fans were on hand for the Field Day, which was featured by the baseball contest.

Following the day of sport, which was closed with a dinner at the Jarvis Tea Room, Mr. M. J. Whalen, prexy of the Sunset League, and Mr. Edward Barrack, captain of the Morgan team, were the speakers.

DeGlane Tells How He Won Success Abroad

This is the fifth of a series of articles in which Henri DeGlane, world's heavyweight wrestling champion, tells his life story to Jack Conway, Wrestling Editor of the Boston Evening American.

By HENRI DeGLANE
(As told to Jack Conway)

I finally decided to devote all of my time to professional wrestling. I felt that by doing so I would be able to battle my way to the heavyweight championship of the world.

As part of my plan to prove I was the best of the heavyweight wrestlers, I went on a tour of Europe in which I met all-comers. During this tour I wrestled in Germany, Portugal and Spain. I engaged in 25 matches and won them all.

I won most of these bouts by using a double arm lock. I would clamp on the double arm lock, pick up my opponent on my chest, throw him backwards and have him land on his back.

At the time Jean Jaryo was the European Greco-Roman heavyweight champion. He was meeting all-comers, agreeing to give any man he couldn't throw in one hour $500.

I challenged Jaryo, but he refused to meet me. So I went to the public through the newspapers. Every place Jaryo went I followed him with my challenges. This made it appear as if he were afraid to meet me.

The public then demanded that Jaryo give me a bout. It was arranged for Paris. In addition to agreeing to give me $500 if I went one hour with him, Jaryo consented to battle on a winner-take-all basis. A special purse had been put up on account of the importance of the contest.

The contest was held in the Cirque d'Hiver in Paris. The bout started at 12 o'clock on December 31, 1926 and so ushered in 1927.

Jaryo came rushing at me at the opening gong. He drove me back against the ropes, but couldn't tip me over.

Then for one hour the fans witnessed one of the most stirring wrestling bouts ever held in Paris. At the end of an hour neither of us had scored a fall and I was declared the victor. I received the entire purse of $1500 and the $500 Jaryo agreed to give to any man he was unable to toss in an hour.

This bout did more than anything else to establish me as a card in Europe.

I wrestled frequently, and experienced considerable success. I soon ran out of opponents.

The promoters were also having their difficulties, as the government had placed a tax of 33 per cent on all wrestling and boxing shows.

This made it difficult for a promoter to operate at a profit. When he got through paying the wrestlers or boxers, as the case might be, his rent, taxes and other expenses he usually found himself in the red.

No sport can prosper unless the promoter can make money. I have always believed in giving the promoter a break. This is why I decided to wrestle all my matches on a percentage basis following my victory over Strangler Lewis.

With wrestling going poorly in France, I started to think of America. I remember what Carpentier had told me of the possibilities for a star athlete in this country.

I made my decision in September of 1927. On November 3, 1927, I landed in New York.

(In tomorrow's Boston Evening American, DeGlane will tell of his early successes in America and of his invasion of Montreal.)

CARDS KNOCK SIEBOLD OUT

Continued From First Page

merich. Watkins tripled. Maguire threw out Frisch, holding Watkins on third. Collins singled, scoring Watkins. Hafey dropped a Texas leaguer in back of second, Collins going to third. Martin flied to Maguire. ONE RUN.

Braves—Hunnefield fanned. Flowers threw out Maranville. Berger flied to Frisch. NO RUNS.

SECOND INNING

Cardinals—Hunnefield threw out Wilson. Flowers flied to Berger. Hunnefield threw out Hallahan. NO RUNS.

Braves—Worthington singled. Sheeley walked. Schulmerich bunted and forced Sheeley, Hallahan to Flowers. Cronin hit to Collins and Schulmerich was forced at second, Collins to Flowers, Worthington scoring. Hallahan tossed out Maguire. ONE RUN.

THIRD INNING

Cardinals—Maguire threw out Adams. Watkins walked. Frisch singled, Watkins stopping at second. Collins flied to Schulmerich, and Watkins scored when Schulmerich dropped the ball when throwing. Hafey singled, Frisch taking third. Hafey stole second. Martin walked and Frisch scored when Spohrer let the fourth ball go by him. Wilson singled, scoring Hafey, Martin going to third. Flowers singled, scoring Martin, Wilson taking third. Sherdel relieved Seibold. A double steal, Wilson stole home and Flowers stole second. Hallahan fanned. FIVE RUNS.

Braves—Scolazi batted in place of Sherdel and fanned. Hunnefeld was called out on strikes. Flowers threw out Maranville. NO RUNS.

Singer Leaves Glass Jaw at Home

New York, June 19—The fellow who said "they never come back" evidently had not reckoned on Al Singer, who held the world's lightweight championship for a few months last year.

It was a different Singer who started a comeback last night by trouncing Lew Massey of Philadelphia in a 10-round scrap in the Madison Square Garden ring. The New Yorker had things almost all his own way, winning eight of the ten rounds.

Race Entries for Tomorrow

The Country Club Entries

FIRST RACE—The Quansett. Three-year-olds and up; about one mile and one-sixteenth; purse $800: Helen Talbott, Gormond, Marlboro, Conspirator, Porporino, Spice, Dawdle, Kaintuck, High Kilted, Catalonian, Sign Off, Friar Bacon, Gwynlyn, Handy, The Tattler, Flag of Fashion.

xApprentice allowance claimed.

Weather clear; track fast.

U. S. Soccer Body to Appeal on Pay

Chicago, June 19—Soccer appeared definitely off the 1932 Olympic program, when the United States Football Association refused to agree to the Olympic ruling that players may not be paid for loss of time. It was decided to appeal to the International Olympic committee for a revision of the rule, to permit amateur soccer players to compete under the rules of the International Football Association which permit pay for loss of time.

BRITISH TEAM IN TEST AT WINCHESTER

By BILL GRIMES

All roads lead to the Winchester Country Club this afternoon, when the British Ryder Cup team and their local amateur partners will stage an 18-hole best-ball medal play tournament.

The Britons tried out Winchester yesterday and found the course a real test. They had not played a round of golf since the British open championship at Carnoustie and therefore were a bit off color but will be in stride today.

The British professionals did not try to score yesterday. But they did try to putt without meeting with any great success.

Archie Compston appears more proficient playing the larger and lighter ball than any of his teammates. Compston is a "shut face" hitter and, therefore, is not troubled with the fade which results from hitting with an "open face."

In all probability, Walter Hagen is playing in his third last championship—the Western open at Dayton, Ohio. After this season the great Walter will retire from competitive golf. He will play in the U. S. open at Inverness and the P. G. A. championship at Wannamoisett.

Hagen was the Hagen of old yesterday at the Miami Country Club in Dayton, when he raced home in 32 after out to the turn in 36. Hagen has been resting since his tour of the country last winter and his legs are no longer bothering him.

Although Gerard Moore, Boston College, finished only six strokes back of Johnny Reese, Yale, in the first Paul Haviland Memorial tournament at the Yale course yesterday, having driven all night to New Haven. Dick Nugent and Joe Fay, who accompanied Moore trailed the B. C. captain-elect.

T. Phillip Perkins, the former British amateur champion, did not last long in the Metropolitan championship. He was eliminated in the first round by Dick Jones.

Diamond Dust

Jack Russell, most effective Red Sox pitcher this season, will go to the mound when the Fenway outfit opens its second Western trip in the first of a four-game series with the Tigers in Detroit this afternoon. George Uhle, who dropped a 3-to-1 decision to Russell here last week, is down to start for the Bengals.

Dazzy Vance earned a part of that $23,000 salary he is being paid by the Robins by fanning 11 of the Cubs and beating them, 7 to 5, in the first game of a double-header, yesterday, but the Robins failed to do any gaining as they were blanked by Pat Malone in the nightcap.

The champion St. Louis Cardinals have the material to meet any emergency. When "Lefty" Brandt started for the Tribe in the first game of the current series of the Wigwam, Manager Gabby Street of the visitors fielded a lineup of nine right-handed hitters. Had a right-hander started for the Tribe, the enemy pilot could have thrown as many as six left-handed batters into action.

With all their reserve strength, though, the Cards don't look like a championship aggregation without Shortstop Charlie Gelbert, who is at his home in Philadelphia convalescing from an arm injury.

The Cards' fifth inning yesterday was an unusual one. The champs didn't make a hit or run yet stole three bases. Pepper Martin reached on an error and pilfered second and third and Jake Flowers walked and stole second. This Martin lad, incidentally, is the fastest baseball human we have seen in many a moon.

Earl Adams, Cardinal third sacker, is now "Skippy" and not "Sparky" to his mates.

Johnny Neun ran into Gabby Street of the Cards while running through the coaching box chasing a fly which he missed early in yesterday's contest and then told the enemy pilot plenty for not getting out of the way. For a while, it looked as though the pair might come to blows, but the "umps" made no attempt whatever to restore order.

MAT SHOW AT REVERE TONIGHT

Wrestling fans have a rare treat in store tonight, when the Massachusetts Wrestling Association stages its first show at the Revere Cycle track.

The bill will feature two headline bouts, both of which will go best two falls out of three to a finish.

Fred Moran, well known to Boston fans, and light heavyweight champion of the world, will battle with "Wildcat" Ruddy. Ruddy is in the best condition of his career, and is determined that after tonight he will have the light heavyweight belt.

Former B. C. Star Meets Rumrill

Another main bout brings together Jumbo Rumrill, the man mountain from Vermont, who battles Tiger Jack Young, former B. C. football star, for the heavyweight championship of New England.

A long card of well known wrestlers will meet in the preliminaries.

CREDIT MEN TO WAR ON FRAUD

Plans for continuing the nationwide war on commercial fraud, which has been carried on by the National Association of Credit Men for the last six years, are to be considered at the national convention of the association in Boston, June 22-27, according to H. H. Humphrey, chairman of the fraud prevention committee of the Boston Credit Men's Association.

"Since 1925 the National Association of Credit Men has spent over $1,500,000 in the investigations of fraudulent bankruptcies, mail fraud schemes, and other devices to cheat creditors," Humphrey said. "It maintains a staff of 60 investigators, stationed in principal cities throughout the country, which is constantly engaged in gathering evidence in commercial fraud cases."

More than 1100 commercial crooks have been convicted and punished as a result of these investigations and several hundred others are now under indictment. Almost $2,000,000 has been recovered for creditors through the department's activities. During the past year the activities in New England resulted in 18 indictments and 17 convictions in its campaign against commercial fraud.

Alaska Pictured as Tourists' Mecca in the Ice Age

Pasadena, Cal., June 19 (AP)—Alaska was pictured in a report today as a tourists' paradise during the ice age, when glaciers covered most of the northern United States and Canada. This report was sent to the American Association for the Advancement of Science by Philip S. Smith of the United States Geological Survey.

It was a part of a symposium on the tracing of the origin of the first American some 10,000 to 30,000 years ago. Mr. Smith suggested that in tertiary time perhaps the span between Alaska and Siberia was all land—a complete isthmus.

ASP. 4512 OPEN EVENINGS

Noyes Buick

PRE-HOLIDAY OFFERINGS

Cars on sale today and tomorrow that are immaculately fresh inside and out. . . . Many built to sell for three times the price.

Our tremendous volume of orders, which leads all others by a wide margin . . . as State registrations prove . . . make such values possible.

There is no other car stock quite like this . . . *for there is only one Noyes Buick with a reputation that brings so many hundreds of repeat orders year after year.*

Come early! Ordinarily the prices would average at least $100 more.

Open Evenings Except Saturday

Ely's Prosperity Loan
Succeeding in Bay State

Governor Joseph B. Ely declares that the $5,000,000,000 prosperity bond issue which William Randolph Hearst proposes to supply employment, relieve distress, stimulate business, dissipate fear and usher in the period of golden prosperity is exactly the sort of program he has inaugurated in this State with a commendable measure of success.

Upon his insistence, the Legislature authorized a bond issue in excess of $12,000,000. Combined with the sums raised from ordinary revenue, in excess of $30,000,000 will be spent in Massachusetts this year for constructive public works.

If every State pitched in according to its means, close to one and one-half billions would be expended by the commonwealths alone.

They are forty-eight separate units. What an electric effect upon the morale of the country if the national government itself, representing the combined wealth of all the States, would undertake a single massive development of the character Mr. Hoover has exploited in words if not in deeds!

The Panama Canal has been a boon to transportation. But its largest and most beneficent effect was upon the confidence of the American people. It was a symbol of the fact that they could construct the greatest canal in the world against natural barriers and sickness and distress which a foreign Nation could not overcome.

The people of America need only some such symbol of confidence at this time. Mr. Hearst proposes that symbol.

In Massachusetts we have had distress common to the business depression, but the plain fact is that our condition as a whole has been much more satisfactory than the other sections of the country.

And that condition is due quite largely to the fact that men like Governor Ely have been equipped with the courage and confidence to build for the future of their State on the plan which Mr. Hearst has submitted for the Nation as a whole.

Business is not dead. It has been sleeping. It has needed something and somebody to wake it up.

'Spat-Wearing' Envoys
Connery Would Eliminate Them

Congressman "Billy" Connery of Lynn is an outspoken man. He says the diplomatic corps of the United States is being largely recruited from multi-millionaires or their young scions who believe that the essentials of American statesmanship are to wear spats and to swing a walking stick at the proper angle.

"After a year or two abroad," he says, "they become more French than the French, more British than the English.

"They whisper to the foreign potentates, 'Don't judge us by the ordinary, average American tourists you see here. We, not they, are the class of America.'"

Connery would eliminate this fawning and cringing in American statesmanship by increasing the salaries of the diplomatic corps in order that "ordinary, average" Americans could afford to enlist in that service.

"Then," he says, "we would get real Americans of the warp and woof and inherent strength that is America."

We have in the diplomatic service abroad many estimable men. They are career men who have given their lives to it, at lowly salaries, and whose American ardor remains undiminished after long years in foreign countries. They have not the means to carry on as Ambassadors, nor do they have the political pull necessary to secure appointment to those high posts.

It is true, as Connery says, that the crop of embryonic statesmen produced by the last few Administrations at Washington have been better versed in the art of balancing a teacup properly on their thin knees than fighting for the rights of Americans abroad.

Beneath the sign "American Consulate" in an Italian city, a disgusted American newspaperman recently wrote, "For all but Americans."

Science on the Rampage

Ford, so it is reported, is on the track of a process to turn melons into automobiles. The fairy godmothers in the story books were always doing something like that, changing pumpkins into coaches.

We are all for helping the farmers, but there is such a thing as going to extremes. What has Ford got against cantaloupes? The Cucumis Melo is a perfect fruit, a gift of the gods, a musky treasure-box of sunlight, whether raised in a hothouse or on a New England stony farm.

Nobody knows why he picked on cantaloupes. There might be some hidden complex of a gastric origin. Someone may have told him to put salt on them when he wanted sugar, or vice versa.

It seems a pity to turn cantaloupes into flivvers. He might look into the possibilities of spinach, which, as a vegetable, is abhorrent to all citizens now in the nursery.

Science ought to be curbed a little. The Corn Cob Smokers' National Guild has about disbanded, because misguided scientists have diverted cobs from their natural functions as pipes into coal-tar or nitric acid or something equally unpleasant.

And now cantaloupes are to be transmogrified. Small wonder the foes of science are on the increase.

A Roof Sitter

Most men feel sympathy for that Californian whose wife said in divorce proceedings:

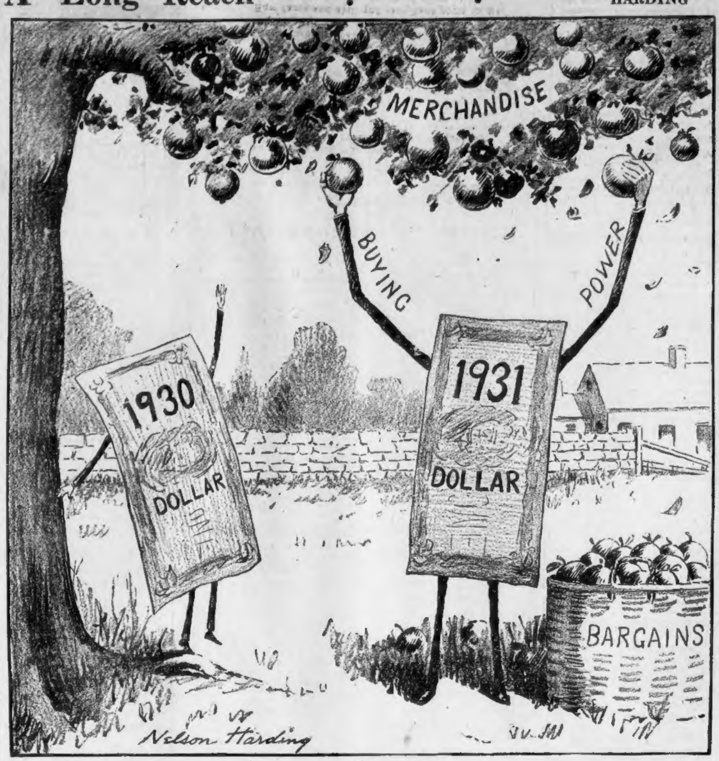
"He would get up at night and prowl about for no reason at all. Sometimes he climbed up on the roof. He said he wanted to be free to do as he liked."

Women always seem to fit in better with established customs. Men, all of them, if they would but admit it, understand exactly how that man felt. He felt stifled. He wanted to go off to the South Seas and never wear a necktie again, or go to Cuba and eat sugarcane raw, or fly to Spitzbergen and wrestle with polar bears. But since he couldn't do any of those things, he got up, prowled around, and then sat on the roof a while.

The lady, naturally, got a divorce. Judges have to keep up the bluff, and pretend they never felt a yearning to go sit on the roof.

A Long Reach :-- -:-

By NELSON HARDING



Listen, World!
By Elsie Robinson

They Have Buck Fever

FUNNY THING—brains usually affect women like a dose of hives. Make them so edgey that they can't get along with themselves or anyone else.

Elsie Robinson

Now a man can stand a lot of brains without getting upset. In fact, the brainiest men you know are usually the coolest. They go along just as if nothing unusual were happening. They act like everyone else. Often you'd never even guess they had brains, they're so easy going.

And, of course, that's natural enough. Brains are nothing new to men. They've been having them (such as they are) and using them since Adam framed that first swift alibi. They don't have to prove their intelligence to the other boys. Indeed, they've learned that the smarter a guy is, the more he hides it. But women—they're different.

The minute a woman gets brainy the whole world has to know it. She isn't content to just amble along and enjoy her own intelligence. She acts as if you were always dasting her to prove it. And she proves it all over the lot. She tells you what's what about everything. Having experted her own family, she proceeds to manage the universe.

And frequently she manages it quite well. For there's no denying that women have brains. Mighty smart ones. Quite as keen as men. But, migosh, what a noise they make about them! And what a lot of space they require to demonstrate their intelligence!

And, again, the reason's plain enough.

Ever see a man with buck fever? For a year that man has been waiting for deer season to open. For a year he has been cleaning and oiling his new gun . . . boasting of what he was going to do. And now at last his chance has come. Here's his opportunity to put it all over the fellows at home. For before him stands a big five-pointer. A dandy shot—one steady aim will do it.

But suddenly he begins to shake!

It's all too wonderful—too thrilling!

He's so overcome by the magnificence of his opportunity that he gets the jitters . . . aims in every direction . . . shoots everything in sight. HE HAS BUCK FEVER.

And THAT'S the condition of most ladies with brains.

For centuries 'n' centuries women have been waiting for their chance. They have always had brains but they have never been able to use them much.

Due to a lot of hard breaks, females have had to pretend that they were clinging vines or contented cows or some other variety of nitwit. They were allowed to use every device but intelligence. And all the time they were simply wild to prove that they had brains as well as men . . . that they could do something beside ga-ga and goo-goo.

And now, at last, their chance has come!

It's open season for brains, regardless of sex. And the ladies can make their killing.

But it's all so new, so marvelous, that it goes to their heads. AND THEY GET BUCK FEVER . . . AND SHOOT AT EVERYTHING IN SIGHT, REGARDLESS.

But don't worry. Men with buck fever get over it. Pretty soon they grow used to holding that new gun. Then they make their killing as casual as though they were swatting mosquitos.

LADIES, TOO, CAN LEARN.

And it will certainly be a lot easier living around these parts when they do.

Copyright, 1931, for the Boston Evening American.

Wise Sayings

Anger makes dull men witty, but it keeps them poor. —Bacon.

The righteous and the wicked are separated by a gulf of fire. —Phelps.

A judicious reticence is hard to learn, but it is one of the great lessons of life. —Chesterfield.

Life outweighs all things if love lies within it. —Goethe.

McIntyre
New York Day by Day

Thoughts While Strolling

NEW YORK, June 19—Thoughts while strolling: Mrs. Helen Gould's window hyacinths are dusty again. Faithful on bus tops will lift hats passing St. Patrick's. Inez and Octavus Roy Cohen. What became of Trader Horn? About time for another Amos 'n' Andy or a Vallee on the radio. You know, something new.

James Montgomery Flagg, a Pelham Manor boy, who made good in the city. A Vocamat — "record your voice and send to mother." And Broadway has that hall of Spanish Inquisition horrors again. A cellar cabaret, "The Hot Desire." The brilliantly lighted night stocking stores.

When I see a brief case I somehow think of H. L. Mencken. They say all those little sea horses died at the Aquarium. The writing lady Ursula Parrott. The restaurant with wise cracks all over the walls. Such as: "Wanted: College men who see double. To read gas meters."

Lads who wear bilious green shirts and bright pink ties. A movie star I admired until she endorsed a washing soap. But after all it is none of my business if they want to pick up a little extra jack. Get us out of this depression, Mr. Hoover, and nothing will ever worry me again.

Now the flappers are rouging the inside of their nostrils. The children's manicure salon near the Savoy-Plaza. Moss and weeds springing up between old stones somehow make me melancholy. And lilies give me the whilly-whangs. What I could do to a mess of turnip greens.

Bruce Barton's rusty red hair. I miss the apple sellers. No jewel to me suggests the dignity of a cameo. And nothing vulgarity like a huge diamond.

• • •

When H. N. Swanson, editor of College Humor, married recently Frank Sullivan wired him: "Marriage is a great institution and will, I think, eventually supplant the horse."

• • •

In 1879 the New York telephone directory was a foot long card listing 252 names. There were no numbers. One merely told the operator the subscriber's name. The cost was $240 a year and only the wealthy indulged what was looked upon as a fashionable caprice. Today the cost to talk to hundreds of thousands is only a fraction of that.

• • •

To this day in Plattsburg, Mo., people wanting the Laclede Hotel say to the operator, "Give me the hotel." There are two other hotels but the Laclede is "the hotel"—$2 a day, clean roller towels daily and a choice of three meats for supper. To say nothing of a chair at the curb in the evening to watch the 8:15 post-office crowd saunter by.

• • •

Plattsburg has the makings of an American spa. A few miles from town is a natural spring gushing medicinal water, tasting like the smell of a tannery on a hot day. At intervals a hand sized boom got under headway and civic enthusiasm knocked the stars. But the Missouri Baden-Baden got no further than a lop sided rest house and a public drinking cup caked with rust.

• • •

But to get back to New York. In a dazzling parfumier's shop on the upper avenue I asked the price of an oddly blown bottle with delicately flanged stopper. The price—$68—nearly hatched a setting of hiccups. In a weak moment I confessed, shamefacedly, to the lordly frock coat that I was attracted to beautiful bottles as some idealized paintings. I learned such a yearning had not the rarity of idiosyncrasy. Bottle collectors roam the world. There is the Bottle Hunter's Club hard-by that windy passage known as Hind's Head Alley in London. Paris has its Alliance Boutelle. Indeed my informant was an old bottle boy himself. I almost asked him out to share a stale crumpet and a spot of tea, the rollicking old beau.

By Edgar A. Guest
Just Folks

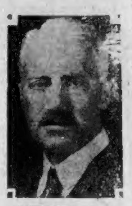
Practice

An eager youth who loved the violin
Once heard the greatest player of the day
And sought him out and asked the genius gray
How he the topmost rung of fame might win.
"Last night," said he, "my father took me in
To hear you and to watch you while you play.
I want to know the secret and the way."
The genius said: "Tomorrow we'll begin.
Come back at 9 and sit within the hall
Just where you sat last night and you shall see
Where all is dark, with none to cheer at all,
How fame and skill and ease have come to me."
And all day long he practiced there to let
A youngster learn what audiences forget.

(Copyright, 1931, Edgar A. Guest)

Self-Help in a Crisis
By Bainbridge Colby

THE tragic distress which follows in the wake of a prolonged commercial depression, such as we are passing through, is hard to fully comprehend.



BAINBRIDGE COLBY

To many people the depression is only a phase in the unending cyclical movement of business—the close of a period of prosperity, but the certain precursor of a return of good times.

But there is more in the present crisis than the customary phenomena of bad times, such as the loss of that pleasant sense of surplus and assured security, the pinch of lessened income and the shrinkage of estates.

THERE IS WANT AND SUFFERING ON A NATION-WIDE SCALE BEYOND THE REACH OF RELIEF.

There is sickness without medical care; hunger without hope of succor.

There is dying and despair, and, what is almost as grim—there are several millions of Americans, men of character, strength, industry, THE WILL TO WORK, and who need work to live—WITH NO WORK FOR THEM TO DO.

* * *

A well-known social worker in New York, who moves among the humble, and knows the gaunt conditions that exist a few blocks either way from our crowded and fashionable avenues, told me recently that the number of the daily burials in the city's Potter's Fields of children who have died of starvation—malnutrition, it is called—was appalling. This, said he, is what unemployment means.

The growing sense of these conditions, which are country-wide, is responsible for the serious reception of Mr. Hearst's proposal to use our powerful financial credit to meet and solve the crisis.

The appropriation of five billion dollars—the addition of so vast a sum to the national debt—may well be viewed with apprehension at a time like this, when revenues are falling and retrenchment seems the duty of the hour.

EVERYTHING, HOWEVER, IS RELATIVE.

The question is WHETHER the extent of the UNEMPLOYMENT NOW PREVAILING, with its attendant suffering and distress, IS SUCH A NATIONAL EMERGENCY AS CALLS FOR HEROIC MEASURES—FOR A COURAGEOUS AND STRIKING REMEDY.

That the sum could be raised by an offering of Government bonds for popular subscription, no one doubts; nor that the distribution of so great a sum to our people, NOT AS A DOLE, but as a means of inaugurating and carrying to completion great and needed public works of permanent value to the nation, would bring not only needed relief to the unfortunate, but would instantly stimulate and revivify, as nothing else could, our halted and drooping prosperity.

* * *

During the Great War, we voluntarily assumed, through the purchase of bonds issued by the United States, a much greater burden, in order to meet an emergency which, we then thought, justified the effort and the sacrifice.

THE TOTAL OF OUR ADVANCES TO OTHER NATIONS not for munitions of war alone, but for the feeding and sheltering of their civil populations as well, from April, 1917, to November, 1920, was $9,466,000,000.

And it should be remembered that our great prosperity, which began during the latter years of the war and continued thereafter, sprang directly from the advances we made to our European allies, under stipulation that the amounts advanced should be expended in this country for commodities which we produced.

* * *

Indeed, it can truly be said that THE PROSPERITY of which we have talked and heard so much WAS IN A VERY REAL SENSE SELF-INDUCED or SELF-ORIGINATED, arising, as it did, from sums distributed by the United States Treasury, which were provided by popular subscription to the Liberty Bond issues.

IS THE AMERICAN EMERGENCY OF TODAY LESS WORTHY OF OUR EXERTIONS AND SACRIFICES TO RELIEVE IT, THAN THE EUROPEAN EMERGENCY OF YESTERDAY? Are the sufferings of our own citizens less appealing to the American spirit than the needs of distant peoples?

It is a question of correctly gauging the emergency and of determining without delay whether existing conditions justify so stalwart and far-reaching a measure of self-help.

The proposal is bold, but it is obviously the result of study and reflection. It has been received everywhere with respect. This is shown in the comments of the press, of all shades of opinion and political predilection, and in its indorsement by leading citizens throughout the land.

The country will soon demand an opportunity to express its judgment upon the proposal.

What Do You Know?
BOSTON'S ORIGINAL KNOWLEDGE TEST

Mark each statement "True" or "False:"

1. **Bilingual means using both hands equally well.**
2. **Myopic means farsightness.**
3. **The purpose of most of Dickens' novels was to stimulate social reform.**
4. **The Rosetta stone is the key to Norwegian writing.**
5. **A caisson is a device for working under water.**
6. **Most of the play "Macbeth" takes place in Denmark.**
7. **Lady Teazle is a character in "The Rivals."**
8. **Wood-turning machines are called lathes.**
9. **A platform of a party is a statement of their political principles.**
10. **Belfast is in the south of Ireland.**

Do you know:

11. **In what line was Euripides famous?**
12. **What is the value of the Welland Canal?**
13. **Of what war was Roosevelt the hero?**
14. **What is the important part of the compass?**
15. **In what book by Homer does Circe appear?**

Answers to today's test:

1. False—speaking two languages. 2. False—nearsightedness. 3. True. 4. False—Egyptian. 5. True. 6. False—Scotland. 7. False—"The School for Scandal." 8. True. 9. True. 10. False—north. 11. Greek tragic poet. 12. Enables vessels to pass around Niagara Falls. 13. Spanish-American. 14. Magnetized needle. 15. Odyssey.

Capital Silhouettes

IT SEEMS such a pity to have disclosed to the world the pitiful figures of our skimpy little army, when Secretary Stimson could just as well have slipped in the figures of the Boy Scouts by way of padding.

• • •

YOU CAN lead the shippers of the country to a 15 per cent increase in railroad freight rates, but you can't make 'em ship.

• • •

MR. HOOVER tells the Illinois Legislature that State Governments are "laboratories," and he might have added that sometimes Governor Giff Pinchot's political test tubes explode with a nerve-racking bang.
